The complete text of this document also may be purchased from the Commission's copy contractor, Best Copy and Printing, Inc., 445 12th Street, SW., Room CY-B402, Washington, DC 20554. The full text may also be downloaded at: <http://www.fcc.gov>. By this document, the Commission establishes comment and reply

comment filing dates for receiving updated comments and refreshing the record on a Further Notice of Proposed Rulemaking addressing the status of the market for the provision of telecommunications services in Multiple Tenant Environments (MTEs), and on whether the prohibition on exclusive access contracts in commercial MTEs should be extended to residential MTEs. The filing dates established replace filing dates previously established in the Competitive Networks Further Notice of Proposed Rulemaking, DA 01-750, 66 FR 2322, January 11, 2001, released by the Commission on October 25, 2000. The proceeding for which the Commission seeks to refresh the record is intended to enable the Commission to undertake appropriate review of the status of the deployment of competitive and advanced telecommunications services in MTEs, and to determine whether additional action is necessary to address the ability of premises owners to discriminate unreasonably among competing telecommunications service providers.

Interested parties may file comments on or before July 30, 2007 and reply comments on or before August 28, 2007. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS) or by filing paper copies. Comments filed through the ECFS can be sent as an electronic file via the Internet to <http://www.fcc.gov/cgb/ecfs/>. Generally, only one copy of an electronic submission must be filed. If multiple docket or rulemaking numbers appear in the caption of the proceeding, commenters must transmit one electronic copy of the comments to each docket or rulemaking number referenced in the caption. In completing the transmittal screen, commenters should include their full name, U.S. Postal Service mailing address, and the applicable docket or rulemaking number, in this case, WT Docket No. 99-217 and CC Docket No. 96-98. Parties may also submit an electronic comment by Internet e-mail. To get filing instructions for e-mail comments, commenters should send an e-mail to ecfs@fcc.gov, and should include the following words in the body of the message, "get form." A sample form and directions will be sent in response. Parties who choose to file by paper must file an original and four copies of each filing. If more than one docket or rulemaking number appears in the caption of this proceeding, commenters must submit two additional copies for each additional docket or rulemaking number.

Paper filings can be sent by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail (although we continue to experience delays in receiving U.S. Postal Service mail). [ET Docket No. 03-237; FCC 07-78]

Interference Temperature Operation

AGENCY: Federal Communications Commission.

ACTION: Termination of proceeding.

SUMMARY: This document terminates the "Interference Temperature Model for Quantifying and Managing Interference" proceeding. While there was some support in the record for adopting an interference temperature approach, no parties provided information on specific technical rules that we could adopt to implement it. Further, with the passage of time, the NOI/NPRM and the record in this proceeding have become outdated. The Commission is therefore terminating this proceeding without prejudice to its substantive merits.

DATES: This proceeding is terminated as of May 4, 2007.

FOR FURTHER INFORMATION CONTACT:

Hugh VanTuyl, Policy and Rules Division, Office of Engineering and Technology, (202) 418-7506, e-mail Hugh.VanTuyl@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *Order*, ET Docket No. 03-237, FCC 07-78, adopted May 2, 2007 and released May 4, 2007.

The full text of this document is available on the Commission's Internet site at www.fcc.gov. It is also available for inspection and copying during regular business hours in the FCC Reference Center (Room CY-A257), 445 12th Street, SW., Washington, DC 20554. The full text of this document also may be purchased from the Commission's duplication contractor, Best Copy and Printing Inc., Portals II,

445 12th Street, SW., Room CY-B402, Washington, DC 20554; telephone (202) 488-5300; fax (202) 488-5563; e-mail FCC@BCPIWEB.COM.

Summary of the Order

1. On November 13, 2003, the Commission adopted a *Notice of Inquiry and Notice of Proposed Rule Making* (NOI/NPRM), 69 FR 2863, January 21, 2004, in this proceeding. The NOI/NPRM sought comment on the need for, development of, and implementation of, a new "interference temperature" model for managing interference. That approach would shift the current method of assessing interference which is based on transmitter operations, to an approach that takes into account the cumulative effects of all undesired radiofrequency energy, i.e., energy that may result in interference from both transmitters and noise sources, that is present at a receiver at any instance of time. The NOI/NPRM also sought comment on establishing interference temperature limits and procedures for assessing interference temperature in the 6525-6700 MHz band and portions of the 12.75-13.25 GHz band.

2. Commenting parties generally argued that the interference temperature approach is not a workable concept and would result in increased interference in the frequency bands where it would be used. While there was some support in the record for adopting an interference temperature approach, no parties provided information on specific technical rules that we could adopt to implement it. Further, with the passage of time, the NOI/NPRM and the record in this proceeding have become outdated. The Commission is therefore terminating this proceeding without prejudice to its substantive merits.

3. The Commission will not send a copy of this *Order* in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act, *see* 5 U.S.C. 801(a)(1)(A), because the *Order* does not adopt any rules it only terminates the proceeding.

Ordering Clauses

4. Pursuant to sections 4(i) and 4(j) of the Communications Act, 47 U.S.C. sections 154(i) and 154(j), ET Docket No. 03-237 is terminated, as of May 4, 2007.
