SUPPLEMENTARY INFORMATION:

Title: Update of Nursery Stock Regulations.

OMB Number: 0579-0190.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of nursery stock, plants, roots, bulbs, seeds and other plant

products are contained in "Subpart-Nursery Stock, Plants, Roots, Bulbs, Seeds, and Other Plant Products" (7 CFR 319.37 through 319.37-14).

Under the regulations, individuals who are involved in growing, exporting, and importing nursery stock must provide information to the Animal and Plant Health Inspection Service about the commodities they wish to bring into the United States. This information serves as the supporting documentation needed to issue required forms and documents, and is vital to help ensure that plant pests are not introduced into the United States.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. *These comments will help us:*

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.5 hour per response.

Respondents: Importers of nursery stock; foreign government officials.

Estimated annual number of respondents: 30.

Estimated annual number of responses per respondent: 5.

Estimated annual number of responses: 150.

Estimated total annual burden on respondents: 75 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 2nd day of August 2007.

SUPPLEMENTARY INFORMATION:

Background

The Codex Alimentarius (Codex) was established in 1963 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure that fair practices are used in trade.

The Codex *ad hoc* Intergovernmental Task Force on Foods Derived from Biotechnology was established by the 23rd Session of the Codex Alimentarius Commission in 1999 to elaborate standards, guidelines, or other principles related to foods derived from biotechnology. The Task Force completed its mandates within its four-year timeframe and was dissolved by the 26th Session of the Commission. The 27th Session re-established the Task Force for another four-year period. The Task Force is hosted by the government of Japan.

Issues To Be Discussed at the Public Meeting

The following items on the agenda for the Seventh Session of the FBT will be discussed during the public meeting:

- Matters Referred to the Committee from Other Codex Bodies.
- Review of the Work by International Intergovernmental Organizations Related to Foods Derived from Biotechnology.
- Summary of the Report of the FAO/WHO Expert. Consultation on the Safety Assessment of Foods Derived from Recombinant-DNA Animals.
- Proposed Draft Guideline for the Conduct of Food Safety Assessment of Foods Derived from Recombinant-DNA Animals.
- Proposed Draft Annex to the Guideline for the Conduct of Food Safety Assessment of Foods Derived from Recombinant-DNA Plants: Food Safety Assessment of Foods Derived from Recombinant-DNA plants Modified for Nutritional or Health Benefits.
- Proposed Draft Annex to the Guideline for the Conduct of Food

Safety Assessment of Foods Derived from Recombinant-DNA Plants with Low-level Presence of Recombinant-DNA Plant Material.

Each issue listed will be fully described in documents distributed, or to be distributed, by the Japanese Secretariat to the Meeting. Members of the public may access copies of these documents at <http://www.codexalimentarius.net/current.asp>.

Public Meeting

At the September 6, 2007, public meeting, draft U.S. positions on these agenda items will be described and discussed, and attendees will have the opportunity to pose questions and offer comments. Written comments may be offered at the meeting or sent to the U.S. Delegate of the FBT, Dr. Eric Flamm, at eric.flamm@fda.hhs.gov. Written comments should state that they relate to activities of the Seventh Session of the FBT.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to ensure that minorities, women, and persons with disabilities are aware of this notice, FSIS will announce it online through the FSIS Web page located at http://www.fsis.usda.gov/regulations/2007_Notices_Index/. FSIS also will make copies of this **Federal Register** publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, recalls and other types of information that could affect or would be of interest to constituents and stakeholders. The update is communicated via Listserv, a free electronic mail subscription service for industry, trade and farm groups, consumer interest groups, allied health professionals, and other individuals who have asked to be included. The update is available on the FSIS Web page. Through the Listserv and Web page, FSIS is able to provide information to a much broader and more diverse audience. In addition, FSIS offers an e-mail subscription service which provides automatic and customized access to selected food safety news and information. This service is available at http://www.fsis.usda.gov/news_and_events/email_subscription/. Options range from recalls to export information to regulations, directives and notices. Customers can add or delete subscriptions themselves and have the
