

Canyon Maneuver Site (PCMS) in Las Animas County in southeastern Colorado, and other Army transformation programs. The decision is based on the analysis described in the Final PCMS Transformation Environmental Impact Statement (EIS), supporting studies, and comments provided during formal comment and review periods.

**FOR FURTHER INFORMATION CONTACT:** PCMS National Environmental Policy Act (NEPA) Coordinator, Directorate of Environmental Compliance and Management, 1638 Elwell Street, Building 6236, Fort Carson, Colorado 80913-4000; telephone: 719-526-0912; fax: 719-526-1705; or e-mail: [carsdecampcmsnepa@conus.army.mil](mailto:carsdecampcmsnepa@conus.army.mil).

**SUPPLEMENTARY INFORMATION:** The Army has decided to proceed with implementing the Proposed Action described in the Final EIS. The Proposed Action is the Army's preferred alternative to implement three transformation programs at the PCMS. The Army transformation programs include: BRAC 2005; Global Defense Posture Realignment (formerly known as Integrated Global Presence and Basing Strategy); and the Army Modular Force initiative. These programs are part of the overall Army restructuring and are needed to prepare the Army's combat forces for deployment around the world. The Army's decision considered and is consistent with the analysis presented in the EIS, supporting studies, and comments provided during formal comment and review periods.

To implement the BRAC Commission recommendations, the Proposed Action includes two primary components: (1) More frequent use of the PCMS training areas to provide training for approximately 8,500 realigned Active Component (AC) Soldiers and additional Reserve Component (RC) Soldiers assigned to, or otherwise under the control of, Fort Carson and (2) construction of facilities in the Cantonment and ranges in the training areas.

The Proposed Action will provide for increased frequency of training for existing and new units stations at, or otherwise assigned to, Fort Carson. Training and maneuver activities would be similar to the types of activities that presently occur on the PCMS. The increased training requirements of additional AC and RC units, however, will result in increased frequency of use of the training areas. The Army will continue to implement land and environmental management programs and practices to sustain its training

lands for continued use. The No Action Alternative would not meet the Army's purpose and need for the Proposed Action because the BRAC realignment is required by Congress and needed for Army transformation to be effective.

All practicable means to avoid or minimize environmental impacts as a result of implementing the selected action have been adopted. The Army will minimize effects on all environmental and cultural resources by implementing the best management practices and mitigation measures described in the ROD to minimize or avoid the adverse effects identified in the Final EIS.

The Army's decision reflects a proper balance among initiatives for protection of the environment, appropriate mitigation, and actions to achieve the Army's requirements.

The decision does not include expansion of the PCMS through land acquisition. Expansion of the PCMS is a separate action that will be evaluated in a public process at a future date.

#### Notice of Availability of the Record of Decision (ROD) for Transformation at Fort Carson, CO

**AGENCY:** Department of the Army.

**ACTION:** Record of Decision.

**SUMMARY:** The Department of the Army announces the availability of a ROD documenting and explaining the decision to implement realignment actions, as directed by the Base Realignment and Closure (BRAC) Commission, and other Army transformation programs, at the Fort Carson military installation near Colorado Springs, Colorado. The decision is based on the analysis described in the Final Fort Carson Transformation Environmental Impact Statement (EIS), supporting studies, and comments provided during formal comment and review periods.

**FOR FURTHER INFORMATION CONTACT:** Fort Carson National Environmental Policy

Act (NEPA) Coordinator, Directorate of Environmental Compliance and Management, 1638 Elwell Street, Building 6236, Fort Carson, Colorado 80913-4000; telephone: 719-526-4666; fax: 719-526-1705; or e-mail [carsde\\_camnepa@conus.army.mil](mailto:carsde_camnepa@conus.army.mil).

**SUPPLEMENTARY INFORMATION:** The Army has decided to proceed with implementing the Proposed Action described in the Final EIS. The Proposed Action is the Army's preferred alternative to implement three transformation programs at Fort Carson. The Army transformation programs include: BRAC 2005; Global Defense Posture Realignment (formerly known as Integrated Global Presence and Basing Strategy); and the Army Modular Force initiative. These programs are part of the overall Army restructuring and are needed to prepare the Army's combat forces for deployment around the world. The Army's decision considered, and is consistent with, the analysis presented in the EIS, supporting studies, and comments provided during formal comment and review periods.

To implement transformation programs, the Proposed Action includes three primary components: (1) Changes in force structure resulting in a net gain of military units and personnel; (2) facility construction, renovation, and demolition; and (3) increased frequency of live-fire and maneuver training. The only alternative to the Proposed Action that was evaluated in the Final EIS, the No Action alternative, is not feasible because restoration has been directed by BRAC 2005.

All practicable means have been adopted to avoid adverse impacts on environmental and cultural resources identified in the Final EIS as a result of implementing the selected action. To the extent that such impacts cannot be avoided altogether, the Army will minimize them by implementing the best management practices and mitigation measures described in ROD.

The Army's decision reflects a proper balance among initiatives for protection of the environment, appropriate mitigation, and actions to achieve the Army's requirements.

Copies of the ROD can be requested from the NEPA Coordinator or downloaded at [http://www.hqda.army.mil/acsim/brac/nepa\\_eis\\_docs.htm](http://www.hqda.army.mil/acsim/brac/nepa_eis_docs.htm).

## DEPARTMENT OF EDUCATION

### Notice of Proposed Information Collection Requests

**AGENCY:** Department of Education.

**SUMMARY:** The Acting Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

**DATES:** Interested persons are invited to submit comments on or before October 9, 2007.

**SUPPLEMENTARY INFORMATION:** Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the

Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: August 6, 2007.
