

FRESH GARLIC FROM THE PRC-WEIGHTED-AVERAGE DUMPING MARGINS—Continued

Manufacturer exporter	Weighted-average deposit rate (percent)
Huayang Hongda Dehydrated Vegetable Company .....	9.84
Linshu Dading Private Agricultural Products Co., Ltd .....	9.84
Taiyan Ziyang Food Co., Ltd .....	9.84

The Department shall determine, and CBP shall assess, antidumping duties on all appropriate entries based on the amended final results. For details on the assessment of antidumping duties on all appropriate entries, see *Final Results*.

These amended final results are published in accordance with section 751(h) and 777(i)(1) of the Act.

Dated: July 12, 2007.

**David A. Spooner,**

*Assistant Secretary for Import Administration.*

**Notice of Preliminary Results of Antidumping Duty Administrative Review: Granular Polytetrafluoroethylene Resin From Italy**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** July 20, 2007.

**FOR FURTHER INFORMATION CONTACT:**

Salim Bhabhrawala, at (202) 482-1784; AD/CVD Operations, Office 1, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW, Washington, DC 20230.

**SUMMARY:** The Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on granular polytetrafluoroethylene resin (PTFE) from Italy, covering the period August 1, 2005, through July 31, 2006. We preliminarily determine that sales of subject merchandise by Solvay Solexis, Inc. and Solvay Solexis S.p.A (collectively, Solvay) have been made below normal value (NV). If these preliminary results are adopted in our final results, we will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on appropriate entries based on the difference between the export price (EP)

and the NV. Interested parties are invited to comment on these preliminary results.

**SUPPLEMENTARY INFORMATION:**

**Background**

On August 30, 1988, the Department published in the *Federal Register* the antidumping duty order on granular PTFE resin from Italy. See *Antidumping Duty Order; Granular Polytetrafluoroethylene Resin from Italy*, 53 FR 33163 (August 30, 1988). On August 1, 2005, the Department issued a notice of opportunity to request an administrative review of this order. See *Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity To Request Administrative Review*, 71 FR 43441–43443 (August 1, 2006). In accordance with 19 CFR 351.213(b), Solvay requested an administrative review. On September 29, 2006, the Department published the notice of initiation of this antidumping duty administrative review, covering the period August 1, 2005, through July 31, 2006 (the period of review, or POR). See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 71 FR 57465 (September 29, 2006).

On September 29, 2006, the Department issued its antidumping questionnaire to Solvay, specifying that the responses to Section A and Sections B–E would be due on October 20, 2006, and November 6, 2006, respectively.<sup>1</sup> The Department received timely responses to Sections A–D of the initial antidumping questionnaire and associated supplemental questionnaires.

On May 1, 2007, the Department published a notice of a 71-day extension of the preliminary results of this

<sup>1</sup> Section A of the questionnaire requests general information concerning a company's corporate structure and business practices, the merchandise under review that it sells, and the manner in which it sells that merchandise in all of its markets. Section B requests a complete listing of all home market sales, or, if the home market is not viable, of sales in the most appropriate third-country market (this Section is not applicable to respondents in non-market economy cases). Section C requests a complete listing of U.S. sales. Section D requests information on the cost of production of the foreign like product and the constructed value of the merchandise under review. Section E requests information on further manufacturing.

administrative review. See *Granular Polytetrafluoroethylene Resin From Italy: Notice of Extension of Time Limit for the Preliminary Results of Antidumping Duty Administrative Review*, 72 FR 23802. This notice extended the deadline for the preliminary results to July 13, 2007.

**Scope of the Order**

The product covered by this order is granular PTFE resin, filled or unfilled. This order also covers PTFE wet raw polymer exported from Italy to the United States. See *Granular Polytetrafluoroethylene Resin From Italy; Final Affirmative Determination of Circumvention of Antidumping Duty Order*, 58 FR 26100 (April 30, 1993). This order excludes PTFE dispersions in water and fine powders. During the period covered by this review, such merchandise was classified under item number 3904.61.00 of the Harmonized Tariff Schedule of the United States (HTSUS). We are providing this HTSUS number for convenience and CBP purposes only. The written description of the scope remains dispositive.

**Fair Value Comparisons**

We compared the constructed export price (CEP) to the NV, as described in the *Constructed Export Price* and *Normal Value* sections of this notice. Pursuant to section 777A(d)(2) of the Tariff Act of 1930, as amended (the Act), we compared the CEPs of individual transactions to contemporaneous monthly weighted-average prices of sales of the foreign like product.

We first attempted to compare contemporaneous sales of products sold in the United States and the comparison market that were identical with respect to the following characteristics: type, filler, percentage of filler, and grade. Where we were unable to compare sales of identical merchandise, we compared U.S. sales with comparison market sales of the most similar merchandise.

**Constructed Export Price**

For all sales to the United States, we calculated CEP, as defined in section 772(b) of the Act, because all sales to unaffiliated parties were made after importation of the subject merchandise

into the United States through the respondent's affiliate, Solvay Solexis, Inc. We based CEP on the packed, delivered prices to unaffiliated purchasers in the United States, net of billing adjustments. We adjusted these prices for movement expenses, including international freight, marine insurance, brokerage and handling in the United States, U.S. inland freight, U.S. warehousing, and U.S. customs duties, in accordance with section 772(c)(2)(A) of the Act.

In accordance with section 772(d)(1) of the Act, we deducted selling expenses incurred by the affiliated reseller. These expenses include credit, inventory carrying costs, and indirect selling expenses incurred by Solvay Solexis, Inc. See Memorandum from Salim Bhabhrawala, Senior International Trade Compliance Analyst, to Nancy Decker, Program Manager, Re: Preliminary Results Calculation Memorandum, dated July 13, 2007 (Analysis Memo).

## Normal Value

### A. Selection of Comparison Markets

In order to determine whether there was a sufficient volume of sales of granular PTFE resin in the home market to serve as a viable basis for calculating NV, we compared Solvay's volume of home market sales of the foreign like product to the volume of U.S. sales of the subject merchandise, in accordance with section 773(a)(1)(C) of the Act. Because the aggregate volume of home market sales of the foreign like product was greater than five percent of the respective aggregate volume of U.S. sales for the subject merchandise, we determined that the home market provided a viable basis for calculating NV. Therefore, in accordance with section 773(a)(1)(B)(i) of the Act, we based NV on the prices at which the foreign like product was first sold for consumption in the exporting country, in the usual commercial quantities and in the ordinary course of trade.

### B. Cost of Production Analysis

Because we disregarded below-cost sales in the calculation of the final results of the 2000–2001 administrative review, the most recently completed review of PTFE at the time of initiation of this review, with respect to Solvay, we had reasonable grounds to believe or suspect that home market sales of the foreign like product by Solvay had been made at prices below the cost of production (COP) during the period of this review. See section 773(b)(2)(A)(ii) of the Act. Therefore, pursuant to section 773(b)(1) of the Act, we initiated

a COP investigation regarding home market sales. Solvay calculated its model-specific costs of production on a POR basis.

#### 1. Calculation of COP

In accordance with section 773(b)(3) of the Act, we calculated the model-specific, weighted-average COP based on the sum of the cost of materials and fabrication for the foreign like product, plus amounts for general and administrative expenses, interest expenses, selling expenses, and packing costs.

#### 2. Test of Home Market Sales Prices

We compared the weighted-average COP to the home market sales of the foreign like product, as required under section 773(b) of the Act, in order to determine whether these sales had been made at prices below the COP within an extended period of time (i.e., a period of one year) in substantial quantities and whether such prices were sufficient to permit the recovery of all costs within a reasonable period of time.

On a model-specific basis, we compared the COP to home market prices, less any rebates, discounts, applicable movement charges, and direct and indirect selling expenses.

#### 3. Adjustments to Respondent's Data

We relied on the COP data submitted by Solvay in its cost questionnaire response except for general and administrative (G&A) expenses. We adjusted Solvay's G&A expenses to be based on its normal books and records, in accordance with Italian Generally Accepted Accounting Principles. See Analysis Memo.

#### 4. Results of the COP Test

We disregarded below-cost sales where: (1) 20 percent or more of Solvay's sales of a given product during the POR were made at prices below the COP, because such sales were made within an extended period of time in substantial quantities in accordance with sections 773(b)(2)(B) and (C) of the Act; and (2) based on comparisons of price to weighted-average COPs for the POR, we determined that the below-cost sales of the product were at prices which would not permit recovery of all costs within a reasonable time period, in accordance with section 773(b)(2)(D) of the Act. We found that Solvay made sales below cost, and we disregarded such sales where appropriate.

#### C. Calculation of Normal Value Based on Comparison-Market Prices

We determined home market prices net of price adjustments (e.g., early

payment discounts and rebates). Where applicable, we made adjustments for packing and movement expenses, in accordance with sections 773(a)(6)(A) and (B) of the Act. In order to adjust for differences in packing between the two markets, we deducted home market packing costs from NV and added U.S. packing costs. We also made adjustments for differences in costs attributable to differences in physical characteristics of the merchandise, pursuant to section 773(a)(6)(C)(ii) of the Act, and for other differences in the circumstances of sale (COS) in accordance with section 773(a)(6)(C)(iii) of the Act (i.e., differences in credit expenses). Finally, we made a CEP-offset adjustment to the NV for indirect selling expenses pursuant to section 773(a)(7)(B) of the Act, as discussed in the Level of Trade/CEP Offset section below.

#### D. Level of Trade/CEP Offset

In accordance with section 773(a)(1)(B) of the Act, to the extent practicable, we determine NV based on sales at the same level of trade in the comparison market as the level of trade of the U.S. sales. The comparison market level of trade is that of the starting-price sales in the comparison market. For CEP sales, such as those made by Solvay in this review, the U.S. level of trade is the level of the constructed sale from the exporter to the importer.

To determine whether comparison market sales are at a different level of trade than that of the U.S. sales, we examine stages in the marketing process and selling functions along the chain of distribution between the producer and the unaffiliated customer. If the comparison-market sales are at a different level of trade and the difference affects price comparability, as manifested in a pattern of consistent price differences between the sales on which NV is based and comparison-market sales at the level of trade of the export transaction, we make a level-of-trade adjustment under section 773(a)(7)(A) of the Act. Finally, if the NV level is more remote from the factory than the CEP level and there is no basis for determining whether the difference in the levels between NV and CEP affects price comparability, we adjust NV under section 773(a)(7)(B) of the Act (the CEP-offset provision). See, e.g., *Industrial Nitrocellulose From the United Kingdom; Notice of Final Results of Antidumping Duty Administrative Review*, 65 FR 6148, 6151 (February 8, 2000) (*Industrial Nitrocellulose*).

For purpose of this review, we obtained information from Solvay about

the marketing involved in the reported U.S. sales and in the home market sales, including a description of the selling activities performed by Solvay for each channel of distribution. In identifying levels of trade for CEP and for home market sales, we considered the selling functions reflected in the CEP, after the deduction of expenses and profit under section 772(d) of the Act, and those reflected in the home market starting price before making any adjustments. We expect that, if claimed levels of trade are the same, the functions and activities of the seller should be similar. Conversely, if a party claims that levels of trade are different for different groups of sales, the functions and activities of the seller should be dissimilar.

The record evidence in this review indicates that the home market and the CEP levels of trade for Solvay have not changed from the 2004–2005 review,<sup>2</sup> the most recently completed review in this case. As explained below, we determined in this review that, as in the prior 2004–2005 administrative review, there was one home market level of trade and one U.S. level of trade (*i.e.*, the CEP level of trade).

In the home market, Solvay sold directly to fabricators. These sales primarily entailed selling activities such as technical assistance, engineering services, research and development, technical programs, and delivery services. Given this fact pattern, we found that all home market sales were made at a single level of trade. In determining the level of trade for the U.S. sales, we only considered the selling activities reflected in the price after making the appropriate adjustments under section 772(d) of the Act. *See, e.g., Industrial Nitrocellulose*, 65 FR at 6150. The CEP level of trade involves minimal selling functions such as invoicing and the occasional exchange of personnel between Solvay and its U.S. affiliate. Given this fact pattern, we found that all U.S. sales were made at a single level of trade.

Based on a comparison of the home market level of trade and this CEP level of trade, we find the home market sales to be at a different level of trade from, and more remote from the factory than, the CEP sales. Section 773(a)(7)(A) of the Act directs us to make an adjustment for difference in levels of trade where such differences affect price comparability. However, we were unable to quantify such price differences from information on the

record. Because we have determined that the home–market level of trade is more remote from the factory than the CEP level of trade, and because the data necessary to calculate a level–of–trade adjustment are unavailable, we made a CEP–offset adjustment to NV pursuant to section 773(a)(7)(B) of the Act.

**Currency Conversion**

We made currency conversions into U.S. dollars in accordance with section 773A of the Act, based on exchange rates in effect on the date of the U.S. sale, as certified by the Federal Reserve Bank.

**Preliminary Results of Review**

As a result of this review, we preliminarily determine that the following weighted–average margin exists for the period August 1, 2005, through July 31, 2006:

Producer	Weighted–Average Margin (Percentage)
Solvay Solexis, Inc. and Solvay Solexis S.p.A (collectively, Solvay) .....	35.35

In accordance with 19 CFR 351.224(b), the Department will disclose its weighted average antidumping margin calculations within 10 days of public announcement of these preliminary results. An interested party may request a hearing within 30 days of publication of these preliminary results. *See* 19 CFR 351.310(c). Any hearing, if requested, will be held 44 days after the date of publication, or the first working day thereafter. Interested parties may submit case briefs and/or written comments no later than 30 days after the date of publication of these preliminary results. *See* 19 CFR 351.309(c). Rebuttal briefs and rebuttals to written comments, limited to issues raised in such briefs or comments, may be filed no later than 37 days after the date of publication. *See* 19 CFR 351.309(d). Parties who submit arguments are requested to submit with the argument: (1) a statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities. Further, the parties submitting written comments should provide the Department with an additional copy of the public version of any such comments on diskette.

The Department will issue the final results of this administrative review, which will include the results of its analysis of issues raised in any such

comments, within 120 days of publication of these preliminary results.

**Assessment**

Upon completion of this administrative review, pursuant to 19 CFR 351.212(b), the Department will calculate an assessment rate on all appropriate entries. We will calculate importer–specific duty assessment rates based on the ratio of the total amount of antidumping duties calculated for the examined sales to the total quantity of the sales for that importer. Where the assessment rate is above *de minimis*, we will instruct CBP to assess duties on all entries of subject merchandise by that importer.

The Department clarified its “automatic assessment” regulation on May 6, 2003. *See Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003). This clarification will apply to entries of subject merchandise during the POR produced by the company included in these preliminary results for which the reviewed company did not know their merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all–others rate if there is no rate for the intermediate company or companies involved in the transaction.

**Cash Deposit Requirements**

The following deposit rates will be effective upon publication of the final results of this administrative review for all shipments of PTFE from Italy entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(1) of the Act: (1) the cash deposit rate listed above for Solvay will be the rate established in the final results of this review, except if a rate is less than 0.5 percent, and therefore *de minimis*, the cash deposit rate will be zero; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company–specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the less–than–fair–value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previous review conducted by the Department, the cash deposit rate will be 46.46 percent, the “all others” rate established in the LTFV investigation. *See* 53 FR 26096 (July 11, 1988). These cash deposit requirements,

<sup>2</sup> See Notice of Final Results of Antidumping Duty Administrative Review: Granular Polytetrafluoroethylene Resin from Italy, 72 FR 1980 (January 17, 2007).

when imposed, shall remain in effect until further notice.

#### Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entities during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This determination is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: June 13, 2007.

**Joseph A. Spetrini,**

*Deputy Assistant Secretary for Import Administration.*

## DEPARTMENT OF COMMERCE

### International Trade Administration

A-337-806

#### **IQF Red Raspberries from Chile: Final Results of Sunset Review and Revocation of Order**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** On June 1, 2007, the Department of Commerce (Department) initiated this sunset review of the antidumping duty order on IQF red raspberries from Chile (72 FR 30544). Because the domestic interested parties did not participate in this review, the Department is revoking this antidumping duty order.

**EFFECTIVE DATE:** July 9, 2007

**FOR FURTHER INFORMATION CONTACT:**

Nancy Decker or Brandon Farlander, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-0196 or (202) 482-0182, respectively.

**SUPPLEMENTARY INFORMATION:**

#### Background

On July 9, 2002, the Department issued an antidumping duty order on IQF red raspberries from Chile. See *Notice of Antidumping Duty Order: IQF Red Raspberries from Chile*, 67 FR 45460 (July 9, 2002). On June 1, 2007, the Department initiated a sunset review

of this order. See *Initiation of Five-year (Sunset) Reviews*, 72 FR 30544, 30545 (June 1, 2007).

We did not receive a notice of intent to participate from domestic interested parties in this sunset review by the deadline date. As a result, the Department determined that no domestic interested party intends to participate in the sunset review, and on June 21, 2007, we notified the International Trade Commission, in writing, that we intended to issue a final determination revoking this antidumping duty order. See 19 CFR 351.218(d)(1)(iii)(B)(1) and (B)(2).

#### Scope of the Order

The products covered by this order are imports of IQF whole or broken red raspberries from Chile, with or without the addition of sugar or syrup, regardless of variety, grade, size or horticulture method (*e.g.*, organic or not), the size of the container in which packed, or the method of packing. The scope of the order excludes fresh red raspberries and block frozen red raspberries (*i.e.*, puree, straight pack, juice stock, and juice concentrate).

The merchandise subject to this order is currently classifiable under subheading 0811.20.2020 of the Harmonized Tariff Schedule of the United States ("HTSUS"). Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the merchandise under the order is dispositive.

#### Determination to Revoke

Pursuant to section 751(c)(3)(A) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.218(d)(1)(iii)(B)(3), if no domestic interested party files a notice of intent to participate, the Department shall, within 90 days after the initiation of the review, issue a final determination revoking the order. Because the domestic interested parties did not file a notice of intent to participate in this sunset review, the Department finds that no domestic interested party is participating in this sunset review. Therefore, we are revoking this antidumping duty order. The effective date of revocation is July 9, 2007, the fifth anniversary of the date the Department published this antidumping duty order. See 19 CFR 351.222(i)(2)(i).

#### Effective Date of Revocation

Pursuant to section 751(c)(3)(A) of the Act and 19 CFR 351.222(i)(2)(i), the Department will instruct U.S. Customs and Border Protection to terminate the suspension of liquidation of the merchandise subject to this order

entered, or withdrawn from warehouse, on or after July 9, 2007. Entries of subject merchandise prior to the effective date of revocation will continue to be subject to suspension of liquidation and antidumping duty deposit requirements. The Department will complete any pending administrative reviews of this order and will conduct administrative reviews of subject merchandise entered prior to the effective date of revocation in response to appropriately filed requests for review.

This five-year (sunset) review and notice are in accordance with sections 751(c) and 777(i)(1) of the Act.

Dated: July 13, 2007.

**Joseph A. Spetrini,**

*Deputy Assistant Secretary for Import Administration.*

## DEPARTMENT OF COMMERCE

### National Institute of Standards and Technology

#### **Request for Nominations for Members To Serve on National Institute of Standards and Technology Federal Advisory Committees**

**AGENCY:** National Institute of Standards and Technology, Department of Commerce.

**ACTION:** Notice.

**SUMMARY:** The National Institute of Standards and Technology (NIST) invites and requests nomination of individuals for appointment to its eight existing Federal Advisory Committees: Advanced Technology Program Advisory Committee, Board of Overseers of the Malcolm Baldrige National Quality Award, Judges Panel of the Malcolm Baldrige National Quality Award, Information Security and Privacy Advisory Board, Manufacturing Extension Partnership National Advisory Board, National Construction Safety Team Advisory Committee, Advisory Committee on Earthquake Hazards Reduction, and Visiting Committee on Advanced Technology. NIST will consider nominations received in response to this notice for appointment to the Committees, in addition to nominations already received.

**DATES:** Nominations for all committees will be accepted on an ongoing basis and will be considered as and when vacancies arise.

**ADDRESSES:** See below.

**SUPPLEMENTARY INFORMATION:**
