Boralex Livemore Falls LP; Boralex Stratton Energy LP; Boralex Ft. Fairfield LP; Boralex Ashland LP; Second Notice of Technical Conference

August 21, 2007.

As announced on August 8, 2007, the staff of the Federal Energy Regulatory Commission will hold a technical conference in the above-referenced proceeding on Wednesday, August 29, 2007, from 9 a.m. to 1 p.m. at the offices of the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

All parties and interested persons are invited to attend.

The conference will address the following issues raised with regard to Boralex's updated market power analysis:

1. What is the relevant geographic market for Boralex's market power analysis—the Northeast Power Coordinating Council's Maritimes Control Area (MCA) or the Northern Maine Independent System Administrator (NMISA) region?
 2. Should Boralex be disallowed from deducting long-term firm non-requirements capacity in its market power analysis due to extraordinary circumstances (i.e., unique structural issues) in the relevant geographic market?
 3. Should uncommitted capacity from Boralex's remote generation in the ISO-NE balancing authority area be considered in Boralex's market power analysis?
 4. How should transmission import capacity into NMISA be allocated, and what impact will planned transmission additions have on import capabilities?
 5. Why is the Boralex Sherman plant currently mothballed?

Superfund Site ("Site") located in the City of Newburgh, Orange County, New York. The settlement requires specified individual payments by each settling party to the EPA Hazardous Substance Superfund Consolidated Iron and Metal Co. The settlement includes a covenant not to sue pursuant to Sections 106 and 107 of CERCLA, 42 U.S.C. 9606 and 9607, relating to the Site, subject to limited reservations, and protection from contribution actions or claims as provided by Sections 113(f)(2) and 122(g)(5) of CERCLA, 42 U.S.C. 9613(f)(2) and 9622(g)(5). For thirty (30) days following the date of publication of this notice, EPA will receive written comments relating to the settlement. EPA will consider all comments received and may modify or withdraw its consent to the settlement if comments received disclose facts or considerations that indicate that the proposed settlement is inappropriate, improper, or inadequate. EPA's response to any comments received will be available for public inspection at EPA Region 2, 290 Broadway, New York, New York 10007-1866.

DATES: Comments must be submitted on or before September 27, 2007.
