*The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. HHS, with the HHS' NLCP contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, HHS will recommend that DOT certify the laboratory (**Federal Register**, July 16, 1996) as meeting the minimum standards of the Mandatory Guidelines published in the **Federal Register** on April 13, 2004 (69 FR 19644). After receiving DOT certification, the laboratory will be included in the monthly list of HHS-certified laboratories and participate in the NLCP certification maintenance program.

Acting Director, Office of Program Services, SAMHSA.

Title of Proposal: Housing Counseling Program—Biennial Agency Performance Review.

OMB Control Number, if applicable: 2502-NEW.

The information collection is essential to the Department's mission to expand homeownership opportunities and improve access to affordable housing. The Housing Counseling Program supports the delivery of a wide variety of housing counseling services to homebuyers, homeowners, low- to moderate-income renters, and the homeless. Counselors provide guidance and advice to help families and individuals improve their housing conditions and meet the responsibilities of tenancy and homeownership. Counselors also help borrowers avoid predatory lending practices, such as inflated appraisals, unreasonably high interest rates, unaffordable repayment terms, and other conditions that can result in a loss of equity, increased debt, default, and foreclosure. Housing Counseling Agencies are viewed as significant partners in helping HUD expand opportunities for individuals to receive adequate, professional housing counseling services.

In order to maintain their status as a HUD-approved agency, housing counseling agencies must remain in compliance with program policies and regulations. HUD determines during the course of perform reviews if an agency has remained in compliance with the program regulations. Findings from performance reviews are used to approve or disapprove the status of housing counseling agencies to participate in the program. The form

HUD-9910, is the performance review checklist used by HUD employees to the biennial reviews. The information collected during the review is used to assist HUD in evaluating the managerial and financial capacity of organizations to sustain operations sufficient to implement HUD approved housing counseling programs. If agencies are found to be non-compliant HUD may revoke an agency's approval status and prohibit their participation in the Housing Counseling Program.

Agency form numbers, if applicable: HUD-9910.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: The number of respondents are estimated to be 583 generating approximately 583 annual responses; the frequency of response is biennially, the estimated time needed to respond is 2.5 hours; and the total estimated annual burden hours are 1,457.

Status of the proposed information collection: This is a new information collection request. Portions of this request were formerly approved under OMB Control Number 2502-0261.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C., Chapter 35, as amended.

Dated: August 24, 2007.
