SUPPLEMENTARY INFORMATION:

Title: Registration under the Commodity Exchange Act (OMB Control No. 3038-0023). This is a request for extension of a currently approved information collection.

Abstract: The Commodity Exchange Act (Act) authorizes the Commission to deny, revoke or condition registration under the Act if an applicant or registrant is subject to various statutory disqualifications from registration, such as a prior registration revocation or conviction of a felony or certain misdemeanors. The registration application, which must be updated as necessary, requires information about an applicant's or registrant's disciplinary history so that the person's fitness for registration may be evaluated. In addition, basic identifying information is required so that a database will be available to current and prospective customers, the public, and the news media.

The information on registration applications is used to develop a database known as BASIC (Background Affiliation Status Information Center), which is Internet-accessible and consulted frequently by customers, prospective customers, the general public, and the news media to review data provided by applicants and

registrants and to compare it to information provided by entities making solicitations.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the CFTC's regulations were published on December 30, 1981. See 46 FR 63035 (Dec. 30, 1981). The **Federal Register** notice with a 60-day comment period soliciting comments on this collection of information was published on May 23, 2007 (72 FR 28960).

These estimates include the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; and transmit or otherwise disclose the information.
