

Boulevard, Suite 4200, Long Beach, CA 90802-4213; phone 562-980-4000; fax 562-980-4018.

SUPPLEMENTARY INFORMATION: The MMPA, 16 U.S.C. 1361 *et seq.*, allows the entry into the United States of yellowfin tuna harvested by purse seine vessels in the ETP under certain conditions. If requested by the harvesting nation, the Assistant Administrator will determine whether to make an affirmative finding based upon documentary evidence provided by the government of the harvesting nation, the IATTC, or the Department of State.

The affirmative finding process requires that the harvesting nation is meeting its obligations under the IDCP and obligations of membership in the IATTC. Every 5 years, the government of the harvesting nation must request an affirmative finding and submit the required documentary evidence directly to the Assistant Administrator. On an annual basis, NMFS will review the affirmative finding and determine whether the harvesting nation continues to meet the requirements. A nation may provide information related to compliance with IDCP and IATTC measures directly to NMFS on an annual basis or may authorize the IATTC to release the information to NMFS to annually renew an affirmative finding determination without an application from the harvesting nation.

An affirmative finding will be terminated, in consultation with the Secretary of State, if the Assistant Administrator determines that the requirements of 50 CFR 216.24(f) are no longer being met or that a nation is consistently failing to take enforcement actions on violations, thereby diminishing the effectiveness of the IDCP.

As a part of the affirmative finding process set forth in 50 CFR 216.24(f), the Assistant Administrator considered documentary evidence submitted by the Government of Mexico or obtained from the IATTC and the Department of State and has determined that Mexico has met the MMPA's requirements to receive an annual affirmative finding renewal.

After consultation with the Department of State, the Assistant Administrator issued the Government of Mexico's annual affirmative finding renewal, allowing the continued importation into the United States of yellowfin tuna and products derived from yellowfin tuna harvested in the ETP by Mexican-flag purse seine vessels or purse seine vessels operating under Mexican jurisdiction. Mexico's affirmative finding will remain valid

through March 31, 2010, subject to subsequent annual reviews by NMFS.

Dated: July 16, 2007.

Samuel D. Rauch III,

Acting Assistant Administrator for Fisheries, National Marine Fisheries Service.

RIN 0648-XB61

Pacific Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meetings.

SUMMARY: The Pacific Fishery Management Council's (Council) Highly Migratory Species Management Team (HMSMT) and Highly Migratory Species Advisory Subpanel (HMSAS) will hold work sessions, which are open to the public.

DATES: The meetings will be held on August 14-16, 2007. The HMSMT work session will begin at 10 a.m. on Tuesday, August 14, 2007; the HMSMT and HMSAS will begin meeting jointly at 1 p.m. on the same day and continue until 5:30 p.m. The joint meeting of the HMSMT and HMSAS will resume on Wednesday, August 15, 2007, at 8:30 a.m. and continue until 5 p.m. The HMSMT will again meet on Thursday, August 16, 2007, beginning at 8:30 a.m. until business is completed.

ADDRESSES: The work sessions will be held at the National Marine Fisheries Service, Southwest Fisheries Science Center, Large Conference Room and Green Room, 8604 La Jolla Shores Drive, La Jolla, CA 92037; telephone: (858) 546-7000.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Dr. Kit Dahl, Pacific Fishery Management Council; telephone: (503) 820-2280.

SUPPLEMENTARY INFORMATION: The HMSMT/HMSAS work sessions will discuss the latest North Pacific albacore stock assessment, preparation of the HMS Stock Assessment and Fishery Evaluation (SAFE) report, HMS exempted fishing permit issues, electronic logbooks, Magnuson-Stevens Act reauthorization implementation,

international fisheries issues, management concepts for the high seas shallow-set longline fishery, research on the use of lightsticks in longline fisheries, and research and data related issues.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Ms. Carolyn Porter at (503) 820-2280 at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: July 18, 2007.

Tracey L. Thompson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Receipt of an application for a scientific research permit; request for comments.

SUMMARY: Notice is hereby given that NMFS has received an application for a scientific research permit from California Department of Parks and Recreation (CDPR) in Half Moon Bay, CA (10017). This document serves to notify the public of the availability of the permit application for review and comment.

DATES: Written comments on the permit application must be received no later than 5 p.m. Pacific Standard Time on August 22, 2007.

ADDRESSES: Comments submitted by e-mail must be sent to the following address: FRNpermits.SR@noaa.gov. The application and related documents are available for review by appointment, for Permit 10017: Protected Resources Division, NMFS, 777 Sonoma Avenue, Room 315, Santa Rosa, CA 95404 (ph: 707-575-6097, fax: 707-578-3435).

FOR FURTHER INFORMATION CONTACT: Jeffrey Jahn at phone number 707-575-6097, or e-mail: Jeffrey.Jahn@noaa.gov.

SUPPLEMENTARY INFORMATION:

Authority

Issuance of permits and permit modifications, as required by the Endangered Species Act of 1973 (16 U.S.C. 1531-1543) (ESA), is based on a finding that such permits/modifications: (1) are applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permits; and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the permits. Permits and modifications are issued in accordance with and are subject to the ESA and NMFS regulations governing listed fish and wildlife permits (50 CFR parts 222-226).

Those individuals requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). The holding of such a hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in the permit action summaries are those of the applicant and do not necessarily reflect the views of NMFS.

Species Covered in This Notice

This notice is relevant to federally endangered Central California Coast coho salmon (*Oncorhynchus kisutch*) and threatened Central California Coast steelhead (*O. mykiss*).

Application Received

CDPR requests a 5-year permit (10017) for take of adult and juvenile Central California Coast coho salmon and Central California Coast steelhead to assess salmonid population distribution, abundance, and habitat in San Gregorio Creek, Pomponio Creek, and Pescadero Creek watersheds in San Mateo County, California. The research particularly seeks to identify the cause of annual fish die-off events in Pescadero Lagoon and recommend habitat restoration actions to prevent future fish die-off events from occurring.

CDPR requests authorization for an estimated annual non-lethal take of 12 adult Central California Coast coho salmon and 75 adult Central California Coast steelhead, with no more than a single (1) individual adult Central California Coast steelhead unintentional mortality to result from capture (by seine, weir-trap, or dip-net), anesthetizing, handling, fin-clipping, scale-sampling, passive integrated transponder (PIT)-tagging, visible implant elastomer (VIE)-tagging, and release of fish. CDPR requests authorization for an estimated annual non-lethal take of 40 juvenile Central California Coast coho salmon, with no more than 5 percent unintentional mortality to result from capture (by seine, fyke-net trap, electrofishing, or dip-net), handling, and release of fish; and an estimated annual non-lethal take of 1,520 juvenile Central California Coast steelhead, with no more than 7 percent unintentional mortality to result from capture (by seine, fyke-net trap, electrofishing, or dip-net), anesthetizing, handling, fin-clipping, scale-sampling, PIT-tagging, VIE-tagging, and release of fish. In the event of any future fish die-off events in Pescadero Lagoon, CDPR also requests authorization for an estimated annual take of 5 juvenile Central California Coast steelhead carcasses (previously dead individuals) and an estimated annual lethal-take of 5 sick or injured juvenile Central California Coast steelhead to be lethally sacrificed for pathology analysis.

Dated: July 13, 2007.

Ann Garrett,

Acting Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Telecommunications and Information Administration

Public Safety Interoperable Communications (PSIC) Grant Program

AGENCY: National Telecommunications and Information Administration, Commerce.

ACTION: Notice of Availability of Funds.

SUMMARY: The Deficit Reduction Act of 2005, Title III of the Deficit Reduction Act of 2005, directed the National Telecommunications and Information Administration (NTIA), in consultation with the Department of Homeland Security (DHS), to establish and

implement a \$1 billion grant program to assist public safety agencies in the acquisition of, deployment of, or training for the use of interoperable communications systems that utilize, or enable interoperability with communications systems that can utilize, reallocated public safety spectrum for radio communications.

The Public Safety Interoperable Communications (PSIC) Grant Program is a one-time formula-based, matching grant program intended to enhance interoperable communications with respect to voice, data, and/or video signals. PSIC provides public safety agencies with the opportunity to achieve meaningful and measurable improvements to the state of public safety communications interoperability through the full and efficient use of telecommunications resources.

DATES: This final rule is effective on July 23, 2007. Each State and Territory must submit its application and narrative no later than 11:59 p.m. Eastern Daylight Time 30 days after publication in the **Federal Register**. Failure to properly register and apply for PSIC funds by the deadlines will result in forfeiture of the grant opportunity. Applications submitted by facsimile are not acceptable.

ADDRESSES: To ensure a successful submission, a State Administrative Agency (SAA) must apply for PSIC Grant Program funding through the online Grants.gov system through the Authorized Organization Representative (AOR). Instructions to initiate the registration process is available on the Grants.gov website (www.grants.gov). Application forms and instructions are available at Grants.gov. The application package must be submitted through that Grants.gov. The program title listed in the CDFA is "PSIC Grant Program." The CDFA number is **11.555**.

FOR FURTHER INFORMATION CONTACT: Laura Pettus, Program Specialist, Public Safety Interoperable Communications, telephone: (202) 482-5802; fax: (202) 482-2156. Information about the PSIC can also be obtained electronically via the Internet at www.ntia.doc.gov/psic.

SUPPLEMENTARY INFORMATION:

Electronic Access

The full funding opportunity announcement for the PSIC grant cycle is available through www.grants.gov or by contacting the PSIC website at: www.ntia.doc.gov/psic.

Program Information

The PSIC Grant Program will assist public safety agencies in the acquisition of, deployment of, or training for the use
