

assembly inspection and testing procedures, and worker skill required during the actual manufacturing process will be considered when determining whether a substantial transformation has occurred. No one factor is determinative.

Nukote collects empty toner cartridges from end users at collection sites in the United States and, to a substantially lesser extent, in Canada, Singapore, the United Kingdom, Hong Kong and China. Nukote also purchases used printer cartridges from United States-based brokers. These used printer cartridges were originally manufactured at various locations in different countries. The cartridges are sorted at one foreign location and are then processed at a second foreign location and subsequently in the United States.

At the second foreign location, the cartridges are split open, disassembled, and separated into three sub-assemblies. Worn components of the sub-assemblies are replaced and made operational again. This work constitutes disassembly of the used cartridges, as well as certain preparation for the processing which will occur in the United States. At this point the goods are tested. It is claimed that the sub-assemblies are not functional without the chip which is later installed in the United States (at least in the two scenarios where the chip is involved).

The processing which occurs at Nukote's Rochester, New York facility includes inspection, filling and sealing, mechanical assembly, testing, cleaning, installation of a computer chip, preparation and packaging for shipment, and shipment. We do not believe these operations are complex enough to result in a substantial transformation of the sub-assemblies. The sub-assemblies are essentially made functional again at the foreign facility. While the chip which makes the cartridge work (in two of the three scenarios) is inserted in the United States, we find that the bringing together of the sub-assemblies in the United States does not result in a substantial transformation of the goods. For example, these operations in the United States are not as significant as those in NY G87305, where the cartridges were completely disassembled; salvageable parts were sorted into bins, cleaned, and reconditioned; major components, including the OPC drum and toner were replaced; and other new components were added.

In HQ 561232, dated April 20, 2004, CBP considered the steps necessary to create a fully functional FM tuner, including adjustments to the oscillator coil, two filter coils, and the demodulator coil, selecting and installing two resistors, and enclosing the item in a metal case. CBP held that "while these additional operations are required to create a fully functional product, and are of a certain complexity requiring technical skill, they do not change the essential character of the PCBA [printed circuit board assembly], which at this stage of production has the characteristics of the imported FM tuner but has not quite achieved full functionality." Therefore, CBP held that there was not a

second substantial transformation in the Philippines. We believe that HQ 561232 is relevant here as the imported sub-assemblies possess the characteristics of the printer cartridge but, as imported, have not achieved full functionality.

Holding

The operations performed at Nukote's Rochester, New York facility do not result in a substantial transformation of the cartridges. Therefore, the cartridges will not be considered to be products of the United States.

Sincerely,
Sandra L. Bell,

Executive Director, Office of Regulations and Rulings, Office of International Trade.

Bureau of Land Management

[ID-330-1430-DSG-07-0002; IDI-34902]

Notice of Realty Action; Noncompetitive Lease of Public Land, Custer and Lemhi Counties, ID

AGENCY: Bureau of Land Management, U.S. Department of the Interior.

ACTION: Notice of realty action.

SUMMARY: The Bureau of Land Management (BLM) has examined and determined that two parcels of public land comprising 9.6 acres, more or less, located in Custer and Lemhi Counties, Idaho are suitable for a renewable, direct (non-competitive), 20-year agricultural use lease to The Nature

Conservancy (TNC) pursuant to Section 302 (b) of The Federal Land Policy Management Act of 1976 (43 U.S.C. 1732 (b)), and the implementing regulations at 43 CFR part 2920, as amended. This action will resolve an historic encroachment occurring on public lands. The encroachment dating back to on or before 1976 was originally attributed to parties from whom TNC purchased property (adjacent to the subject parcels) in 2003. Rent for the use was determined by Department of the Interior appraisal to be BLM minimum annual lease fee of \$250.00. Rent may be re-appraised annually, or at an interval not to exceed every 5 years to remain consistent with market trends.

DATES: Interested parties may submit comments to the BLM Challis Field Office Manager, at the below address. Comments must be received by not later than September 24, 2007. Only written comments will be accepted.

ADDRESSES: Address all written comments concerning this Notice to David Rosenkrance, BLM Challis Field Manager, 801 Blue Mountain Road,

Challis, Idaho 83226-9304. Detailed information concerning this action, including but not limited to documentation related to compliance with applicable environmental and cultural resource laws, is available for review at the BLM Challis Field Office.

FOR FURTHER INFORMATION CONTACT: Tim Vanek, Realty Specialist at the above address or call (208) 879-6218.

SUPPLEMENTARY INFORMATION: The following described public land in Custer and Lemhi Counties, Idaho has been determined to be suitable for lease for the purpose of agricultural harvest (alfalfa hay). The BLM has determined that resource values will not be affected by the leasing of this parcel of public land. The proposed action complies with the BLM Challis Resource Management Plan (RMP) (1999). Compliance can be found under: Decision Land Tenure and Access under Goal 4 (Eliminate unauthorized use of public lands). As provided in 43 CFR 2920.5-4(b), land use authorizations may be offered on a negotiated, non-
