

calendar year 2007, unless additional quota becomes available through a transfer from another state. Regulations governing the summer flounder fishery require publication of this notification to advise Connecticut that the quota has been harvested and to advise vessel permit holders and dealer permit holders that no commercial quota is available for landing summer flounder in Connecticut.

**DATES:** Effective 0001 hours, August 25, 2007 through 2400 hours, December 31, 2007.

**FOR FURTHER INFORMATION CONTACT:** Emily Bryant, Fishery Management Specialist, (978) 281-9244.

**SUPPLEMENTARY INFORMATION:**

Regulations governing the summer flounder fishery are found at 50 CFR part 648. The regulations require annual specification of a commercial quota that is apportioned on a percentage basis among the coastal states from North Carolina through Maine. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.100.

The initial total commercial quota for summer flounder for the 2007 calendar year was set equal to 7,789,800 lb (3,533 mt) (71 FR 75134, December 14, 2006). This quota was increased through an emergency action to 10,267,098 lb (4,658 mt) (72 FR 2458, January 19, 2007). The percent allocated to vessels landing summer flounder in Connecticut is 2.25708 percent, resulting in a commercial quota of 231,739 lb (106 mt). The 2007 allocation was reduced to 226,464 lb (103 mt) when research set-aside was deducted and then reduced to 209,994 (96 mt) after the 2006 overages had been applied.

Section 648.101(b) requires the Administrator, Northeast Region, NMFS (Regional Administrator) to monitor state commercial quotas and to determine when a state's commercial quota has been harvested. NMFS then publishes a notification in the **Federal Register** to advise the state and to notify Federal vessel and dealer permit holders that, effective upon a specific date, the state's commercial quota has been harvested and no commercial quota is available for landing summer flounder in that state. The Regional Administrator has determined, based upon dealer reports and other available information, that Connecticut has harvested its quota for 2007.

The regulations at § 648.4(b) provide that Federal permit holders agree, as a condition of the permit, not to land summer flounder in any state that the Regional Administrator has determined

no longer has commercial quota available. Therefore, effective 0001 hours, August 25, 2007, further landings of summer flounder in Connecticut by vessels holding summer flounder commercial Federal fisheries permits are prohibited for the remainder of the 2007 calendar year, unless additional quota becomes available through a transfer and is announced in the **Federal Register**. Effective 0001 hours, August 25, 2007, federally permitted dealers are also notified that they may not purchase summer flounder from federally permitted vessels that land in Connecticut for the remainder of the calendar year, or until additional quota becomes available through a transfer from another state.

**Classification**

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866.

**RIN 0648-XC22**

**Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 630 of the Gulf of Alaska**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; closure.

**SUMMARY:** NMFS is prohibiting directed fishing for pollock in Statistical Area 630 of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the C season allowance of the 2007 total allowable catch (TAC) of pollock for Statistical Area 630 of the GOA.

**DATES:** Effective 1200 hrs, Alaska local time (A.l.t.), August 28, 2007, through 1200 hrs, A.l.t., October 1, 2007.

**FOR FURTHER INFORMATION CONTACT:** Jennifer Hogan, 907-586-7228.

**SUPPLEMENTARY INFORMATION:** NMFS manages the groundfish fishery in the GOA exclusive economic zone

according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The C season allowance of the 2007 TAC of pollock in Statistical Area 630 of the GOA is 4,889 metric tons (mt) as established by the 2007 and 2008 harvest specifications for groundfish of the GOA (72 FR 9676, March 5, 2007). In accordance with § 679.20(a)(5)(iv)(B) the Administrator, Alaska Region, NMFS (Regional Administrator), hereby decreases the C season pollock allowance by 1,338 mt, the amount of the B season allowance of the pollock TAC that was exceeded in Statistical Area 630. Therefore, the revised C season allowance of the pollock TAC in Statistical Area 630 is 3,551 mt (4,889 mt minus 1,338 mt).

In accordance with § 679.20(d)(1)(i), the Regional Administrator has determined that the C season allowance of the 2007 TAC of pollock in Statistical Area 630 of the GOA will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 3,251 mt, and is setting aside the remaining 300 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for pollock in Statistical Area 630 of the GOA.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

**Classification**

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of pollock in Statistical Area 630 of the GOA. NMFS was unable to publish a notice providing time for public comment

because the most recent, relevant data only became available as of August 20, 2007.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon

the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.
