At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production of evaporators and radiators/heat exchanges for the automotive industry.

The investigation revealed that the leased workers of the above listed firms were contracted to work on-site at the Connersville, Indiana location of Visteon Systems, LLC Climate Control Division. These workers provided a variety of functions supporting the production of evaporators and radiator/heat exchange units manufactured at the subject firm. The Department has determined that the above listed on-site worker groups are in support of the production of evaporators and radiator/heat exchange units at the subject firm and are sufficiently under the control of the subject firm.

Since the workers of Visteon Systems, LLC, Climate Control Division, Evaporators and Radiator/Heat Exchange, Connersville, Indiana are certified eligible to apply for ATAA, the Department is extending that eligibility to the employees of the above listed firms working on-site at the subject firm.

The intent of the Department's certification is to include all workers employed at Visteon Systems, LLC, Climate Control Division, Evaporators and Radiator/Heat Exchange, Connersville, Indiana who were adversely affected by a shift in production to Mexico.
