

the antidumping duty order on stainless steel bar from France with respect to these companies. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 72 FR 20986 (April 27, 2007).

Partial Rescission of Review

On May 24, 2007, Ugitech timely withdrew its request for an administrative review of its sales during the above-referenced period. Pursuant to 19 CFR 351.213(d)(1), the Secretary will rescind an administrative review, in whole or in part, if a party who requested the review withdraws the request within ninety days of the date of publication of notice of initiation of the requested review. Because Ugitech has withdrawn its request for review within the 90-day period and no other party requested a review of Ugitech, in accordance with 19 CFR 351.213(d)(1), we are rescinding this review with respect to Ugitech.

The Department will issue appropriate assessment instructions directly to U.S. Customs and Border Protection (CBP) 15 days after the publication of this notice. The Department will direct CBP to assess antidumping duties at the cash deposit rate in effect on the date of entry for entries during the period March 1, 2006, through February 28, 2007.

This notice is published in accordance with section 777(i)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

Dated: June 11, 2007.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

Notice of Extension of the Deadline for Determining the Adequacy of the Antidumping Duty Petitions: Certain Steel Nails from the People's Republic of China and the United Arab Emirates

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: June 15, 2007.

FOR FURTHER INFORMATION CONTACT:

Matthew Renkey (People's Republic of China) or David Goldberger (United Arab Emirates), AD/CVD Operations, Offices 2 and 9, Import Administration, International Trade Administration,

U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-2312 or (202) 482-4136, respectively.

SUPPLEMENTARY INFORMATION:

Initiation of Investigations

The Petitions

On May 29, 2007, the Department of Commerce (Department) received antidumping duty petitions (petitions) filed by Mid Continent Nail Corporation, Davis Wire Corporation, Gerdau Ameristeel Corporation (Atlas Steel & Wire Division), Maze Nails (Division of W.H. Maze Company), and Treasure Coast Fasteners, Inc. (collectively, the petitioners) on behalf of the domestic industry producing certain steel nails.

Determination of Industry Support for the Petition

Section 732(b)(1) of the Tariff Act of 1930, as amended (the Act), requires that a petition be filed by or on behalf of the domestic industry. Section 732(c)(4)(A) of the Act provides that the Department's industry support determination be based on whether a minimum percentage of the relevant industry supports the petition. A petition meets this requirement if the domestic producers or workers who support the petition account for: (i) at least 25 percent of the total production of the domestic like product; and (ii) more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the petition. Moreover, section 732(c)(4)(D) of the Act provides that, if the petition does not establish support of domestic producers or workers accounting for more than 50 percent of the total production of the domestic like product, the Department shall: (i) poll the industry or rely on other information in order to determine if there is support for the petition, as required by subparagraph (A), or (ii) if there is a large number of producers, determine industry support using a statistically valid sampling method to poll the industry.

Extension of Time

Section 732(c)(1)(A)(ii) of the Act provides that within 20 days of the filing of an antidumping duty petition, the Department will determine, inter alia, whether the petition has been filed by or on behalf of the U.S. industry producing the domestic like product. Section 732(c)(1)(B) of the Act provides that the deadline for the initiation

determination, in exceptional circumstances, may be extended by 20 days in any case in which the Department must "poll or otherwise determine support for the petition by the industry." Because it is not clear from the petition whether the industry support criteria have been met, the Department has determined to extend the time for initiating an investigation in order to poll the domestic industry. On June 1, 2007, the Department began issuing polling questionnaires to all known domestic producers of certain steel nails identified in the petition. The questionnaires are on file in the Central Records Unit in room B-099 of the main Department of Commerce building. The Department requested that each company complete the polling questionnaire and fax their responses to the Department.

The Department will need additional time to analyze the domestic producers' responses to this request for information. Therefore, it is necessary to extend the deadline determining the adequacy of the petition for a period not to exceed 40 days from the filing of the petition. As a result, the initiation determination will now be due no later than July 9, 2007.

International Trade Commission Notification

The Department will contact the International Trade Commission (ITC) and will make this extension notice available to the ITC.

Dated: June 11, 2007.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

Applications for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, as amended by Pub. L. 106-36; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States. Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S.

Department of Commerce. Applications may be examined between 8:30 A.M. and 5:00 P.M. in room 2104, U.S. Department of Commerce, 14th and Constitution Avenue, NW, Washington, DC 20230.

Docket Number: 07-025. Applicant: University of Minnesota, Institute of Technology Characterization Facility, 12 Shepherd Labs, 100 Union Street SE, Minneapolis, MN 55455. Instrument: Confocal Raman Microscope.

Manufacturer: Witec, Germany. Intended Use: The instrument is intended to be used in a centralized facility for a wide variety of research applications including: identifying phases of materials from the interior of the earth and other planetary bodies produced in high pressure/temperature experiments, identifying active pharmaceutical ingredients and various excipients and adjuvants in the dosage form, distinguishing polymorphs in organic crystalline films, identifying components in polymer blends at the micron level, distinguishing components in complex biofilms, characterizing the surface composition of coated aerosol particles, etc. Precise mapping control through a piezo scan table, as well as high resolution and adaptation to different wavelengths of the laser are essential features.

Application accepted by Commissioner of Customs: April 23, 2007.

Docket Number: 07-034. Applicant: Purdue University, 915 W State Street, West Lafayette, IN 47907-2054. Instrument: Electron Microscope, Model Titan KRIOS System. Manufacturer: FEI Company, The Netherlands. Intended Use: The instrument is intended to be used primarily on studies of alphaviruses and flaviviruses. Topics of investigation include: virus-receptor complexes, structure of naked viruses, structure of lipid enveloped viruses, virus-antibody complexes, assembly pathways and imaging techniques.

Application accepted by Commissioner of Customs: May 17, 2007.

Docket Number: 07-035. Applicant: Old Dominion University, 231 Kaufman Hall, Norfolk, VA 23529. Instrument: Mass Spectrometer, Model JEM-2100F. Manufacturer: JEOL, Ltd., Japan. Intended Use: The instrument is intended to be used to study the microstructure of materials prepared in the form of thin films. The microstructure features include defect density, precipitates, defect distribution, phase and phase distribution. It will also be used to image biological materials to identify cell and membrane properties and to study nanoparticle properties, their interactions, and their

morphology. Application accepted by Commissioner of Customs: June 5, 2007.

Dated: June 11, 2007.

Faye Robinson,

Director Statutory Import Programs Staff, Import Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Coast Pilot Report

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before August 14, 2007.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to: Thomas W. Jackson at 301-713-2750, ext. 167, or at Thomas.Jackson@noaa.gov, mailto:patsy.bearden@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

NOAA publishes the U.S. Coast Pilot, a series of nine books which supplement the suite of nautical charts published by NOAA. The U.S. Coast Pilot contains information essential to navigators plying U.S. coastal and intra-coastal waters which cannot be readily displayed upon the charts. The Coast Pilot Report is offered to the public as a means of facilitating suggested changes to the text made by the public.

II. Method of Collection

A paper form is used.

III. Data

OMB Number: 0648-0007.

Form Number: NOAA Form 77-6.
Type of Review: Regular submission.
Affected Public: Individuals or households.

Estimated Number of Respondents: 100.

Estimated Time per Response: 30 minutes.

Estimated Annual Burden Hours: 50.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: June 12, 2007.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.
