1. The Exchange has appropriate rules to facilitate transactions in shares of the above ETFs during all trading sessions. The Exchange deems such shares to be equity securities, thus rendering trading in such shares subject to the Exchange's existing rules governing the trading of equity securities.

2. The Exchange's surveillance procedures are adequate to properly monitor trading of shares of the above ETFs in all trading sessions.³⁰

3. The Exchange has distributed an Information Bulletin to Equity Trading Permit ("ETP") Holders prior to the commencement of trading of the shares of the above ETFs on the Exchange that explains the terms, characteristics, and risks of trading such shares. In addition, the Exchange states that it will distribute an Information Bulletin that explains the terms, characteristics, and risks of trading the shares of the above ETFs that have not yet been launched to ETP Holders prior to the commencement of trading of such shares.

4. The Exchange will require ETP Holders with a customer who purchases newly issued shares of the above ETFs in any trading session on the NYSE Arca Marketplace to provide that customer with a product description, if available, or a prospectus, and has noted this delivery requirement in the Information Bulletin.

5. Trading may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the shares inadvisable. Factors for consideration may include (a) the extent to which trading is not occurring in the securities or other instruments underlying an ETF, or (b) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present. In addition, trading in the shares of listed ETFs are subject to trading halts caused by extraordinary market volatility pursuant to the Exchange's "circuit breaker" rule (NYSE Arca Equities Rule 7.12) or by the halt or suspension of trading of the underlying securities or other instruments underlying an ETF. If the IIV or the index value applicable to a series of shares is not being disseminated as required, the Exchange may halt trading during the day in which the interruption to the dissemination of the IIV or the index value occurs. If the interruption to the dissemination of the IIV or the index value persists past the trading day in which it occurred, the Exchange will halt trading no later than the beginning of the trading day following the interruption.

7. The IIV and/or index value (or value of the underlying asset or instrument, if not an index) will continue to be disseminated during all three trading sessions, to the extent the relevant approval order provides for this dissemination requirement.

The Exchange intends to distribute to its ETP Holders and make available on its Web site a Regulatory Information Bulletin titled "*Exchange-Traded Funds—Extended Trading Hours*" that discloses and discusses, among other things, the following: (1) The underlying index value may not be updated during the Core and Late Trading Sessions; (2) the IIV may not be updated during the Core and Late Trading Sessions; (3) commodity and currency spot prices are available in the Core and Late Trading Sessions, but commodity and currency futures prices generally will not be available in the Core and Late Trading

traded and the terminology used in the Commission approval orders.

Sessions;³² (4) lower liquidity in the Core and Late Trading Sessions may impact pricing; (5) higher volatility in the Core and Late Trading Sessions may impact pricing; (6) wider spreads may occur in the Core and Late Trading Sessions; (7) required customer disclosures;³³ (8) the circumstances that trigger trading halts; and (9) suitability requirements. The Exchange recently amended NYSE Arca Equities Rule 7.34(e) to require ETP Holders to disclose additional risks associated with extended hours trading in new derivative securities products to customers.³⁴

The Exchange notes that if the official index value does not change during some or all of the period when trading is occurring on the Exchange (for example, because of time zone differences or holidays in countries where the index component stocks trade), then the last calculated official index value must remain available throughout Exchange trading hours. Similarly, if the IIV does not change during any portion of Exchange trading hours, then the last official calculated IIV must remain available throughout Exchange trading hours.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b) of the Act,³⁵ in general, and furthers the objectives of Section 6(b)(5),³⁶ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the

³² The Exchange states that, in certain cases, the futures or options markets for a particular commodity may be closed during part of the Core Trading Session, and the IIV would be static for that particular future or options price, but widely disseminated. In addition, the prices of certain futures contracts in commodities (e.g., gold) and currencies are available on a 24-hour basis.

³³ See *infra* note 34.

³⁴ See Securities Exchange Act Release No. 56270 (August 15, 2007), 72 FR 47109 (August 22, 2007) (SR-NYSEArca-2007-74). Specifically, the Exchange requires ETP Holders to disclose to their non-ETP Holder customers that an updated underlying index value or IIV may not be calculated or publicly disseminated during extended trading hours. Since the IIV is not calculated or widely disseminated during the Opening and Late Trading Sessions, an investor who is unable to calculate an implied value for a derivative securities product in those sessions may be at a disadvantage to market professionals. The Exchange believes that requiring ETP Holders to disclose this risk to non-ETP Holders will facilitate informed participation in extended hours trading.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on August 10, 2007, NYSE Arca, Inc. ("NYSE Arca" or "Exchange"), through its wholly owned subsidiary, NYSE Arca Equities, Inc. The Exchange filed the proposed rule change pursuant to section 19(b)(3)(A) of the Act³ and Rule 19b-4(f)(6) thereunder, which renders it effective upon filing with the Commission.⁴ The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange, through NYSE Arca Equities, is proposing to amend its rules in order to add a new order type known as the Fill-or-Kill Order. The changes described in this rule proposal would add new NYSE Arca Equities Rule 7.31(l). The text of the proposed rule change is available at the Exchange, the Commission's Public Reference Room, and <http://www.nyse.com>.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The Exchange has prepared summaries set forth in sections A, B, and C below of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

In order to provide additional flexibility and increased functionality to its system and its Users,⁵ the Exchange proposes to add a new order type known as the Fill-or-Kill order.

Fill-or-Kill orders are limit orders that will be executed in full as soon as such order is received. However, if execution is not possible, the entire order will be immediately cancelled. Of course, Fill-or-Kill orders will not route out of NYSE Arca to other market centers; they will either be immediately executed, or cancelled, in their entirety.

The Exchange believes that the addition of the proposed order type will
