IV. Commission's Findings and Order Granting Accelerated Approval of the Proposed Rule Change

After careful review, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.¹² In particular, the Commission finds that the proposed rule change is consistent with Section 6(b)(5) of the Act,¹³ which requires that an exchange have rules designed, among other things, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. The Commission believes that this proposal should benefit investors by increasing competition among markets that trade the Shares.

In addition, the Commission finds that the proposal is consistent with Section 12(f) of the Act,¹⁴ which permits an exchange to trade, pursuant to UTP, a security that is listed and registered on another exchange.¹⁵ The Commission notes that the Shares are currently trading on Nasdaq pursuant to UTP on a pilot basis and that it previously approved the listing and trading of the Shares on NYSE.¹⁶ The Commission also finds that the proposal is consistent with Rule 12f-5 under the Act,¹⁷ which provides that an exchange shall not extend UTP to a security unless the exchange has in effect a rule or rules providing for transactions in the class or type of security to which the exchange extends UTP. The Exchange has represented that it meets this

¹² In approving this rule change, the Commission notes that it has considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

¹³ 15 U.S.C. 78f(b)(5).

¹⁴ 15 U.S.C. 78l(f).

¹⁵ Section 12(a) of the Act, 15 U.S.C. 78l(a), generally prohibits a broker-dealer from trading a security on a national securities exchange unless the security is registered on that exchange pursuant to Section 12 of the Act. Section 12(f) of the Act excludes from this restriction trading in any security to which an exchange "extends UTP." When an exchange extends UTP to a security, it allows its members to trade the security as if it were listed and registered on the exchange even though it is not so listed and registered.

requirement because it deems the Shares to be equity securities, thus rendering trading in the Shares subject to the Exchange's existing rules governing the trading of equity securities.

The Commission further believes that the proposal is consistent with Section 11A(a)(1)(C)(iii) of the Act,¹⁸ which sets forth Congress' finding that it is in the public interest and appropriate for the protection of investors and the maintenance of fair and orderly markets to assure the availability to brokers, dealers, and investors of information with respect to quotations for and transactions in securities. Quotations for and last-sale information regarding the Shares are publicly available on the Web sites of the Trust, Nasdaq, and NYSE. The Web site for the Trust also disseminates information about the prior business day's NAV and the reporting closing price, the midpoint of the Bid-Ask Price in relation to the NAV as of the time the NAV is calculated, discount and premium information of the Bid-Ask Price against the NAV, the prospectus, the various holdings of the Trust, the Basket Amount, and other applicable information. During regular trading hours, major market data vendors disseminate at least every 15 seconds the values of the GSCI, GSCI-ER, and Index.¹⁹ In addition, NYSE disseminates through the facilities of CTA an updated ITV on a per-Share basis at least every 15 seconds during the trading day. The Trustee calculates and simultaneously disseminates once each business day to all market participants the NAV per Share. Also, futures quotes and last-sale information for the commodities underlying the Index and the CERFs are widely disseminated through a variety of market data vendors.²⁰

The Commission notes that, if the Shares should be delisted by the original listing exchange, the Exchange would no longer have authority to trade the Shares pursuant to this order.

In support of this proposal, the Exchange has represented that its surveillance procedures are adequate to address any concerns associated with the trading of the Shares on Nasdaq on a UTP basis. This approval order is conditioned on the Exchange's adherence to this representation. In the Pilot Order,²¹ the Commission noted that exchanges that trade commodity-related securities generally have in place surveillance agreements with

markets that trade the underlying securities. In its proposal to establish the pilot trading period, the Exchange represented that it was in the process of completing these surveillance arrangements and expected to do so "in the near future." The Exchange recently provided the Commission with evidence that it has completed these surveillance arrangements.

The Commission finds good cause for approving this proposal before the thirtieth day after the publication of notice thereof in the **Federal Register**. As noted above, the Commission previously found that the listing and trading of the Shares on NYSE is consistent with the Act and approved the trading of the Shares on Nasdaq pursuant to UTP on a pilot basis. The Commission presently is not aware of any regulatory issue that should cause it to revisit that finding or would preclude the continued trading of the Shares on the Exchange pursuant to UTP. Therefore, accelerating approval of this proposal should benefit investors by continuing, without undue delay, competition in the market for such Shares.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,²² that the proposed rule change (SR-NASDAQ-2007-054) be, and it hereby is, approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.²³

Florence E. Harmon,
Deputy Secretary.
