**BILLING CODE 3510-DT-P****DEPARTMENT OF COMMERCE****Submission for OMB Review; Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

*Agency:* National Telecommunications and Information Administration (NTIA).

*Title:* Application for the Low-Power Television and Translator Digital-to-Analog Conversion Program.

*Form Number(s):* DTV-4.

*Type of Review:* Regular submission.

*Burden Hours:* 4,000.

*Number of Respondents:* 4,000.

broadcasting. Most low-power television or translator stations extend the service area of a full-power television station by receiving the full-power station's off-air signal and then rebroadcasting the programming on another channel. After the full-power television station discontinues analog broadcasting on February 17, 2009, the low-power television station must be able to receive the full-power station's digital off-air signal.

The Act directs NTIA to administer a program through which an eligible low-power television or translator station may receive compensation toward the cost of the purchase of a digital-to-analog conversion device that enables the conversion of the incoming digital signal of its corresponding full-power television station to analog format for transmission on the station's analog channels.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The BC-170A, BC-170B, and the BC-170D are used to collect information such as personal data and work experience from job applicants. Selecting officials review the information shown on the form to evaluate an applicant's eligibility for employment and to determine the best-qualified applicants to fill Census jobs. The three forms are tailored to the particular job type for which application is made.

The BC-170 series of forms is used throughout the census and intercensal periods for the special census, pretests, and dress rehearsals for short-term time limited appointments. Applicants completing the form for census related positions are applying for temporary jobs in office and field positions (clerks, enumerators, crew leaders, supervisors). In addition, the BC-170 may be used as an alternative when applying for temporary/permanent office and field positions (clerks, field representatives, supervisors) on a recurring survey in one of the Census Bureau's twelve Regional Offices (ROs) throughout the United States. During the decennial census, the BC-170 is intended to expedite hiring and selection in situations requiring large numbers of temporary employees for assignments of a limited duration. The use of this form is limited to only situations which

require the establishment of a temporary office and/or involve special, one-time or recurring survey operations at one of the ROs. The form has been demonstrated to meet our recruitment needs for temporary workers and requires significantly less burden than the Office of Personnel Management (OPM) Optional Forms that are available for use by the public when applying for Federal positions.

##### II. Method of Collection

The information is collected in paper format at the time of testing for temporary and permanent positions. Potential employees being tested complete the application at that time.
