Centers for Disease Control and Prevention

[30Day-07-05BL]

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-5960 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of

Management and Budget, Washington, DC or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

Proposed Project

Worksheet for Identifying Medical Conditions among Refugees and Immigrants—New—National Center for Preparedness, Detection, and Control of Infectious Diseases (NCPDCID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

CDC is requesting OMB approval of a worksheet to be used by state and local health coordinators to identify and monitor specific medical conditions of public health importance in newly arrived refugees and immigrants. CDC requests notification of specific medical conditions listed on the Worksheet, including Class A and B health conditions not recognized overseas, as well as any discrepancies in the overseas and U.S.-based medical evaluations. Completion of the Worksheet and furnishing the requested information are essential to preventing the spread of disease.

Respondents are State and local health officials who will complete the Worksheet and return it to CDC. The Worksheet will be completed whenever a medical condition is identified in a newly arrived immigrant or refugee. The information collected in the Worksheet will be used by CDC to identify and rectify deficiencies in the overseas medical evaluation process, and evaluate and optimize overseas screening procedures and guidelines in the future.

The only cost to respondents is their time to complete the Worksheet. The total estimated annualized burden hours are 4,250.

Respondents	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
State and local health agencies	300	170	5/60

Dated: June 5, 2007.
Maryam I. Daneshvar,
Acting Reports Clearance Officer, Centers for Disease Control and Prevention.

Proposed Project

Low Back Exposure Assessment Tool for Mining—NEW—National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Federal Mine Safety & Health Act of 1977, Section 501, enables CDC/NIOSH to carry out research relevant to the health and safety of workers in the mining industry. Mining has one of the highest incidence rates for back pain of any industry, and back injuries are consistently the leading cause of lost work days in the industry. The objective of this project is to develop a self-administered, paper and pencil risk assessment tool for the development of low back disorders specifically directed towards use in the mining industry. Many current methods of assessing the

risk of low back disorders do not address stressors that are relatively unique to the mining environment, including the restricted vertical spaces in many coal mines that require workers to adopt stooping or kneeling postures for extended periods of their workday.

The low back exposure assessment tool for mining will assess various occupational exposures associated with development of back disorders in the literature (postural demands, lifting, whole body vibration exposure, individual and psychosocial issues), as well as specific mining stressors and will develop a score that will be used to assess the degree of risk for the job and the individual. The tool will be useful in both prioritizing jobs that need interventions to reduce low back disorder risk, and in evaluating the effectiveness of interventions through tool administration before and after the implementation of an intervention. There will be no cost to respondents other than their time. The total estimated annualized burden hours are 80.

ESTIMATED ANNUALIZED BURDEN HOURS

Respondents	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Surface and Underground Miners	320 miners	1	15/60

Dated: June 5, 2007.
