

to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 732.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 29,613 hours.

Estimated total annual costs:

\$1,187,537. This includes an estimated burden cost of \$1,187,537 and an estimated zero cost for capital investment or maintenance and operational costs.

Are There Changes in the Estimates from the Last Approval?

There is no change in hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. However, the estimated total annual costs are increased by \$83,480 due to increased costs of employment compensation since the previous approval.

What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.
