BILLING CODE 4312-53-M

DEPARTMENT OF THE INTERIOR

National Park Service

Big Cypress National Preserve Off-Road Vehicle Advisory Committee; Notice of Establishment

AGENCY: National Park Service, Interior.

ACTION: Notice of establishment.

SUMMARY: The Secretary of the Interior is giving notice of the establishment of the Big Cypress National Preserve Off-Road Vehicle Advisory Committee to offer recommendations, alternatives and possible solutions to management of off-road vehicles at Big Cypress National Preserve.

FOR FURTHER INFORMATION CONTACT:

Karen Gustin, Superintendent, Big Cypress National Preserve, 33100 Tamiami Trail E, Ochopee, Florida 34141; 239-695-1103.

SUPPLEMENTARY INFORMATION: The Big Cypress National Preserve Off-Road Vehicle Advisory Committee has been established as directed in the *Off-Road Vehicle Management Plan, 2000*. This plan guides the National Park Service in its management of recreational off-road vehicle (ORV) use in Big Cypress National Preserve, and tiers off of the Preserve's 1991 General Management

Plan. The National Park Service agreed to prepare an ORV management plan as part of a settlement agreement negotiated in 1995 between the Florida Biodiversity Project and several Federal agencies and bureaus. The agreement settled a lawsuit which alleged failure by the agencies to comply with Federal statutes, including the Clean Water Act, the Endangered Species Act, and the National Environmental Policy Act.

The Off-Road Vehicle Management Plan, 2000 (p. 29) states "Under the proposed action, the National Park Service would establish an advisory committee of concerned citizens to examine issues and make recommendations regarding the management of ORVs in the Preserve. The establishment of the committee would meet the legal requirements of the 1972 Federal Advisory Committee Act (FACA) (Pub. L. 92-463, 1972, as amended). The advisory committee would provide access to the extensive knowledge available in the public arena and would offer advice to the National Park Service in the decision-making process in a manner consistent with FACA. This committee would be an element of the adaptive management approach that would be used to develop best management practices for ORV use."

As part of the ORV management plan, NPS committed to establishing the ORV Advisory Committee. In addition, the establishment of the Committee fulfills the agency's policy of civic engagement. It is envisioned that this committee will strengthen the relationship that the NPS has with its partners and communities. The Committee will be comprised of individuals that represent (1) Sportsmen/ORV users; (2) landowners; (3) academia; (4) environmental advocates; (5) the state government, and (6) Tribes.

Certification: I hereby certify that the administrative establishment of the Big Cypress Off-Road Vehicle Advisory Committee is necessary and in the public interest in connection with the performance of duties imposed on the Department of the Interior by the Act of August 25, 1916, 16 U.S.C. 1 *et seq.*, and other statutes relating to the administration of the National Park System.

Dated: June 14, 2007.

Dirk Kempthorne,

Secretary of the Interior.

This general management plan will guide the management of Saguardo National Park for the next 15 to 20 years. The general management plan considers three alternatives—a no-action and two action alternatives, including the National Park Service preferred alternative. Alternative 1, the no-action alternative, is a continuation of current management trends and serves as a basis of comparison with the action alternatives. Alternative 2, the preferred alternative, would emphasize protecting ecological processes and biological diversity by connecting wildlife and plan habitats with habitat corridors. The concept was developed to help protect biological and ecological diversity from being compromised by habitat fragmentation. Alternative 3 would emphasize providing a wider range of opportunities for visitors compatible with the preservation of park resources and wilderness characteristics. The concept was developed because the public wanted the park to expand programs and opportunities for a growing diverse visitor population.

The draft environmental impact statement assesses impacts to cultural resources (archeological resources, historic structures, cultural landscapes, ethnographic resources, and museum collections); natural resources (soils, soundscape, vegetation, wildlife, and threatened, endangered, and candidate species and species of special concern); visitor understanding and experience;
