Alternatives Considered

The No Action alternative will serve as a baseline for comparison of alternatives. This alternative will offer no treatment of affected sites. It will be fully developed and analyzed. The proposed action, as described above will be considered as an alternative. Additional alternatives may be developed around the proposed action to address key issues identified in the scoping and public involvement process.

Estimated Dates for Draft and Final EIS

The draft EIS is expected to be filed with the Environmental Protection Agency (EPA) and to be available for public comment by April 2007. The comment period on the draft EIS will be 45 days from the date the EPA publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early state, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of the draft EIS must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519.553 (1978). Also, environmental objectives that could be raised at the draft EIS stage but that are not raised until after the completion of the final EIS may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F. 2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritage, Inc. v.*

Harris, 490 F. Supp. 1334 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period; so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final EIS.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft EIS should be as specific as possible. It is also helpful if the comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft EIS or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act (40 CFR 1503.3).

Comments received in response to this solicitation, including names and addresses of those who comment, will be considered part of the public record on this proposed action and will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments may not have standing to appeal the subsequent decision under 36 CFR part 215. Additionally, pursuant to 7 CFR 1.27(d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality. Persons requesting such confidentiality should be aware that, under the FOIA, confidentiality may be granted in only very limited circumstances, such as to protect trade secrets. The Forest Service will inform the requester of the agency's decision regarding the request for confidentiality, and where the request is denied, the agency will return the submission and notify the requester that the comments may be resubmitted with or without name and address within a specified number of days.

Comments on the draft EIS will be analyzed, considered, and responded to by the Forest Service in preparing the final EIS. The final EIS is scheduled to be completed in June 2008. The Responsible Official will be Gary Larsen, Forest Supervisor of the Mt. Hood National Forest. He will consider comments, responses, environmental consequences discussed in the final EIS, and applicable laws, regulations, and policies in making a decision regarding

this proposed action. The responsible official will document the decision and rationale for the decision in the Record of Decision. It will be subject to Forest Service Appeal Regulations (36 CFR part 215).

Dated: August 17, 2007.

Gary L. Larsen,

Forest Supervisor, Mt. Hood National Forest.

SUPPLEMENTARY INFORMATION:

Title: Food Stamp Nutrition Connection Resource Sharing Form.

OMB Number: 0518-0031.

Expiration Date: Three years from date of approval.

Type of Request: Renewal of existing data collection from Food Stamp nutrition education providers.

Abstract: This voluntary "Sharing Form" gives Food Stamp nutrition education providers the opportunity to share information about resources that they have developed or used. Data

collected using this form helps the Food and Nutrition Information Center (FNIC) identify existing nutrition education and training resources for review and inclusion in an online database.

Educators can search this database via the Food Stamp Nutrition Connection Web site <http://foodstamp.nal.usda.gov>. In 2001, the United States Department of Agriculture's (USDA) Food and Nutrition Service established the Food Stamp Nutrition Connection to improve access to Food Stamp Program nutrition resources. Educators nationwide can use this site to identify curricula, lesson plans, research, training tools and participant materials. Developed and maintained at the National Agricultural Library's FNIC, this resource system helps educators find the tools and information they need to provide quality nutrition education for low-income audiences.

The Sharing Form is available for completion online at the Food Stamp Nutrition Connection Web site. Individuals may also print the form and return it via fax or mail. The form consists of four parts. These various sections include: Part 1 consisting of three questions about the responder; Part 2 with nine questions about the resource; Part 3 with five questions about the resource development; and Part 4 with six questions about ordering/obtaining the resource. Responders are asked to complete only relevant sections of the form. Instructions about which sections to complete, based on one's relationship to the resource, are provided in Part 1. For instance, those that use the resource but are neither its developer or distributor would only complete Parts 1 and 2.

This form enables FNIC to inform nutrition educators of existing nutrition education and training materials targeting low-income Americans. This identification of existing materials will help educators spend their monies wisely in the development of needed educational resources.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 0.7 minutes per response.

Respondents: Food Stamp nutrition education providers.

Estimated Number of Respondents: 50 per year.

Estimated Total Annual Burden on Respondents: 16.
