

the northwest corner of Nevada. At this meeting, agenda topics will include an update on the Sagebrush Steppe Ecosystem Restoration Project, a status report on sage grouse conservation strategies, an update on the resource management plan protest process, a status report on wind energy proposals and information on current issues in the BLM's Wild Horse and Burro Program. All meetings are open to the public. Members of the public may present written comments to the council. Each formal council meeting will have time allocated for public comments. Depending on the number of persons wishing to speak, and the time available, the time for individual comments may be limited. Members of the public are welcome on field tours, but they must provide their own transportation and lunch. Individuals who plan to attend and need special assistance, such as sign language interpretation and other reasonable accommodations, should contact the BLM as provided above.

Dated: August 27, 2007.

Joseph J. Fontana,
Public Affairs Officer.

Bureau of Land Management

[AZ-210-5410-FR-A508; AZA-33808 and AZ-210-5410-FR-A508; AZA-33809]

Correction to Notice of Realty Action: Applications for Conveyance of Federal Mineral Interests, Maricopa County, AZ

AGENCY: Bureau of Land Management, Interior.

ACTION: Correction notice.

SUMMARY: This notice amends the Notice of Realty Action for 2 Applications for the Conveyance of Federal Mineral Interest, Maricopa County, Arizona, published in 72 FR 46497-46498. Under the sections entitled **SUPPLEMENTARY INFORMATION**, the following corrections are made. The lands proposed for purchase and conveyance of the Federally-owned mineral interest is changed to:

Gila and Salt River Base and Meridian, Maricopa County, Arizona

T. 4 N., R. 2 W.,
Sec. 10, SE $\frac{1}{4}$; Sec. 11, NW $\frac{1}{4}$ SW $\frac{1}{4}$,
SW $\frac{1}{4}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$, E $\frac{1}{2}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$; Sec.
14, E $\frac{1}{2}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$ SW $\frac{1}{4}$.

The area described contains 260 acres more or less, in Maricopa County.

Gila and Salt River Base and Meridian, Maricopa County, Arizona

T. 4 N., R. 2 W.,
Sec. 14, NW $\frac{1}{4}$ NW $\frac{1}{4}$.

The area described contains 40 acres more or less, in Maricopa County.

Dated: August 23, 2007.

Teresa A. Raml,

Phoenix District Manager.

BILLING CODE 4310-32-P

DEPARTMENT OF THE INTERIOR

Minerals Management Service

Agency Information Collection Activities: Submitted for Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice of extension of an information collection (1010-0114).

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), we are notifying the public that we have submitted to OMB an information collection request (ICR) to renew approval of the paperwork requirements in the regulations under 30 CFR 250, Subpart A, General, and related documents. This notice also provides the public a second opportunity to comment on the paperwork burden of these regulatory requirements.

DATES: Submit written comments by October 1, 2007.

ADDRESSES: You may submit comments either by fax (202) 395-6566 or email (OIRA_DOCKET@omb.eop.gov) directly to the Office of Information and Regulatory Affairs, OMB, Attention: Desk Officer for the Department of the Interior (1010-0114). Mail or hand carry a copy of your comments to the Department of the Interior; Minerals Management Service; Attention: Cheryl Blundon; Mail Stop 4024; 381 Elden Street; Herndon, Virginia 20170-4817. If you wish to email your comments to MMS, the address is: rules.comments@mms.gov. Reference Information Collection 1010-0114 in your subject line and mark your message for return receipt. Include your name and return address in your message text.

FOR FURTHER INFORMATION CONTACT:

Cheryl Blundon, Regulations and Standards Branch, (703) 787-1607. You may also contact Cheryl Blundon to obtain a copy, at no cost, of the regulations and forms that require the subject collection of information.

SUPPLEMENTARY INFORMATION:

Title: 30 CFR part 250, Subpart A, General.

Forms: MMS-132, MMS-1123, MMS-1832.

OMB Control Number: 1010-0114.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations to administer leasing of the OCS. Such rules and regulations will apply to all operations conducted under a lease. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition. Section 1332(6) states that "operations in the [O]uter Continental Shelf should be conducted in a safe manner by well trained personnel using technology, precautions, and other techniques sufficient to prevent or minimize the likelihood of blowouts, loss of well control, fires, spillages, physical obstructions to other users of the waters or subsoil and seabed, or other occurrences which may cause damage to the environment or to property or endanger life or health."

The Independent Offices Appropriations Act (31 U.S.C. 9701), the Omnibus Appropriations Bill (Pub. L. 104-133, 110 Stat. 1321, April 26, 1996), and Office of Management and Budget (OMB) Circular A-25, authorize Federal agencies to recover the full cost of services that confer special benefits. Under the Department of the Interior's (DOI) implementing policy, the Minerals Management Service (MMS) is required to charge fees for services that provide special benefits or privileges to an identifiable non-Federal recipient above and beyond those which accrue to the public at large.

Regulations implementing these responsibilities are under 30 CFR part 250, subpart A, General. This request also covers the related Notices to Lessees and Operators (NLTs) that MMS issues to clarify and provide additional guidance on some aspects of our regulations. Responses are mandatory. No questions of a "sensitive" nature are asked. We protect proprietary information according to the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2), and 30 CFR 250.197, "Data and

information to be made available to the public or for limited inspection.”

The MMS uses the information collected under the Subpart A regulations to ensure that operations on the OCS are carried out in a safe and pollution-free manner, do not interfere with the rights of other users on the OCS, and balance the protection and development of OCS resources. Specifically, we use the information collected to:

- Review records of formal crane operator training, rigger training, crane operator qualifications, crane inspections, testing, and maintenance to ensure that lessees perform operations in a safe and workmanlike manner and that equipment is maintained in a safe condition. The MMS also uses the information to make certain that all new and existing cranes installed on OCS fixed platforms must be equipped with anti-two block safety devices, and to assure that uniform methods are employed by lessees for load testing of cranes.

- Review welding, burning, and hot tapping plans, procedures, and records to ensure that these activities are conducted in a safe and workmanlike manner by trained and experienced personnel.

- Provide lessees greater flexibility to comply with regulatory requirements through approval of alternative equipment or procedures and departures to regulations if they demonstrate equal or better compliance with the appropriate performance standards.

- Determine the capability of a well to produce oil or gas in paying quantities or to determine the possible need for additional wells resulting in minimum royalty status on a lease. If a well does not yield hydrocarbons in sufficient quantity to warrant continued operation and production, MMS uses the information to verify the claim and to release the lessee from lease obligations. Conversely, the information is used to extend the term of the lease if additional wells will warrant continued operation and production.

- Ensure that injection of gas promotes conservation of natural resources, prevents waste, and that subsurface storage of natural gas does not unduly interfere with development and production operations under existing leases.

- Ensure the appropriateness of reimbursing lessees for costs incurred in reproducing geological and geophysical (G&G) data and information for submission to MMS and processing or reprocessing G&G information in a form and manner other than that normally

used in the conduct of a lessee's business, or to determine the proper reimbursement of costs incurred during inspections.

- Record the designation of an operator authorized to act on behalf of the lessee and to fulfill the lessee's obligations under the OCS Lands Act and implementing regulations, or to record the local agent empowered to receive notices and comply with regulatory orders issued (Form MMS-1123).

- Determine if an application for right-of-use and easement serves the purpose specified in the grant when conducting exploration, development, and production activities or other operations on or off the lease; is maintained for such purposes; and does not unreasonably interfere with the operations of any other lessee.

- Provide for orderly development of leases through the use of information to determine the appropriateness of lessee requests for suspension of operations, including production. For example, MMS needs the information to determine that a suspension is necessary to: (1) Ensure proper lease development, (2) allow time to construct or negotiate use of transportation facilities, (3) allow reasonable time to enter into a sales contract, (4) allow for unavoidable situations, (5) avoid continued operations resulting in premature abandonment of a producing well(s) that would be uneconomic, (6) comply with the National Environmental Policy Act or to conduct an environmental analysis, (7) install equipment for safety and environmental protection, (8) allow time for inordinate delays encountered in obtaining required permits or consents, (9) comply with judicial decrees, or (10) avoid activities that pose a threat of serious, irreparable, or immediate harm.

- Improve safety and environmental protection on the OCS, through collection and analysis of accident reports to ascertain the cause of the accidents and, to determine ways to prevent recurrences.

- Ascertain when the lease ceases production or when the last well ceases production in order to determine the 180th day after the date of completion of the last production. This requirement is expanded in the final rule to include reporting when lease production is initiated, resumes before the end of the 180-day period after production ceased, and when leaseholding operations occur during the referenced 180-day interval. The MMS will use this information to efficiently maintain the lessee/operator lease status.

- Approve requests to cancel leases.

- Be informed when there could be a major disruption in the availability and supply of natural gas and oil due to natural occurrences/hurricanes, to advise the U.S. Coast Guard in case of the need to rescue offshore workers in distress, to monitor damage to offshore platforms and drilling rigs, and to advise the news media and interested public entities when production is shut in and when resumed. The OCS operations produce more than one-quarter of the Nation's natural gas and more than one-sixth of its oil, and it is essential to know when production is interrupted. The Gulf of Mexico Region (GOMR) uses a reporting form for respondents to report evacuation statistics when necessary (Form MMS-132, Evacuation Statistics). It is sent to respondents at the onset of each "hurricane season" in the GOMR.

- Allow operators who exhibit unacceptable performance an incremental approach to improving their overall performance prior to a final decision to disqualify an operator or to pursue debarment proceedings through the execution of a performance improvement plan (PIP). The Subpart A regulations do not address the actual process that we will follow in pursuing the disqualification of operators under §§ 250.135 and 250.136. However, our internal enforcement procedures include allowing such operators to demonstrate a commitment to acceptable performance by the submission of a PIP.

- Determine that respondents have corrected all Incidents of Non-Compliance (INC)(s) identified during inspections (Form MMS-1832). The MMS issues this form to the operator. The operator then corrects the INC(s) and returns the form to the MMS Regional Supervisor no later than 14 days.

- Review records of crane inspection, testing, maintenance, and crane operator qualifications to ensure that lessees perform operations in a safe and workmanlike manner and maintain equipment in a safe condition.

Frequency: The frequency is "on occasion" for most of the requirements in Subpart A. The Form MMS-132 is submitted daily during the period of emergency.

Estimated Number and Description of Respondents: Approximately 1 State and 130 Federal OCS oil and gas or sulphur lessees.

Estimated Hour and Fee Burden: The estimated annual "hour" burden for this information collection is a total of 36,239 hours. The following chart details the individual components and estimated hour burdens and fees. In

calculating the burdens, we assumed that respondents perform certain

requirements in the normal course of their activities. We consider these to be

usual and customary and took that into account in estimating the burden.

Citation 30 CFR 250 subpart A and related forms/NTLs	Reporting or recordkeeping requirement	Fee		
		Hour burden	Average No. of annual responses	Annual burden hours

			\$810,200 Fees	

*Due to the *Amber Resources Company v U.S.* litigation involving 36 suspended leases, operators in the Pacific Region did not respond to our inquiry because of the sensitivity of the matter.

Estimated Reporting and Recordkeeping "Non-Hour Cost"

Burden: There are three non-hour costs associated with this information collection. The estimated non-hour cost burden is \$810,200. Sections 250.143, 250.165, and 250.171 require respondents to pay filing fees when submitting a change in designation of operator, a State lessee applies for a right-of-use and easement, and for either a suspension of operations or production request (SOO/SOP). The application filing fees are required to recover the Federal Government's processing costs. We have not identified any other "non-hour cost" burdens associated with this collection of information.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, *et seq.*) requires each agency " * * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * * ". Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

To comply with the public consultation process, on December 13, 2006, we published a **Federal Register** notice (71 FR 74937) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. In addition, § 250.199 provides the OMB

control number for the information collection requirements imposed by the 30 CFR part 250 regulations and forms. The regulation also informs the public that they may comment at any time on the collections of information and provides the address to which they should send comments. We received one comment in response to the **Federal Register** notice and it was not germane to the IC.

If you wish to comment in response to this notice, you may send your comments to the offices listed under the **ADDRESSES** section of this notice. OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments by October 1, 2007.

Public Availability of Comments: Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

MMS Information Collection Clearance Officer: Arlene Bajusz (202) 208-7744.

Dated: April 13, 2007.

E.P. Danenberger,
Chief, Office of Offshore Regulatory Programs.

Editorial Note: This document was received at the Office of the Federal Register on August 28, 2007.

BILLING CODE 4310-MR-P

DEPARTMENT OF THE INTERIOR

Minerals Management Service

Outer Continental Shelf (OCS) Central Gulf of Mexico (GOM) Oil and Gas Lease Sale 205

AGENCY: Minerals Management Service, Interior.

ACTION: Final Notice of Sale (FNOS) 205.

SUMMARY: On October 3, 2007, the MMS will open and publicly announce bids received for blocks offered in Central GOM Oil and Gas Lease Sale 205, pursuant to the OCS Lands Act (43 U.S.C. 1331-1356, as amended) and the regulations issued thereunder (30 CFR part 256). The Final Notice of Sale 205 Package (FNOS 205 Package) contains information essential to bidders, and bidders are charged with the knowledge of the documents contained in the Package.

DATES: Public bid reading will begin at 9 a.m., Wednesday, October 3, 2007, in the Grand Ballroom C of the Sheraton New Orleans Hotel, 500 Canal Street, New Orleans, Louisiana. All times referred to in this document are local New Orleans times, unless otherwise specified.

ADDRESSES: Bidders can obtain a FNOS 205 Package containing this Notice of Sale and several supporting and essential documents referenced herein from the MMS Gulf of Mexico Region Public Information Unit, 1201 Elmwood Park Boulevard, New Orleans, Louisiana 70123-2394, (504) 736-2519 or (800) 200-GULF, or via the MMS Internet Web site at <http://www.gomr.mms.gov>.

Filing of Bids: Bidders must submit sealed bids to the Regional Director (RD), MMS Gulf of Mexico Region, 1201 Elmwood Park Boulevard, New Orleans, Louisiana 70123-2394, between 8 a.m. and 4 p.m. on normal working days, and from 8 a.m. to the Bid Submission Deadline of 10 a.m. on Tuesday, October 2, 2007. If bids are mailed, please address the envelope containing all of the sealed bids as follows:

Attention: Supervisor, Sales and Support Unit (MS 5422), Leasing Activities Section, MMS Gulf of Mexico Region, 1201 Elmwood Park Boulevard, New Orleans, Louisiana 70123-2394. Contains Sealed Bids for Oil and Gas Lease Sale 205. Please Deliver to Ms. Nancy Kornrumpf, 6th Floor, Immediately.

Please note: Bidders mailing their bid(s) are advised to call Ms. Nancy Kornrumpf (504) 736-2726, immediately after putting their bid(s) in the mail.
