DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket No. FEMA-D-7800]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed Base (1% annual chance)

Flood Elevations (BFEs) and proposed BFEs modifications for the communities listed below. The BFEs are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed BFEs for each community are available for inspection at the office of the Chief Executive

Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: William R. Blanton, Jr., Engineering Management Section, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3151.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or

pursuant to policies established by other Federal, State or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act. This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Regulatory Classification. This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This proposed rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This proposed rule meets the applicable standards of Executive Order 12988.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for part 67 continues to read as follows:

Fisheries of the Exclusive Economic Zone Off Alaska; Allocating Bering Sea/Aleutian Islands Fishery Resources; Notice of Limited Access Privilege Program Public Workshop

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification of an additional public workshop.

SUMMARY: NMFS will present an additional public workshop in June 2007 on the proposed program to implement the Amendment 80 Program (Program) for potentially eligible participants and other interested parties. The Program would implement a limited access privilege program (LAPP) for specific groundfish fisheries in the Bering Sea and Aleutian Islands management area (BSAI). At the workshop, NMFS will provide an overview of the proposed Program, discuss the key proposed Program elements, and answer questions. NMFS is conducting this public workshop to provide assistance to fishery participants in understanding and reviewing this proposed Program.

DATES: The workshop will be held on Monday, June 18, 2007, from 1 p.m. to 4 p.m. Pacific standard time.

ADDRESSES: The workshop will be held at the Nordby Conference Center, Fishermen's Terminal, 3919 18th Ave. W. Seattle, WA 98119.

FOR FURTHER INFORMATION CONTACT:

Glenn Merrill, 907-586-7228 or glenn.merrill@noaa.gov.

SUPPLEMENTARY INFORMATION: NMFS has published a proposed rule that would implement a LAPP for Amendment 80 to the Fishery Management Plan for BSAI Groundfish (FMP) (72 FR 30052, May 30, 2007). Among other things, Amendment 80 would allocate specific BSAI groundfish resources among a defined group of harvesters under a LAPP; limit the bycatch of halibut and crab resources; assign Amendment 80 quota share (QS) that could be used to yield an exclusive harvest privilege on an annual basis; allow Amendment 80 QS holders to form a cooperative with other Amendment 80 QS holders on an annual basis to receive an exclusive harvest privilege; implement use caps to limit the amount of Amendment 80 QS a person could hold; limit the total amount of catch in other groundfish fisheries that could be taken by participants in the Program; ensure minimum retention of groundfish while fishing in the BSAI; and establish necessary monitoring and enforcement standards. Amendment 80 was approved by the North Pacific Fishery Management Council on June 9, 2006.

In addition to other laws, the Program is specifically designed to meet the requirements of:

- Section 219 of the Consolidated Appropriations Act of 2005 (Public Law 108-447; December 8, 2004), which defined the Amendment 80 sector and implemented a capacity reduction program for several catcher/processor sectors;

- Section 416 of the Coast Guard and Maritime Transportation Act of 2006

(Public Law 109-241; July 11, 2006), which amended provisions of the Community Development Quota (CDQ) Program in the Magnuson-Stevens Fishery Conservation and Management Act; and

- The Magnuson-Stevens Fishery Conservation and Management Reauthorization Act (Public Law 109-479, January 12, 2007), which modified provisions related to the CDQ Program and instituted other measures applicable to LAPPs.

NMFS is conducting this public workshop to provide assistance to fishery participants in understanding and reviewing the proposed requirements. A similar workshop was held May 23, 2007 (72 FR 27798, May 17, 2007). At the workshop, NMFS will provide an overview of the proposed Program, and discuss the key Program elements, including: quota share application; cooperative and limited access participation provisions; cooperative quota transfer provisions; measures to establish sideboard limits to protect non-LAPP fishery participants, the appeals process; catch accounting; monitoring and enforcement; and electronic reporting. Additionally, NMFS will answer questions from workshop participants. For further information on the Program, please visit the NMFS Alaska Region website at <http://www.fakr.noaa.gov>.

Special Accommodations

This workshop is physically accessible to people with disabilities. Requests for special accommodations should be directed to Glenn Merrill (see **FOR FURTHER INFORMATION CONTACT**) by June 11, 2007.

Dated: May 31, 2007.
