[Public Notice 5893]

### Determination Pursuant to Section 1(b) of Executive Order 13224 Relating to the Designation of the Fatah al-Islam

Acting under the authority of section 1(b) of Executive Order 13224 of September 23, 2001, as amended by Executive Order 13286 of July 2, 2002, and Executive Order 13284 of January 23, 2003, and in consultation with the Secretary of the Treasury and the Attorney General, I hereby determine that the organization known as Fatah al-Islam has committed, or poses a significant risk of committing, acts of terrorism that threaten the security of U.S. nationals or the national security, foreign policy, or economy of the United States.

Consistent with the determination in section 10 of Executive Order 13224 that "prior notice to persons determined to be subject to the Order who might have a constitutional presence in the United States would render ineffectual the blocking and other measures authorized in the Order because of the ability to transfer funds instantaneously," I determine that no prior notice needs to

be provided to any person subject to this determination who might have a constitutional presence in the United States, because to do so would render ineffectual the measures authorized in the Order.

This notice shall be published in the **Federal Register**.

## TENNESSEE VALLEY AUTHORITY

### Completion and Operation of Watts Bar Nuclear Plant Unit 2, Rhea County, TN

**AGENCY:** Tennessee Valley Authority (TVA).

**ACTION:** Issuance of record of decision.

**SUMMARY:** This notice is provided in accordance with the Council on Environmental Quality's regulations (40 CFR parts 1500 to 1508) and TVA's procedures implementing the National Environmental Policy Act. On August 1, 2007, the TVA Board of Directors decided to adopt the preferred alternative identified in TVA's Final Supplemental Environmental Impact Statement (FSEIS), Completion and Operation of Watts Bar Nuclear Plant Unit 2, Rhea County, Tennessee.

A Notice of Availability of the FSEIS was published in the **Federal Register** on June 23, 2007. Under the selected alternative, TVA has decided to meet the need for additional baseload capacity on the TVA system and maximize the use of existing assets by completing and operating Watts Bar Nuclear Plant (WBN) Unit 2. The unit would be completed as originally designed incorporating additional modifications made to its sister unit, WBN Unit 1, which has been operating since 1996. No expansion of the existing site footprint would be required to complete construction of Unit 2. TVA has prepared the FSEIS to update the extensive environmental record pertinent to the proposed action. In addition to the FSEIS, TVA conducted a detailed scoping, estimating, and planning (DSEP) study. TVA used information from the DSEP and the FSEIS to make the decision to complete construction and to operate Unit 2.
