Except for the change described above, the liability insurance requirements previously announced remain in effect.

#### Available Reference Materials

In our January 13, 2005 notice, we also announced that we would provide each applicant eligible to sit for the examination required by SSPA section 303(b)(4) a copy of the Compilation of Social Security Laws, Volume 1 (Compilation), to use as an open-book reference during the examination. Based on experience we have gained in the first four examinations, we have decided that providing a limited number of copies of the Compilation at each testing site for test-takers to consult during the examination is sufficient. Therefore, instead of giving each test-taker a copy of the Compilation, we will make available at each testing site sufficient copies of the Compilation for use by test-takers during the examination.

#### Operating Limitations at New York LaGuardia Airport; Denial of Request for Extension of Comment Period

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Denial of request for extension of comment period.

**SUMMARY:** This document denies the request to extend the comment period on the FAA's notice of proposed

amendments to its December 12, 2006, order that places temporary limitations on flight operations at New York's LaGuardia Airport. The notice of proposed amendments was published in the **Federal Register** on August 7, 2007.

#### SUPPLEMENTARY INFORMATION:

##### Background

On December 27, 2006, the FAA adopted operational limitations on New York LaGuardia Airport (LaGuardia) flights through an order (the Order) that became effective on January 1, 2007. 71 FR 77854. On August 7, 2007, the FAA subsequently proposed several amendments to the Order to improve the administration of the congestion management program at LaGuardia. Comments to that document are to be received on or before September 6, 2007.

By written request, dated August 7, 2007, the Air Transport Association of America, Inc. (ATA) and the Regional Airline Association (RAA) asked the FAA to extend the comment period for an additional 30 days. The FAA does not believe that an extension of time is necessary. The ATA and RAA recognized that a substantial number of the proposed amendments to the Order are technical corrections that they themselves identified to the FAA. While it may be difficult to coordinate comments from the petitioners' association during this "peak vacation" period and the Labor Day holiday, the FAA believes there is a stronger interest in the timely issuance of these amendments.

Issued in Washington, DC, on August 10, 2007.
