**SUPPLEMENTARY INFORMATION:** On June 1, 2007, notice was published in the **Federal Register** (72 FR 30553) that an amendment of Permit No. 1070-1783-01, issued September 5, 2006 (71 FR 53423), had been requested by the above-named individual. The permit has been amended to increase the number of harbor seals (*Phoca vitulina*) that may be harassed annually during scat collection on haul-out sites in Washington. The objective of the research remains the same: to study temporal and spatial variation in numbers and diet composition of harbor seals to determine responses of harbor seals to changes in prey density and the impact of seal behavior on marine protected areas. The permit amendment is valid through March 2011.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), a final determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.
