21 CFR Part 2

[Docket No. 2006N-0454]

RIN 0910-AF93

Use of Ozone-Depleting Substances; Removal of Essential-Use Designations; Public Meeting

AGENCY: Food and Drug Administration, HHS.

ACTION: Proposed rule; notice of public meeting.

SUMMARY: The Food and Drug Administration (FDA) is announcing a public meeting to solicit comments on a proposed rule that would amend FDA's regulation on the use of ozone-depleting substances (ODSs) in self-pressurized containers to remove essential-use designations for certain oral pressurized metered-dose inhalers (MDIs). In the **Federal Register** of June 11, 2007 (72 FR 32030), the agency proposed to remove the essential use designation for MDIs containing flunisolide, triamcinolone, metaproterenol, pirbuterol, albuterol and ipratropium in combination, cromolyn, and nedocromil. Information from the public meeting, which is required by agency regulations, will be considered in finalizing the rulemaking.

DATES: The public meeting will be held on August 2, 2007, from 9 a.m. to 3:30 p.m. Submit written or electronic comments for consideration at the meeting and requests to speak at the meeting by July 25, 2007. Register to attend the meeting by July 25, 2007. Submit written or electronic comments on the proposed rule and this notice by August 10, 2007.

SUPPLEMENTARY INFORMATION:

I. Background

Under the Clean Air Act, FDA, in consultation with the EPA, is required to determine whether an FDA-regulated product that releases an ODS is an essential use of the ODS. In the **Federal Register** of June 11, 2007 (72 FR 32030) (the proposed rule), we proposed to amend our regulation on the use of ODSs in self-pressurized containers to remove the essential-use designations of MDIs containing flunisolide, triamcinolone, metaproterenol, pirbuterol, albuterol and ipratropium in combination, cromolyn, and nedocromil. You may find copies of the proposed rule on the Division of Dockets Management Web site (see **ADDRESSES**) and the GPO Access Web site at <http://www.gpoaccess.gov/fr/index.html>. If the applicable essential-use designations are all removed, flunisolide, triamcinolone, metaproterenol, pirbuterol, albuterol and ipratropium in combination, cromolyn, and nedocromil MDIs containing an ODS could not be marketed after the effective date of the final rule removing the essential-use designations.

In proposing to remove the essential-use designation for the seven drugs that are the subject of the proposed rule, we applied the criterion for removing an essential-use designation in § 2.125(g)(2) (21 CFR 2.125(g)(2)) to each drug. Under § 2.125(g)(2), an essential-use designation can be removed if it no longer meets the criteria specified in § 2.125(f) for adding a new essential use. The criteria in § 2.125(f) provides that * * * Substantial technical barriers exist to formulating the product without ODSs; the product will provide an unavailable important public health benefit; and use of the product does not release cumulatively significant amounts of ODSs into the atmosphere or the release is warranted in view of the unavailable important public health benefit. * * *

We proposed that the removal of the essential-use designations be made effective on December 31, 2009. In the proposed rule we said that depending on the data presented to us in the course of the rulemaking, we may determine that it is appropriate to have different effective dates for removing the essential-use designation for different drugs (72 FR 32030 at 32034).

The provisions in § 2.125(g)(2) that provide the procedures and criteria being used in this rulemaking require that a public meeting be held before an essential use may be removed. This notice announces the meeting that will be held to fulfill that requirement, which will also better inform the decisions we will be making during the rulemaking.

II. Issues and Questions for Discussion and Comment

If you are going to speak at the meeting or submit a written comment, you may address any issue raised in the proposed rule or on any other issue that is relevant to our decision on the proposed rule. You may wish to discuss how the criteria described in section I of this document apply to MDIs containing flunisolide, triamcinolone, metaproterenol, pirbuterol, albuterol and ipratropium in combination, cromolyn, and nedocromil. You may also wish to discuss whether different effective dates are appropriate for different drugs (72 FR 32030 at 32034). We invite discussion of issues on which we specifically asked for comments in the proposed rule, including the following:

- Do the other available therapies provide adequate alternatives for each of the seven drugs from a public health perspective? (72 FR 32030 at 32034)
- Will production of albuterol HFA¹ MDIs be able to meet any increased demand caused by this rulemaking? (72 FR 32030 at 32035)
- Are portable nebulizers suitable therapeutic alternatives for cromolyn MDIs and nedocromil MDIs, and will use of portable nebulizers be important in meeting the needs of patients who are currently using cromolyn MDIs and nedocromil MDIs? (72 FR 32030 at 32037 and 32038)
- Does use of a single MDI containing albuterol and ipratropium in combination provide for better patient outcomes (e.g., fewer exacerbations or increased quality of life) compared to concomitant use of separate albuterol and ipratropium MDIs, and, if these

improvements are shown to exist, should they be considered important public health benefits? (72 FR 32030 at 32039)

We consulted with FDA's Pulmonary and Allergy Drugs Advisory Committee (PADAC) at their July 14, 2005, meeting on the essential-use status of MDIs containing flunisolide, triamcinolone, metaproterenol, pirbuterol, albuterol and ipratropium in combination, cromolyn, and nedocromil. During the meeting, several PADAC members expressed opinions that MDIs containing cromolyn and MDIs containing albuterol and ipratropium in combination provide important public health benefits. You may wish to read the transcript of the PADAC meeting (available on the Division of Dockets Management Web site (see **ADDRESSES**)) or the summaries of the discussions at the PADAC meeting in the proposed rule and comment on our tentative findings that MDIs containing cromolyn and MDIs containing albuterol and ipratropium in combination do not provide important public health benefits (72 FR 32030 at 32037 to 32039).

III. Registration, Agenda, and Transcript

There is no fee to register for the meeting, but registration is required and space is limited. Interested parties are therefore encouraged to register early. Limited visitor parking is available for a fee, and the Twinbrook Metro Stop is within walking distance of the meeting site. Early arrival is encouraged, as there will be security screening. You may also examine the transcript at the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday, and on the Internet at <http://www.fda.gov/ohrms/dockets/default.htm>.

IV. Comments

[USAID Regulation 1]

RIN 0412-AA-51

Rules and Procedures Applicable to Commodity Transactions Financed by USAID: Miscellaneous Amendments

AGENCY: U.S. Agency for International Development.

ACTION: Notice of proposed rulemaking.

SUMMARY: The U.S. Agency for International Development (USAID) proposes to amend its regulation governing commodity transactions that are financed by USAID to:

1. Revise the criteria for noncompetitive procurement for private-sector programs to more closely reflect private-sector practices;
2. revise the commodity and package marking requirements to address the use of the new USAID Identity;
3. revise and add definitions to better specify the terminology used;
4. revise agency organizational names and acronyms to specify the current USAID usage;
5. reinstate § 201.13 coverage on ocean transportation costs because it was inadvertently deleted from prior editions;
6. provide for advertising public-sector procurements over \$25,000 in the USAID Procurement Bulletins as the primary means of advertising these procurements to U.S. suppliers (in lieu of advertising public-sector procurements over \$100,000 in "FedBizOpps," the successor to "Commerce Business Daily") to facilitate prompt public notification of procurement opportunities and minimize government expense in providing notice;
7. make numerous clarifications and editorial amendments to better specify the regulation; and
8. specify the current Paperwork Reduction Act approval expirations, as required by the Act.

DATES: Submit comments on or before September 7, 2007.

ADDRESSES: submit comments by any of the following means:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions there for submitting comments.

- *Fax:* (202) 216-3395.

- *Mail:* USAID, Office of Acquisition and Assistance, Policy Division, Room 7.9-18, 1300 Pennsylvania Avenue, NW., Washington, DC 20523-0001.

Instructions: All submissions must include the title of the proposed action, and Regulatory Information Number

(RIN) for this rulemaking. Please include your name, title, organization, postal address, telephone number, and e-mail address in the text of the message.

FOR FURTHER INFORMATION CONTACT: Kenneth Monsess, Telephone: (202) 712-4913, E-mail: kmonsess@usaid.gov.

SUPPLEMENTARY INFORMATION:

Public Participation: Because security screening precautions have slowed the delivery and dependability of surface mail to USAID/Washington, USAID recommends sending all comments to the Federal eRulemaking Portal listed above (all comments must be in writing to be reviewed).

All comments will be made available for public review without change, including any personal information provided, from three days after receipt to finalization of rule at <http://www.Regulations.gov>.

Order of Precedence: The procurement of commodities and commodity-related services by other parties that are financed by USAID pursuant to 22 CFR part 201, as opposed to those that are procured by USAID, are not normally subject to 48 CFR chapters 1 and 7 (the Federal Acquisition Regulation [FAR] and the USAID Acquisition Regulation [AIDAR]). In exceptional circumstances where this part 201 is made applicable, pursuant to § 201.02, to a transaction that is subject to 48 CFR chapters 1 and 7, the latter shall take precedence in areas of conflict except under authority of a FAR or AIDAR deviation pursuant to 48 CFR 1.4 or 48 CFR 701.4; and § 201.02 has been clarified to so state.

Executive Order 12866 determination: This rule is significant under Executive Order 12866 and has been reviewed by the Office of Management and Budget. The rule has been reviewed in accordance with the Regulatory Flexibility Act. USAID has determined that the rule will not have a significant economic impact on a substantial number of small entities, and therefore a Regulatory Flexibility Analysis is not required.

Paperwork Reduction Act statement: OMB approvals for information collections under this regulation are addressed in § 201.03 and Appendices A and B to part 201.
