## II. What Action is EPA Taking?

This document extends the public comment periods for the fumigants chloropicrin, dazomet, 1,3-dichloropropene, metam potassium, metam sodium, and methyl bromide established in the **Federal Register** issued on May 2, 2007 (72 FR 24290, FRL-8127-7), (72 FR 24292, FRL-8126-7), (72 FR 24294, FRL-8124-8), (72 FR 24295, FRL-8125-9), and (72 FR 24297, FRL-8125-7). In those documents, EPA announced the availability of the risk assessments and risk mitigation proposal and opened 60-day public comment periods. A subsequent **Federal Register** Notice issued on June 20, 2007 (FRL-8145-6) extended the comment periods to September 3, 2007. EPA is hereby extending the comment periods, which were set to end on September 3, 2007 to November 3, 2007.

## III. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, directs that, after submission of all data concerning a pesticide active ingredient, the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration. Further provisions are made to allow a public comment period. However, the Administrator may extend the comment period if additional time for comment is requested.

In this case, the National Potato Council as well as McDermott, Will, and Emery LLP, on behalf of the Minor Crop Farmer Alliance (MCFA), have requested additional time to develop comments. MCFA is an alliance of more than 100 national and regional organizations and individuals representing growers, shippers, packers, handlers and processors of various agricultural commodities. The Agency believes that an additional 60 days is warranted.

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of proposed administrative settlement and opportunity for public comment.

**SUMMARY:** The Environmental Protection Agency (EPA) is proposing to enter into an administrative settlement agreement that resolves certain claims under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (CERCLA) pursuant to section 122(h) of CERCLA, 42 U.S.C. 9622(h). In accordance with section 122(i) of CERCLA, 42 U.S.C. 9622(i), this notice is being published to inform the public of the proposed settlement agreement and of the opportunity to comment.

Under the proposed administrative settlement, the settling party, D.S.C. of Newark Enterprises, Inc. (“DSC”) will make a payment of \$203,249 to resolve its liability for “Past Response Costs,” which are defined as those costs that EPA has paid at or in connection with a removal action performed at 126 Spicer Avenue, a residential property in South Plainfield, New Jersey through December 31, 2006, plus accrued interest on those costs. DSC will also make a payment of \$25,000 to resolve its liability for violation of an administrative order on consent (“AOC”) that DSC entered into with EPA to perform the removal activities in question.

In addition, the proposed administrative settlement provides that EPA may enter onto DSC's property—a former capacitor manufacturing facility—to perform the remedial action called for in the Record of Decision for Operable Unit 2 of the Site, which includes soil excavation and demolition of contaminated buildings.

For thirty (30) days following the date of publication of this notice, EPA will receive written comments relating to the settlement. EPA will consider all comments received and may modify or withdraw its consent to the settlement if comments received disclose facts or considerations that indicate that the proposed settlement is inappropriate, improper or inadequate. EPA's response to any comments received will be available for public inspection at EPA Region 2, 290 Broadway, 17th floor New York, New York 10007-1866.

**DATES:** Comments must be provided by September 24, 2007.
