

# Proposed Rules

Federal Register

Vol. 72, No. 149

Friday, August 3, 2007

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

## DEPARTMENT OF AGRICULTURE

### Rural Utilities Service

#### 7 CFR Part 1739

RIN 0572-AC09

#### Community Connect Broadband Grant Program

**AGENCY:** Rural Utilities Service, USDA.

**ACTION:** Proposed rule.

**SUMMARY:** The Rural Utilities Service, an agency delivering the United States Department of Agriculture's Rural Development Utilities Program, hereinafter referred to as Rural Development and/or the Agency, is issuing proposed regulations to amend its Community-Oriented Connectivity Broadband Grant Program (Community Connect Broadband Grant Program). The Agency has determined that expanding the resource materials used to determine community eligibility for the program will result in a larger number of eligible communities. In addition, Rural Development has changed the test for economic hardship, allowing the applicant community's median household income to be compared to that of its state, which is also expected to increase the number of eligible applicants. Lastly, the Agency is proposing to amend its regulations to specify operating expenses which are approved for grant funding. This proposed rule is not applicable to Community Connect grant applications filed for funding during fiscal year 2007.

In the Rules and Regulations section of this **Federal Register**, the Agency is publishing this action as a direct final rule without prior proposal because the Agency views this as a non-controversial action and anticipates no adverse comments. If no adverse comments are received in response to the direct final rule, no further action will be taken on this proposed rule and the action will become effective at the time specified in the direct final rule. If the Agency receives adverse comments, a timely document will be published in

the **Federal Register** and all public comments received will be addressed in a subsequent final rule on this action.

**DATES:** Comments on this proposed rule must be received by the Agency or carry a postmark or equivalent no later than September 4, 2007.

**ADDRESSES:** Submit comments by either of the following methods:

### Federal Aviation Administration

#### 14 CFR Part 39

[Docket No. FAA-2007-28853; Directorate Identifier 2006-NM-218-AD]

RIN 2120-AA64

#### Airworthiness Directives; Airbus Model A300-600 Series Airplanes

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** We propose to adopt a new airworthiness directive (AD) for the products listed above. This proposed AD results from mandatory continuing airworthiness information (MCAI) originated by an aviation authority of another country to identify and correct an unsafe condition on an aviation product. The MCAI describes the unsafe condition as:

At some locations, the new calculated fatigue life [for the wing to center box assembly] falls below the aircraft Design Service Goal.

The aim of this Airworthiness Directive (AD) is \* \* \* to ensure detection of cracks on the panels and stiffeners at rib No. 1. This situation, if left uncorrected, could affect the structural integrity of the area.

The proposed AD would require actions that are intended to address the unsafe condition described in the MCAI.

**DATES:** We must receive comments on this proposed AD by September 4, 2007.
