the programs, specifically: (a) The characteristics of the patients they serve (gender, age, disability level, occupation type); (b) the characteristics of services provided (medical, non-medical, or counseling); (c) number of patients served and visits conducted (encounters); and (d) the improvement in pulmonary function of patients (pulmonary rehabilitation). This assessment will provide data useful to the program and will enable HRSA to provide data required by Congress under the Government Performance and Results Act of 1993. It will also ensure that the organizations funded have demonstrated a need for services in their communities and that funds are being effectively used to provide services to meet those needs.

The estimated burden is as follows:

Form name	Number of respondents	Hours per response	Total burden hours
Database	15	20	300

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to the desk officer for HRSA, either by e-mail to *OIRA_submission@omb.eop.gov* or by fax to 202–395–6974. Please direct all correspondence to the ''attention of the desk officer for HRSA.''

Dated: August 15, 2007.

Alexandra Huttinger,

Acting Director, Division of Policy Review and Coordination.

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Correction of total burden hours.

SUMMARY: The Health Resources and Services Administration published an Agency Information Collection document in the **Federal Register** of July 31, 2007 (FR Doc. E7–14680), on page 41759, regarding Bureau of Primary Health Care (BPHC) Uniform Data System (OMB No. 0915–0193). In the burden table, the total burden hours published are incorrect.

Correction

In the **Federal Register** issue of July 31, 2007, FR Doc. E7–14680), on page 41759, correct the Total Burden Hours as follows:

Type of report	Total burden hours
Universal report	58,104
Grant report	2,700
Total	60,804

Dated: August 15, 2007.

Alexandra Huttinger,

Acting Director, Division of Policy Review and Coordination.

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Health Resources and Services Administration (HRSA) publishes abstracts of information collection requests under review by the Office of Management and Budget (OMB), in compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). To request a copy of the clearance requests submitted to OMB for review, call the HRSA Reports Clearance Office on (301) 443–1129.

The following request has been submitted to the Office of Management and Budget for review under the Paperwork Reduction Act of 1995:

Proposed Project: National Practitioner Data Bank and Healthcare Integrity and Protection Data Bank Market Surveys and Survey of Use of Data Bank Information by Queriers: NEW

The purpose of these surveys is to conduct a follow-up study to the National Practitioner Data Bank (NPDB) User and Non-User Surveys of 2001. In addition, Healthcare Integrity and Protection Data Bank (HIPDB) users and non-sers will be included in this study. The study will evaluate the effectiveness of the NPDB and the HIPDB as flagging systems, sources of information, and decisionmaking tools. It will also determine user satisfaction with the process, use, and information provided by the NPDB and HIPDB.

Surveys will be administered to entities that report to and/or query the NPDB and HIPDB, including users who query either the NPDB and/or HIPDB and who receive a ''match'', i.e. copies of adverse actions concerning a queried practitioner. A sample of Queriers who received a matched response will be surveyed about the information received. NPDB and HIPDB non-users will also be surveyed. Eligible NPDB and HIPDB users will be asked to complete a Web-based Internet survey or a computer-assisted telephone interview (CATI). NPDB and HIPDB non-users will complete either a Web or CATI, or will be transferred to an interactive voice response (IVR) system during the CATI to complete the survey.

Data gathered from the survey will be compared with similar information from previous surveys of users and non-users and will provide HRSA with the information necessary to improve the usability of the NPDB and HIPDB.

The estimate of burden is as follows:

Respondents	Respondent description	Number of respondents	Responses per respondent	Total responses	Hours per response	Total burden (hours)
NPDB Users Group Survey	Malpractice Payers	228	1	228	.25	57
	Licensing Boards	90	1	90	.25	22.5
	Hospitals (Reporting)	466	1	466	.25	116.5
	Hospitals (Querying)	994	1	994	.25	248.5
	MCOs	900	1	900	.25	225
