

SUMMARY: The FAA is publishing notice of proposed release from aeronautical use of approximately 22,170 square feet of land at the Leesburg Executive Airport, Leesburg, Virginia to the Town of Leesburg. The release will facilitate the widening of Sycolin Road that will improve access to the airport and provide needed capacity of the road system. There are no impacts to the Airport and the land is not needed for airport development as shown on the Airport Layout Plan.

DATES: Comments must be received on or before September 10, 2007.

ADDRESSES: Comments on this application may be mailed or delivered in triplicate to the FAA at the following address: Terry J. Page, Manager, FAA Washington Airports District Office, 23723 Air Freight Lane, Suite 210, Dulles, VA 20166.

In addition, one copy of any comments submitted to the FAA must be mailed or delivered to Mr. Timothy B. Deike, Director, Leesburg Executive Airport, at the following address: Mr. Timothy B. Deike, Director, Leesburg Executive Airport, 1001 Sycolin Road, SE., Leesburg, Virginia 20175.

FOR FURTHER INFORMATION CONTACT: Mr. Terry Page, Manager, Washington Airports District Office, 23723 Air Freight Lane, Suite 210, Dulles, VA 20166; telephone (703) 661-1354, fax (703) 661-1370, e-mail Terry.Page@faa.gov.

SUPPLEMENTARY INFORMATION: On April 5, 2000, new authorizing legislation became effective. That bill, the Wendell H. Ford Aviation investment and Reform Act for the 21st Century, Public Law 10-181 (Apr. 5, 2000; 114 Stat. 61) (AIR 21) requires that a 30-day public notice must be provided before the Secretary may waive any condition imposed on an interest in surplus property.

Issued in Chantilly, Virginia, on August 6, 2007.

Terry J. Page,

Manager, Washington Airports District Office, Eastern Region.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Noise Exposure Maps—Ronald Reagan Washington National Airport

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its determination that the noise exposure maps submitted by Metropolitan Washington Airport Authority (MWAA) for Ronald Reagan Washington National Airport under the provisions of 49 U.S.C. 47501 *et. seq* (Aviation Safety and Noise Abatement Act) and 14 CFR Part 150 are in compliance with applicable requirements. The FAA also announces that it is reviewing a proposed noise compatibility program that was submitted for Ronald Reagan Washington National Airport under Part 150 in conjunction with the noise exposure map, and that this program will be approved or disapproved on or before February 2, 2008.

EFFECTIVE DATE: The effective date of the FAA's determination on the noise exposure maps and of the start of its review of the associated noise compatibility program is August 6, 2007. The public comment period ends October 5, 2007.

FOR FURTHER INFORMATION CONTACT: Jennifer Mendelsohn, Eastern Region, Washington Airports District Office, Federal Aviation Administration, 23723 Air Freight Lane, Suite 210, Dulles, Virginia 20166, Telephone: 703-661-1362. Comments on the proposed noise compatibility program should also be submitted to the above office.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA finds that the noise exposure maps submitted for Ronald Reagan Washington National Airport are in compliance with applicable requirements of Part 150, effective August 6, 2007. Further, FAA is reviewing a proposed noise compatibility program for that airport which will be approved or disapproved on or before February 2, 2008. This notice also announces the availability of this program for public review and comment.

Under 49 U.S.C., section 47503 (the Aviation Safety and Noise Abatement Act, hereinafter referred to as "the Act"), an airport operator may submit to the FAA noise exposure maps which meet applicable regulations and which depict non-compatible land uses as of the date of submission of such maps, a description of projected aircraft operations, and the ways in which such operations will affect such maps. The Act requires such maps to be developed in consultation with interested and affected parties in the local community, government agencies, and persons using the airport.

An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with

the requirements of Federal Aviation Regulations (FAR) Part 150, promulgated pursuant to the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes to take to reduce existing non-compatible uses and prevent the introduction of additional non-compatible uses.

MWAA submitted to the FAA on August 2, 2007 noise exposure maps, descriptions and other documentation that were produced during Ronald Reagan Washington National Airport's November 2004 noise compatibility study. It was requested that the FAA review this material as the noise exposure maps, as described in section 47503 of the Act, and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved as a noise compatibility program under section 47504 of the Act.

The FAA has completed its review of the noise exposure maps and related descriptions submitted by MWAA. The specific documentation determined to constitute the noise exposure maps includes: Exhibit V-1, "Noise Exposure Map—Existing Condition: and Exhibit VI-1, "Noise Exposure Map: 2009 with FAA TAF General Aviation Operations and Advanced Navigational Procedure." The FAA has determined that these maps for Ronald Reagan Washington National Airport are in compliance with applicable requirements. This determination is effective on August 6, 2007. FAA's determination on an airport operator's noise exposure maps is limited to a finding that the maps were developed in accordance with the procedures contained in appendix A of FAR Part 150. Such determination does not constitute approval of the applicant's data, information or plans, or constitute a commitment to approve a noise compatibility program or to fund the implementation of that program.

If questions arise concerning the precise relationship of specific properties to noise exposure contours depicted on a noise exposure map submitted under section 47503 of the Act, it should be noted that the FAA is not involved in any way in determining the relative locations of specific properties with regard to the depicted noise contours, or in interpreting the noise exposure maps to resolve questions concerning, for example, which properties should be covered by the provisions of section 47506 of the Act. These functions are inseparable from the ultimate land use control and planning responsibilities of local government. These local responsibilities

are not changed in any way under Part 150 or through FAA's review of noise exposure maps. Therefore, the responsibility for the detailed overlaying of noise exposure contours onto the map depicting properties on the surface rests exclusively with the airport operator that submitted those maps, or with those public agencies and planning agencies with which consultation is required under section 47503 of the Act. The FAA has relied on the certification by the airport operator, under section 150.21 of FAR Part 150, that the statutorily required consultation has been accomplished.

The FAA has formally received the noise compatibility program for Ronald Reagan Washington National Airport, also effective on August 6, 2007. Preliminary review of the submitted material indicates that it conforms to the requirements for the submittal of noise compatibility programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of 180 days, will be completed on or before February 2, 2008.

The FAA's detailed evaluation will be conducted under the provisions of 14 CFR Part 150, section 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety, create an undue burden on interstate or foreign commerce, or be reasonably consistent with obtaining the goal of reducing existing non-compatible land uses and preventing the introduction of additional non-compatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the noise exposure maps, the FAA's evaluation of the maps, and the proposed noise compatibility program are available for examination at the following locations:

Federal Aviation Administration,
Eastern Region—Airports Division, 1
Aviation Plaza, Jamaica, New York
11434

Federal Aviation Administration,
Washington Airports District Office,
23723 Air Freights Lane, Suite 210,
Dulles, Virginia 20166

Metropolitan Washington Airports
Authority, 1 Aviation Circle,
Washington, DC 20001

Questions may be directed to the individual named above under the

heading, **FOR FURTHER INFORMATION CONTACT.**

Issued in Dulles, Virginia, on August 6, 2007.

Terry J. Page,
Manager, Washington Airports District Office.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[Docket No. FHWA-2007-28961]

**Agency Information Collection
Activities: Notice of Request for
Extension of Currently Approved
Information Collection**

AGENCY: Federal Highway
Administration (FHWA), DOT.

ACTION: Notice and request for
comments.

SUMMARY: The FHWA has forwarded the information collection request described in this notice to the Office of Management and Budget (OMB) to renew an information collection. We published a **Federal Register** Notice with a 60-day public comment period on this information collection on June 8, 2007. We are required to publish this notice in the **Federal Register** by the Paperwork Reduction Act of 1995.

DATES: Please submit comments by
September 12, 2007.

ADDRESSES: You may send comments within 30 days to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention DOT Desk Officer. You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burden; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. All comments should include the Docket number FHWA-2007-28961.

FOR FURTHER INFORMATION CONTACT:
Bobette Meads, 202-366-2881, Office of the Chief Financial Officer, Federal Highway Administration, Department of Transportation, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 7:30 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Title: Voucher for Federal-aid Reimbursements.

OMB Control #: 2125-0507.

Form #: PR-20.

Background: The Federal-aid Highway Program provides for the reimbursement to States for expenditure of State funds for eligible Federal-aid highway projects. The Voucher for Work Performed under Provisions of the Federal Aid and Federal Highway Acts as amended is utilized by the States to provide project financial data regarding the expenditure of State funds and to request progress payments from the FHWA. Title 23 U.S.C. 121(b) requires the submission of vouchers. The specific information required on the voucher is contained in 23 U.S.C. 121 and 117. Two types of submissions are required by recipients. One is a progress voucher where the recipient enters the amounts claimed for each FHWA appropriation, and the other is a final voucher where project costs are classified by work type. An electronic version of the Voucher for Work Performed under Provisions of the Federal Aid Highway Acts, as amended, Form PR-20, is used by all recipients to request progress and final payments.

Respondents: 50 State Transportation Departments, the District of Columbia, Puerto Rico, Guam, American Samoa, and the Virgin Islands.

Estimated Average Annual Burden: The respondents electronically submit an estimated total of 12,900 vouchers each year. Each voucher requires an estimated average of 30 minutes to complete.

Estimated Total Annual Burden Hours: Total estimated average annual burden is 6450 hours.

Electronic Access: Internet users may access all comments received by the U.S. DOT Dockets, by using the universal resource locator (URL): <http://dms.dot.gov>, 24 hours each day, 365 days each year. Please follow the instructions online for more information and help.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: August 8, 2007.

James R. Kabel,
Chief, Management Programs and Analysis
Division.
