SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general. This action may, however, be of interest to those persons who are or may be required to conduct testing of chemical substances under the Federal Food, Drug, and Cosmetic Act (FFDCA) or the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.

v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. Background

USDA APHIS is applying for an EUP for the use of GonaCon™ Immunocontraceptive Vaccine, containing the active ingredient GnRH, to investigate the efficacy of reproductive control in female elk (*Cervus elaphus*) at the Rocky Mountain National Park, Colorado. There are approximately 265,000 acres in the park, although the treated area will be much less than this. Maximum quantity of active ingredient to be used is 36 milligrams (120 milliliters of formulated product).

III. What Action is the Agency Taking?

Following the review of the USDA APHIS application and any comments and data received in response to this notice, EPA will decide whether to issue or deny the EUP request for this EUP program, and if issued, the conditions under which it is to be conducted. Any issuance of an EUP will be announced in the **Federal Register**.

IV. What is the Agency's Authority for Taking this Action?

The Agency's authority for taking this action is under FIFRA section 5.

Agency Information Collection Activities; Proposed Collection; Comment Request; Requirements and Exemptions for Specific RCRA Wastes; EPA ICR No. 1597.08, OMB Control No. 2050-0145

AGENCY: Environmental Protection Agency, (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit a request to renew an existing approved Information Collection Request (ICR) to the Office of Management and Budget (OMB). This ICR is scheduled to expire on February 29, 2008. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below. The Agency is considering combining the Used Oil Management Standards Recordkeeping and Reporting Requirements ICR (EPA ICR No. 1286.07, OMB Control No. 2050-0124) into this ICR. That ICR is not scheduled to expire until March 31, 2009.

DATES: Comments must be submitted on or before November 19, 2007.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-RCRA-2007-0903, by one of the following methods:

- <http://www.regulations.gov>: Follow the on-line instructions for submitting comments.

- *E-mail:* rcra-docket@epa.gov.

- *Fax:* 202-566-9744.

- *Mail:* RCRA Docket (5305T), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460.

- *Hand Delivery:* 1301 Constitution Ave., NW., Room 3334, Washington, DC 20460. Such deliveries are only accepted during the Docket's normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. EPA-HQ-RCRA-2007-0903. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through <http://www.regulations.gov> or e-mail. The <http://www.regulations.gov> Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through <http://www.regulations.gov> your e-mail address will be automatically captured

and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about EPA's public docket visit the EPA Docket Center homepage at <http://www.epa.gov/epahome/dockets.htm>.

FOR FURTHER INFORMATION CONTACT: Tab Tesnau, Office of Solid Waste (mail code 5303P), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: 703-605-0636; fax number: 703-308-8617; E-mail address: tesnau.tab@epa.gov.

SUPPLEMENTARY INFORMATION:

How Can I Access the Docket and/or Submit Comments?

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-RCRA-2007-0903, which is available for online viewing at <http://www.regulations.gov>, or in person viewing at the RCRA Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA/DC Public Reading Room is open from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744, and the telephone number for RCRA Docket is (202) 566-0270.

Use <http://www.regulations.gov> to obtain a copy of the draft collection of information, submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified in this document.

What Information Is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including

whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What Should I Consider When I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under **DATES**.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What Information Collection Activity or ICR Does This Apply To?

Affected entities: Entities potentially affected by this action are Business, Farms, State, Local, or Tribal Governments.

Title: Requirements and Exemptions for Specific RCRA Wastes.

ICR numbers: EPA ICR No. 1597.08, OMB Control No. 2050-0145.

ICR status: This ICR is currently scheduled to expire on February 29, 2008. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB

control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: In the 1976 Resource Conservation and Recovery Act (RCRA), as amended, Congress directs the U.S. Environmental Protection Agency (EPA) to develop and administer a comprehensive program for the safe management and disposal of hazardous waste. In 1980, EPA promulgated regulations in 40 CFR parts 261-265 to comply with RCRA. EPA has since added to these regulations on many occasions. This ICR concerns two such additions.

In 1995, EPA promulgated regulations in 40 CFR part 273 that govern the collection and management of widely-generated hazardous wastes known as "Universal Wastes". Universal Wastes are wastes that are generated in non-industrial settings by a vast community, and are present in non-hazardous waste management systems. Examples of Universal Wastes include certain batteries, pesticides, mercury-containing lamps and thermostats. The part 273 regulations are designed to separate Universal Waste from the municipal wastestream by encouraging individuals and organizations to collect these wastes and to manage them in an appropriate hazardous waste management system. EPA distinguishes two types of handlers of Universal Wastes: Small quantity handlers of Universal Waste (SQHUW) and large quantity handlers of Universal Waste (LQHUW). SQHUWs do not accumulate more than 5,000 kg of any one category of Universal Waste at one time, while LQHUWs may accumulate quantities at or above this threshold. More stringent requirements are imposed on LQHUWs because of greater potential environmental risks.

In 2001, EPA promulgated regulations in 40 CFR part 266 that provide increased flexibility to facilities managing wastes commonly known as "Mixed Waste". Mixed Waste are low-level mixed waste (LLMW), and naturally occurring and/or accelerator-produced radioactive material (NARM) containing hazardous waste. These wastes are also regulated by the Atomic Energy Act. As long as specified eligibility criteria and conditions are met, LLMW and NARM are exempt from the definition of hazardous waste as

defined in part 261. Although these eligible wastes are exempted from RCRA manifest, transportation, and disposal requirements, they must still comply with the manifest, transportation, and disposal requirements under the NRC (or NRC-Agreement State) regulations. There are two conditional exemptions. The Storage and Treatment Conditional Exemption applies to any generator of LLMW who is licensed by NRC or an NRC Agreement State to manage radioactive materials. This exemption is available only to LLMW generated under a single NRC or NRC Agreement State license. LLMW generators must notify EPA of the LLMW storage units for which they are claiming an exemption, and must meet the conditions listed in § 266.230. This exemption is valid as long as the Mixed Waste meets the conditions, remains in a conditionally exempt storage unit, and is subject to NRC regulation.

The Transportation and Disposal Conditional Exemption from the definition of hazardous waste applies to generators and treaters who send their treated waste to a commercial low-level radioactive waste disposal facility (LLRWDF) licensed by NRC or NRC Agreement State. The eligible LLMW or NARM waste would be exempted from RCRA Subtitle C once it is placed on the transportation vehicle bound for disposal at the LLRWDF. The waste could then be transported to the LLRWDF as strictly radioactive waste using an NRC Uniform LLW Manifest. Generators and treaters under the exemption must undertake the information collection requirements listed in § 266.345.

In 1992, EPA finalized management standards for used oils destined for recycling (see 40 CFR part 279). To document and ensure proper handling of used oil, these regulations establish notification, testing, tracking and recordkeeping requirements for used oil transporters, processors, re-refiners, marketers, and burners. They also set standards for the prevention and cleanup of releases to the environment during storage and transit, and for the safe closure of storage units and processing and re-refining facilities to mitigate future releases and damages. EPA believes these requirements minimize potential hazards to human health and the environment from the potential mismanagement of used oil by used oil handlers, while providing for the safe recycling of used oil. Information from these information collection requirements is used to ensure compliance with the Used Oil Management Standards in 40 CFR part 279.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 121,422.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.02.

Estimated total annual burden hours: 653,520.

Estimated total annual costs: \$34,208,000. This includes an estimated labor burden cost of \$24,193,000 and an estimated cost of \$10,015,000 for capital investment or maintenance and operational costs.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.
