Privacy Impact Assessment: Yes. The Privacy Impact Assessment was completed on June 28, 2007. It may be reviewed at: http://www.fcc.gov/omd/privacyact/Privacy_Impact_Assessment.html.

Needs and Uses: The reporting requirements included under this OMB Control Number 3060-0519 enable the Commission to gather information regarding violations of the Do-Not-Call Implementation Act (Do-Not-Call Act).

If the information collection was not conducted, the Commission would be unable to track and enforce violations of the Do-Not-Call Act. The Do-Not-Call rules provide consumers with several options for avoiding most unwanted telephone solicitations.

This national do-not-call registry supplements the current company-specific do-not-call rules for those consumers who wish to continue requesting that particular companies not call them. Any company, which is asked by a consumer, including an existing customer, not to call again must honor that request for five (5) years. The Commission retains the current calling time restrictions of 8 a.m. until 9 p.m.

However, a provision of the Commission's rules allows consumers to give specific companies permission to call them through an express written

agreement. Nonprofit organizations, companies with whom consumers have an established business relationship, and calls to persons with whom the telemarketer has a personal relationship are exempt from the "do-not-call" requirements.

On September 21, 2004, the Commission released the *Safe Harbor Order* establishing a limited safe harbor in which persons will not be liable for placing autodialed and prerecorded message calls to numbers ported from a wireline service within the previous 15 days. The Commission also amended its existing national do-not-call registry safe harbor to require telemarketers to scrub their lists against the do-not-call database every 31 days.

This information is used to help wireless subscribers stop receiving unwanted commercial mobile services messages. SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0999.

Title: Section 20.19, Hearing Aid-Compatible Mobile Handsets (Hearing Aid Compatibility Act).

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 925 respondents; 1,850 responses.

Estimated Time per Response: 2-160 hours.

Frequency of Response: Annual reporting requirement and third party disclosure requirement.

Obligation to Respond: Mandatory.

Total Annual Burden: 6,050 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: Information requested in the annual reports might need to disclose confidential information. However, covered entities would be allowed to request that such materials submitted to the Commission be withheld from public inspection under 47 CFR 0.459.

Needs and Uses: The Commission will submit this information collection to OMB as a revision during this comment period to obtain the full three-year clearance from them. The Commission is reporting a decrease in the number of respondents that are no longer subject to the rules because they have met certain benchmark requirements. The estimate regarding the annual hourly burden requires adjustment because the Commission did not impose the semi-annual reporting requirement on all three groups. Instead, it required wireless service providers and digital wireless handset manufacturers to report every six months for the first three years of implementation, and then annually thereafter through the fifth year of implementation. The Commission expects that each company would utilize staff engineers to draft the reports, and each report would take about two hours to draft. Therefore, the service provider and handset manufacturer reports to an estimated total of four hours per entity for the first three years, and will take two hours per entity in the current (fourth) and the fifth year. Thus, the annual burden for the remaining information collections involving annual reports is 925 (965 entities were reported to OMB in 2004) × 2 hours per entity = 1,850 hours per year. The actual hour burden may be less because the Commission gave these
