

levels of public use and visitor facility development would remain at each Refuge. Washita Refuge would continue to offer waterfowl and deer hunts and would maintain the Centennial Trail, and several other interpretive signs and visitor access parking areas. Optima Refuge would continue to offer upland game and deer archery hunts and passive recreation with extremely limited developed facilities. Under Alternative 2, both Refuges would be closed to the public. Under Alternative 3, the proposed action, Washita Refuge would evaluate additional hunt opportunities, develop a primitive hiking trail with interpretive signs, develop additional interpretive signage, and develop a visitor center on the Refuge administrative site. Optima Refuge would develop additional interpretive signage at existing parking areas. Curriculum materials and other educational and interpretive outreach resources would be developed and distributed to schools and other institutions in the towns surrounding each Refuge. Under Alternative 4, public use opportunities at both Refuges would be maximized. In addition to the programs and features proposed under Alternative 3, Washita NWR would develop additional vehicular access and parking areas, a canoe trail along the Washita River with parking at put-in and take-out points, and 5 miles of interpreted hiking trails. Optima NWR would develop two wildlife viewing platforms overlooking the Refuge and a marked hiking trail with interpretive signage.
