September 7, 2007.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before October 15, 2007. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts listed below as soon as possible.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–1089.

Title: Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities; Emergency Access Notice of Proposed Rulemaking (NPRM) and Internet-Protocol (IP) Relay/Video Relay Service (VRS) Fraud Further Notice of Proposed Rulemaking (FNPRM); and Interoperability Declaratory and FNPRM, CG Docket No. 03–123.

Form No.: Not applicable.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities; State, Local or Tribal Government.

Number of Respondents: 8—(6 of which provides VRS and IP Relay service; 2 of which provides VRS).

Estimated Time per Response: 4 to 1,000 hours.

Frequency of Response: Annual reporting requirement; One-time reporting requirement; On occasion reporting requirement; Recordkeeping requirement; Monthly reporting requirement; Third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits.

Total Annual Burden: 34,688 hours.

Total Annual Costs: None.

Nature and Extent of Confidentiality: An assurance of confidentiality is not offered because this information collection does not require the collection of personally identifiable information (PII) from individuals.

Privacy Act Impact Assessment: No impact(s).

Needs and Uses: Note: The Commission is revising information collection 3060–1089 to consolidate/merge the information collection requirements of 3060–1091 into this collection per the Office of Management and Budget's (OMB) request. Presently, the Commission concludes that these two proposed information collections are similar because these collections involve same respondents and contain similar data of identifiable information

in order: (1) To facilitate 911 emergency calls; (2) to improve interoperability for VRS and IP Relay services; and (3) to curtail misuse of VRS and IP Relay services. The Commission does not collect this information. The Commission requires respondents to collect this information. Once OMB approval is received for the consolidated/merged information collection requirements, the Commission will eliminate OMB information collection No. 3060–1091.

On November 30 2005, the Commission released a Notice of Proposed Rulemaking (NPRM), CG Docket No. 03–123, which addressed the issue of access to emergency services for Internet-based forms of Telecommunications Relay Services (TRS), namely VRS and IP Relay Service. The Commission sought to adopt means to ensure that such calls promptly reach the appropriate emergency service provider. By doing so, the NPRM sought comment on various issues: (1) Whether the Commission should require VRS and IP Relay service providers to establish a registration process in which VRS and IP Relay service users provide, in advance, the primary location from which they will be making VRS or IP Relay service calls (the Registered Location), so that a communication assistant (CA) can identify the appropriate Public Safety Answering Point (PSAP) to contact; (2) should VRS and IP Relay providers be required to register their customers and obtain a Registered Location from their customers so that they will be able to make the outbound call to the appropriate PSAP; (3) whether there are other means by which VRS and IP Relay service providers may obtain Registered Location information, for example, by linking the serial number of the customer VRS or IP Relay service terminal or equipment to their registered location; (4) any privacy considerations that might be raised by requiring VRS and IP Relay service users to provide location information as a prerequisite to using these services; (5) whether, assuming some type of location registration requirement is adopted, the Commission should require specific information or place limits on the scope of information that providers should be able to obtain; (6) whether the Commission should require VRS and IP Relay providers to provide appropriate warning labels for installation on customer premises equipment (CPE) used in connection with VRS and IP Relay services; (7) whether the Commission should require
