Survey of Illness and Injury Among Backcountry Users in Yellowstone National Park—Revision—Coordinating Center for Infectious Diseases (CCID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The backcountry encompasses primitive or wilderness areas that lack most facilities and services and that are reached primarily by hiking, boating, or horseback. In general, backcountry users must bring in their own supplies (such as shelter, food, water, or water treatment supplies). As many as 56% to 94% of long-distance hikers and backpackers
