#### Proposed Information Collection Request of the Resource Justification Model; Comment Request

**AGENCY:** Employment and Training Administration, DOL.

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that required data can be provided in the desired

format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration (ETA) is soliciting comments concerning the proposed extension of collection of information through the Resource Justification Model (RJM). The data collected within the RJM state submissions are used as input to the process of distributing unemployment insurance (UI) program appropriated funds among the states and inform ETA of the funding requirements states are anticipating.

A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the **ADDRESSES** section of this notice or by accessing: <http://www.doleta.gov/OMBCN/OMBCControlNumber.cfm>.

**DATES:** Submit comments on or before September 11, 2007.

**ADDRESSES:** Send comments to Lauren C. Harrel, Room S4231, 200 Constitution Avenue, NW., Washington, DC 20210, (202) 693-2992 (this is not a toll-free number). E-mail address is [harrel.lauren@dol.gov](mailto:harrel.lauren@dol.gov) and fax number is (202) 693-2874.

#### **SUPPLEMENTARY INFORMATION:**

I. *Background:* The collection of actual UI administrative cost data from states' accounting records and projected expenditures for upcoming years is accomplished through the RJM data collection instrument. The data collected consists of the actual, most recently completed fiscal year's program expenditures and hours broken out by functional activity and three years of projected expenditures. The actual cost data informs ETA's administrative funding allocation model so that state UI program administration funds are allocated as equitably as possible among states.

ETA is proposing to revise the RJM data collection instrument in an effort to streamline the data entry process and to eliminate the collection of unnecessary data. Specifically, the modifications to the RJM include: (1) Adding a dropdown box to allocate personal service/personnel benefits (PS/PB) and non personal services (NPS) to applicable categories in the Crosswalk worksheet, (2) no longer requiring states
