

animals and animal products, is a major business in the United States and contributes to a favorable balance of trade. To facilitate the export of U.S. animals and products, the U.S. Department of Agriculture, Animal and Plant Health Inspection Service (APHIS), Veterinary Services maintains information regarding the import health requirements of other countries for animals and animal products exported from the United States. Many countries that import animal products from the United States require a certification from APHIS that the United States is free of certain diseases. These countries may also require that our certification statement contain additional declarations regarding the U.S. animal products being exported. Form VS-16-4, Health Certificate-Export Certificate—Animal Products, is used to meet these requirements. Regulations pertaining to export certification of animals and animal products are contained in 9 CFR parts 91.

Need and Use of the Information: Form VS 16-4 serves as the official certification that the United States is free of rinderpest, foot-and-mouth disease, classical swine fever, swine vesicular disease, African swine fever, bovine fever, bovine spongiform encephalopathy, and contagious bovine pleuropneumonia. APHIS will collect the exporter's name, address, the name and address of the consignee, the quantity, unit of measure, type of product being exported, the exporter's identification, and type of conveyance (ship, train, truck) that will transport the products. Without the information, many countries would not accept animal products from the United States, creating a serious trade imbalance and adversely affecting U.S. exporters.

The payments and rates are prescribed on an annual basis each July. The annual payments and rates adjustments for the National School Lunch and School Breakfast Programs reflect changes in the Food Away From Home series of the Consumer Price Index for All Urban Consumers. FOR FURTHER INFORMATION CONTACT: Mr. William Wagoner, Section Chief, School Programs Section, Policy and Program Development Branch, Child Nutrition Division, Food and Nutrition Service, USDA, 3101 Park Center Drive, Room 640, Alexandria, VA 22302 or phone (703) 305–2590.

SUPPLEMENTARY INFORMATION:

Background

Special Milk Program for Children—Pursuant to section 3 of the Child Nutrition Act of 1966, as amended (42 U.S.C. 1772), the Department announces the rate of reimbursement for a half-pint of milk served to non-needy children in a school or institution that participates in the Special Milk Program for Children. This rate is adjusted annually to reflect changes in the Producer Price Index for Fluid Milk Products, published by the Bureau of Labor Statistics of the Department of Labor.

For the period July 1, 2007 through June 30, 2008, the rate of reimbursement for a half-pint of milk served to a non-needy child in a school or institution which participates in the Special Milk Program is 17 cents. This reflects an increase of 16.84 percent in the Producer Price Index for Fluid Milk Products from May 2006 to May 2007 (from a level of 159.1 in May 2006 to 185.9 in May 2007).

As a reminder, schools or institutions with pricing programs that elect to serve milk free to eligible children continue to receive the average cost of a half-pint of milk (the total cost of all milk purchased during the claim period divided by the total number of purchased half-pints) for each half-pint served to an eligible child.

National School Lunch and School Breakfast Programs—Pursuant to sections 11 and 17A of the Richard B. Russell National School Lunch Act (42 U.S.C. 1759a and 1766a), and section 4 of the Child Nutrition Act of 1966 (42 U.S.C. 1773), the Department annually announces the adjustments to the National Average Payment Factors and to the maximum Federal reimbursement rates for lunches and afterschool snacks served to children participating in the National School Lunch Program and breakfasts served to children participating in the School Breakfast Program.
