

information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are those that recover, recycle, reclaim, sell, or distribute in interstate commerce ozone-depleting refrigerants that contain chlorofluorocarbons (CFCs) or hydrochlorofluorocarbons (HCFCs); and those that service, maintain, repair, or dispose of appliances containing CFC or HCFC refrigerants. In addition, the owners or operators of appliances containing more than 50 pounds of CFC or HCFC refrigerants are regulated.

Estimated Number of Respondents: 361,383.

Frequency of Response: On occasion, biannually, and annually.

Estimated Total Annual Hour Burden: 2,404,913.

Estimated Total Annual Cost: \$88,019,807, which includes \$0 annualized capital or O&M costs.

Changes in the Estimates: There is an increase of 2,194,052 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This increase is not due to a change in any program requirement. The adjustment is the result of changes in EPA's estimates of time required to submit reports and maintain records, the number of reports submitted to the agency, and the overall number of respondents.

For general information, contact the Safe Drinking Water Hotline. Callers within the United States may reach the Hotline at (800) 426-4791. The Hotline is open Monday through Friday, excluding legal holidays, from 8:30 a.m. to 4:30 p.m., Eastern Time.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 3, 2007 (72 FR 24582), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments during the comment period. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-OW-2007-0266, which is available for online viewing at <http://www.regulations.gov>, or in person viewing at the Water Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave.,

NW., Washington, DC. The EPA/DC Public Reading Room is open from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744, and the telephone number for the Water Docket is 202-566-2426.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: Proficiency Testing Studies for Drinking Water Laboratories.

ICR numbers: EPA ICR No. 2264.01, OMB Control No. 2040-New.

ICR Status: This ICR is for a new information collection activity. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Proficiency Testing (PT) studies provide an objective demonstration that participating laboratories are capable of producing valid data for monitored pollutants. PT studies that relate to drinking water analyses are mandated under 40 CFR 141.23(k)(3), 141.24(f)(17) and 141.131(b)(2). EPA initiated these studies and originally administered them as part of the Agency's mandate to assure the quality of environmental monitoring data. Subsequently, all of these studies were privatized. PT vendors manufacture and distribute samples to the participating laboratories who then submit their analytical results to these vendors for evaluation. The PT

vendors then send evaluations of the submitted data to the laboratory and any other designated certifying/accrediting authority.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 7.32 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Drinking Water Laboratories.

Estimated Number of Respondents: 2,363.

Frequency of Response: Annually.

Estimated Total Annual Hour Burden: 17,291.

Estimated Total Annual Cost: \$1,803,343, which includes \$908,055 annualized capital or O&M costs and \$895,288 in labor costs.

Changes in the Estimates: Since this is a new information collection request, there is no currently-approved burden. However, as this collection does exist under another expiring ICR (Performance Evaluation Studies of Water and Wastewater Laboratories (OMB Control No. 2080-0021, EPA ICR No. 0234.08)), the requested burden under this ICR effectively offsets the decrease in burden in the currently-approved ICR from which it is being removed.

Instructions: Direct your comments to Docket ID No. EPA-HQ-ORD-2007-0216. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through <http://www.regulations.gov> or e-mail. The <http://www.regulations.gov> Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA, without going through <http://www.regulations.gov>, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

I. Public Meeting

A. Does This Action Apply to Me?

This action is directed to the public in general. This action may, however, be of interest to persons who conduct or assess human studies, especially studies on substances regulated by EPA, or to persons who are or may be required to conduct testing of chemical substances under the Federal Food, Drug, and Cosmetic Act (FFDCA) or the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this
