

With respect to KAMS, the Board proposed that fire protection systems be installed and that unnecessary combustibles be eliminated. In response to this proposal, the Department determined that fire suppression equipment would be installed in the Neutron Multiplicity Counting Room of KAMS, fire detection equipment would be installed throughout KAMS, and the cable combustible load in the actuator tower above KAMS would be removed. DOE completed removal of the actuator tower cables in August 2006. DOE plans to begin installation of a fire detection system in KAMS in 2007 and complete it in 2008. DOE also plans to begin installation of a fire suppression system in the Neutron Multiplicity Counting Room in 2008 and complete the installation in 2009.

In addition, the fire protection posture designed into KAMS was to minimize both transient and fixed combustibles within the facility such that the remaining worst possible fire could not cause a release of plutonium. The walls separating the KAMS facility from the remainder of the K-Reactor building were fabricated into a two-hour fire boundary. Combustibles outside the facility fire boundaries were minimized, contained, or mitigated to ensure the KAMS facility fire boundaries were rated longer than any credible fire would burn.

Supplement Analysis Conclusion And Determination: DOE has fully evaluated transportation of surplus, non-pit plutonium materials for SRS and storage at SRS of such materials from Hanford and LANL in the Storage and Disposition PEIS and SPD EIS. The action announced today, consolidated storage of surplus, non-pit plutonium materials at SRS, including transportation of the materials to SRS, is addressed in the Storage and Disposition PEIS, the SPD EIS, and other NEPA reviews addressed above. DOE evaluated the potential impacts of conducting plutonium surveillance and stabilization activities required by DOE-STD-3013 in the *Environmental Assessment for the Safeguards and Security Upgrades for Storage of Plutonium Materials at the Savannah River Site*, and found the impacts to be insignificant. Some of these documents are now 10 or more years old. However, DOE has reviewed the analyses and assumptions relevant to the potential environmental impacts of the actions described herein and found any changes to be insignificant.

DOE's 2007 SA shows that the potential environmental impacts associated with the further consolidation of surplus non-pit,

weapons-usable plutonium from Hanford, LLNL and LANL would not be a significant change from the potential environmental impacts associated with the alternatives analyzed in previous NEPA reviews. DOE is not proposing a substantial change that is relevant to environmental concerns. No significant new circumstances or information bearing on the proposed action and relevant to environmental concerns are presented by the proposed consolidation of plutonium storage. Therefore, DOE does not need to conduct additional NEPA review prior to transferring surplus non-pit plutonium materials from Hanford, LLNL, and LANL to SRS for consolidated storage pending disposition, as described above.

Issued in Washington, DC, this 5th day of September, 2007.

James A. Rispoli,

Assistant Secretary for Environmental Management.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER07-1222-000; Docket No. ER07-1223-000]

CR Clearing, LLC; Cow Branch Wind Power, LLC; Notice of Issuance of Order

September 4, 2007.

CR Clearing, LLC and Cow Branch Wind Power, LLC (collectively, "the Applicants") filed applications for market-based rate authority, with accompanying market-based rate tariffs. The proposed market-based rate tariffs provide for the sale of energy and capacity at market-based rates. The Applicants also requested waivers of various Commission regulations. In particular, the Applicants requested that the Commission grant blanket approvals under 18 CFR part 34 of all future issuances of securities and assumptions of liability by the Applicants.

On August 31, 2007, pursuant to delegated authority, the Director, Division of Tariffs and Market Development-West, granted the requests for blanket approval under part 34 (Director's Order). The Director's Order also stated that the Commission would publish a separate notice in the **Federal Register** establishing a period of time for the filing of protests. Accordingly, any person desiring to be heard concerning the blanket approvals of issuances of securities or assumptions of liability by

the Applicants, should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. 18 CFR 385.211, 385.214 (2004).

Notice is hereby given that the deadline for filing protests is October 1, 2007.

Absent a request to be heard in opposition to such blanket approvals by the deadline above, the Applicants are authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of the Applicants, compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approvals of the Applicants' issuance of securities or assumptions of liability.

Copies of the full text of the Director's Order are available from the Commission's Public Reference Room, 888 First Street, NE., Washington, DC 20426. The Order may also be viewed on the Commission's Web site at <http://www.ferc.gov>, using the eLibrary link. Enter the docket number excluding the last three digits in the docket number filed to access the document. Comments, protests, and interventions may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

Kimberly D. Bose,
Secretary.
