[Docket No. RM98-1-000]

Records Governing Off-the-Record Communications; Public Notice

July 3, 2007.

This constitutes notice, in accordance with 18 CFR 385.2201(b), of the receipt of prohibited and exempt off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive a prohibited or exempt off-the-record communication relevant to the merits of a contested proceeding, to deliver to the Secretary of the Commission, a copy of the communication, if written, or a summary of the substance of any oral communication.

Prohibited communications are included in a public, non-decisional file

associated with, but not a part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become a part of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of off-the-record communications recently received by the Secretary of the Commission. The communications listed are grouped by docket numbers in ascending order. These filings are available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the eLibrary link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. For assistance, please contact FERC, Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

EXEMPT

DEPARTMENT OF ENERGY

Western Area Power Administration

Colorado River Storage Project—Rate Order No. WAPA-132

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of order temporarily extending transmission and ancillary services rates.

SUMMARY: This action is to temporarily extend the existing Colorado River Storage Project (CRSP) transmission and ancillary services rates through September 30, 2010. The existing transmission and ancillary services rates will expire September 30, 2007.

FOR FURTHER INFORMATION CONTACT: Mr. Bradley S. Warren, CRSP Manager, CRSP Management Center, Western

Area Power Administration, 150 East Social Hall Avenue, Suite 300, Salt Lake City, UT 84111-1580, (801) 524-6372, e-mail warren@wapa.gov, or Ms. Carol Loftin, Rates Manager, CRSP Management Center, Western Area Power Administration, 150 East Social Hall Avenue, Suite 300, Salt Lake City, UT 84111-1580, (801) 524-6380, e-mail loftinc@wapa.gov.

SUPPLEMENTARY INFORMATION: By Delegation Order No. 00-037.00, effective December 6, 2001, the Secretary of Energy delegated: (1) The authority to develop power and transmission rates to the Administrator of the Western Area Power Administration (Western); (2) the authority to confirm, approve, and place such rates into effect on an interim basis to the Deputy Secretary of Energy; and (3) the authority to confirm, approve, and place into effect on a final basis, to remand, or to disapprove such rates to the Federal Energy Regulatory Commission (Commission).

The existing rates, contained in Rate Order No. WAPA-99,¹ were approved for 5 years through September 30, 2007. Western is temporarily extending the existing CRSP transmission and ancillary services rates in accordance with 10 CFR part 903.23(b). The existing CRSP rate formula methodology collects annual revenue sufficient to recovery annual expenses (including interest) and capital requirements, thus ensuring repayment of the project within the cost recovery criteria set forth in DOE order RA 6120.2. The temporary extension will permit a concurrent public process and rate approval period for firm electric service, transmission service, and ancillary services.

Western did not have a consultation and comment period and did not hold public information and comment forums, which in accordance with 10 CFR part 903.23(b) are not required. Following review of Western's proposal within DOE, I hereby approve Rate

¹ WAPA-99 was approved by the Commission on a final basis on November 14, 2003, in Docket No. EF02-5171-000 (105 FERC ¶ 62,093).
