40 CFR Part 300

[EPA-HQ-SFUND-1986-0005; FRL-8335-8]

National Oil and Hazardous Substance Pollution Contingency Plan National Priorities List

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of intent to partially delete the Uravan Superfund Site from the National Priorities List.

SUMMARY: The Environmental Protection Agency (EPA) Region 8 is issuing a notice of intent to partially delete approximately 7 acres within the Uravan Superfund Site, located in Montrose County, Colorado, from the National Priorities List (NPL) and requests public comments on this notice of intent. Specifically, EPA intends to delete a one mile section of Colorado State Highway 141, comprised of a right-of-way up to 60 feet in width between mile posts 75 and 76.

The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is found at Appendix B of 40 CFR part 300, which is the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the State of Colorado, through the Colorado Department of Public Health and Environment, have determined that all appropriate response actions under CERCLA, have been completed for the 7.27 acres. However, this deletion does not preclude future actions under Superfund.

DATES: Comments concerning the proposed partial deletion of this Site must be received by August 6, 2007.

Fish and Wildlife Service

50 CFR Part 17

Endangered and Threatened Wildlife and Plants; 12-Month Finding on a Petition To List the Casey’s June Beetle (*Dinacoma caseyi*) as Endangered With Critical Habitat

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of a 12-month petition finding.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce a 12-month finding on a petition to list Casey’s June beetle (*Dinacoma caseyi*) as endangered under the Endangered Species Act of 1973, as amended (Act). The petition also asked that critical habitat be designated for the species. After review of all available scientific and commercial information, we find that listing is warranted. Currently, however, listing of Casey’s June beetle is precluded by higher priority actions to amend the Lists of Endangered and Threatened Wildlife and Plants. Upon publication of this 12-month petition finding, Casey’s June beetle will be added to our candidate species list. We will develop a proposed rule to list this species as our priorities allow. Any determination on critical habitat will be made during development of the proposed listing rule.

DATES: The finding announced in this document was made on July 5, 2007.

ADDRESSES: Supporting documents for this finding are available for inspection, by appointment, during normal business hours at the Carlsbad Fish and Wildlife Office, U.S. Fish and Wildlife Service, 6010 Hidden Valley Road, Carlsbad, CA 92011. Please submit any new information, materials, comments, or questions concerning this finding to the above address.

FOR FURTHER INFORMATION CONTACT: Jim Bartel, Field Supervisor, Carlsbad Fish and Wildlife Office (see **ADDRESSES**) (telephone 760-431-9440; facsimile 760-431-5901). Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 800-877-8339.

SUPPLEMENTARY INFORMATION:

Background

Section 4(b)(3)(B) of the Act (16 U.S.C. 1531 et seq.) requires that, for any petition to revise the List of Endangered and Threatened Wildlife or the List of Endangered and Threatened Plants that contains substantial scientific and commercial information that listing may be warranted, we make a finding within 12 months of the date of our receipt of the petition on whether the petitioned action is: (a) Not warranted, or (b) warranted, or (c) warranted but the immediate proposal of a regulation implementing the petitioned action is precluded by other pending proposals to determine whether any species is threatened or endangered, and expeditious progress is being made to add or remove qualified species from the Lists of Endangered and Threatened Wildlife and Plants. Such 12-month findings are to be published promptly in the **Federal Register**. Section 4(b)(3)(C) of the Act requires that a petition for which the requested action is found to be warranted but precluded shall be treated as though resubmitted on the date of such finding, and requiring a subsequent finding to be made within 12 months.

Previous Federal Action

On May 12, 2004, we received a petition, dated May 11, 2004, from David H. Wright, Ph.D.; the Center for Biological Diversity; and the Sierra Club requesting the emergency listing of Casey’s June beetle (*Dinacoma caseyi*) as endangered in accordance with section 4 of the Act. On October 4, 2005, the Center for Biological Diversity filed a complaint against us in the U.S. District Court for the Central District of California challenging our failure to make the required 90-day and, if appropriate, 12-month finding on their petition to emergency list Casey’s June beetle under section 4 of the Act. We reached a settlement agreement with the plaintiffs on March 28, 2006, in which we agreed to submit to the **Federal Register** a 90-day finding by July 27, 2006, and to complete and submit to the **Federal Register**, if a substantial finding is made, a 12-month finding by June 30, 2007. On August 8, 2006, we published a 90-day petition finding (71 FR 44960) in which we concluded that emergency
