

regarding the individual's medical suitability for Antarctic deployment.

6. *Other information requested:* In addition to the numbered forms and other information mentioned above, the USAP medical screening package includes the following:

- the Medical Risks for NSF-Sponsored Personnel Traveling to Antarctica.
- the NSF Privacy Notice.
- the Medical Screening for Blood-borne Pathogens/Consent for HIV Testing.
- the NSF Authorization for Treatment of Field-Team Member/Participant Under the Age of 18 Years. This should only be sent to the individuals who are under 18 years of age.
- the Dear Doctor and Dear Dentist letters, which provide specific laboratory and x-ray requirements, as well as other instructions.

7. *There are two other, non-medical forms included in the mailing:*

- the Personal Information Form—NSF Form Number 1458 includes a Privacy Act Notice. This form is used to collect information on current address and contact numbers, date and place of birth, nationality, citizenship, emergency point of contact information, travel dates, clothing sizes so that we may properly outfit those individuals who deploy, work-site information and prior deployment history.
- the Participant Notification—Important Notice for Participants—NSF Form 1457 in the United States Antarctic Program. This form provides information on the laws of the nations through which program participants must transit in route to Antarctica, regarding the transport, possession and use of illegal substances and the possibility of criminal prosecution if caught, tried and convicted.

Estimate of Burden: Public reporting burden for this collection of information varies according to the overall health of the individual, the amount of time it takes to access the forms online and print them, the amount of research required to complete the forms, the time it takes to make an appointment, take the examination and schedule and complete any follow-up medical, dental or psychological requirements and the completeness of the forms submitted. The estimated time is up to six weeks from the time the individual receives the forms until he or she is notified by the contractor of their final clearance status. An additional period of up to eight weeks may be required for the individual who was disqualified to be notified of the disqualification, to

request and receive the waiver packet, to obtain employer support and complete the waiver request, to do any follow-up testing, to return the waiver request to the contractor plus any follow-up information, for the contractor to get the completed packet to the National Science Foundation, and for the NSF to make and promulgate a decision.

Respondents: All individuals deploying to the Antarctic under the auspices of the United States Antarctic Program and certain Arctic areas must complete these forms. There are approximately 3,600 submissions per year, with a small percentage (c.3%) under the age of 40 who provide annual submissions but with less information.

Estimated Number of Responses per Form: Responses ranges from 2 to approximately 238 responses.

Estimated Total Annual Burden on Respondents: 40,536 hours.

Frequency of Responses: Individuals must complete the forms annually to be current within 12 months of their anticipated deployment dates. Depending on individual medical status some persons may require additional laboratory results to be current within two to six-weeks of anticipated deployment.

Dated: September 19, 2007.

OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION

Privacy Act of 1974; New and Revised Systems of Records

AGENCY: Occupational Safety and Health Review Commission.

ACTION: Notice of addition and revision to Systems of Records.

SUMMARY: In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, as amended, the Occupational Safety and

Health Review Commission (OSHRC) is proposing in this notice (1) the addition of a new system of records and (2) revisions to its preexisting systems of records last published in full text on April 14, 2006 at 71 FR 19556.

DATES: Comments must be received by OSHRC on or before October 24, 2007. The new and revised systems of records will become effective on November 23, 2007 without any further notice in the **Federal Register**, unless comments or government approval procedures necessitate otherwise.

ADDRESSES: You may submit comments by any of the following methods:

- *E-mail:* regsdocket@oshrc.gov. Include "PRIVACY ACT SYSTEM OF RECORDS" in the subject line of the message.
- *Fax:* (202) 606-5417.
- *Mail:* One Lafayette Centre, 1120 20th Street, NW., Ninth Floor, Washington, DC 20036-3457.
- *Hand Delivery/Courier:* same as mailing address.

Instructions: All submissions must include your name, return address and e-mail address, if applicable. Please clearly label submissions as "PRIVACY ACT SYSTEM OF RECORDS." If you submit comments by e-mail, you will receive an automatic confirmation e-mail from the system indicating that we have received your submission. FOR FURTHER INFORMATION CONTACT: Ron Bailey, Attorney-Advisor, Office of the General Counsel, via telephone at (202) 606-5410, or via e-mail at rbailey@oshrc.gov.

SUPPLEMENTARY INFORMATION: The Privacy Act of 1974, 5 U.S.C. 552a(e)(4), requires federal agencies such as OSHRC to propose additions and revisions to its systems of records in a **Federal Register** publication. As detailed below, OSHRC is proposing the addition of one new system of records, as well as revisions to all its preexisting systems of records.

New System of Records. OSHRC conducted an annual review of the systems of records that it presently maintains. OSHRC's review uncovered one possible system-of-records—the database of Commission cases on OSHRC's Web site—that is not included in OSHRC's current system-of-records notice. 71 FR 19556, Apr. 14, 2006. The capability exists for agency employees to search for records in this database by entering names or other individual

identifiers into the search engine on the homepage of the Web site. Although OSHRC has not found that employees in fact search for decisions using individual identifiers, OSHRC prefers to exercise caution by recognizing this as a system of records for purposes of the Privacy Act. OSHRC would designate this system as OSHRC-10. Notice of OSHRC's proposed new system of records (OSHRC-10) is published below.

Revisions to Preexisting Systems of Records. OSHRC recently revised its regulations implementing the Privacy Act. 71 FR 57416, Sept. 29, 2006. One revised provision, 29 CFR 2200.3(a), states that "[t]he Chairman shall designate an OSHRC employee as the Privacy Officer, and shall delegate to the Privacy Officer the authority to ensure agency-wide compliance with" OSHRC's Privacy Act regulations. In light of this revision to OSHRC's Privacy Act regulations, individuals interested in inquiring about, gaining access to, or contesting the accuracy of their records should now notify the Privacy Officer rather than the Executive Director. Also, the provision that sets forth the procedures for requesting amendment of records, which was previously at 29 CFR 2400.7(a) and (b), is now at 29 CFR 2400.8. Finally, the procedures for appealing the denial of a request to inspect, copy, or amend a record, which was previously at 29 CFR 2400.7(c), is now at 29 CFR 2400.9.

In the notice of OSHRC's proposed new system of records (OSHRC-10) published below, the information included in the three sections pertaining to "Record Access Procedures," "Notification Procedures," and "Contesting Record Procedures," which have changed as a result of revisions made to OSHRC's Privacy Act regulations, are also applicable to OSHRC's preexisting system of records—OSHRC-1 through OSHRC-9.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-56446; File No. SR-Amex-2007-85]

**Self-Regulatory Organizations;
American Stock Exchange, LLC; Order
Approving a Proposed Rule Change To
Establish a New Class of Off-Floor
Market Makers in ETFs and Equities
Called Designated Amex Remote
Traders**

September 17, 2007.

I. Introduction

On August 8, 2007, the American Stock Exchange, LLC. ("Amex" or "Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposal to create a new class of off-floor market makers, called "Designated Amex Remote Traders" or "DARTs," in all ETF and equity-traded securities that trade on the Exchange. The proposed rule change was published for comment in the **Federal Register** on August 16, 2007.³ The Commission received no comments regarding the proposal. This order approves the proposed rule change.

II. Description

The Exchange proposes to adopt changes to its rules to create a new class of off-floor market makers in all ETF and equity-traded securities that trade on the Exchange, including the implementation of related changes to the Exchange's AEMI trading platform. These market makers, to be called "Designated Amex Remote Traders" or "DARTs," will be members or member organizations physically located off-floor that will electronically enter competitive quotations into AEMI on a regular basis in all securities to which they are assigned in the DART program. DARTs will also have to meet certain business requirements, which will include minimum performance standards. The proposed DART program is similar to the Supplemental Registered Options Traders ("SROT")

² 17 CFR 240.19b-4.

³ Securities Exchange Act Release No. 56236 (August 9, 2007), 72 FR 46113.

program implemented by the Amex for options,⁴ with its own unique caveats. Under the DART proposal, an Amex specialist firm may also be a DART, although it may not be registered as such in securities in which it is also the specialist. In ETFs, DARTs will trade in an identical way as Registered Traders in the same securities on the Exchange when auto-ex is on, with similar obligations under Exchange rules such as those relating to a course of dealings that contributes to the maintenance of a fair and orderly market. DARTs in equity-traded securities will be subject to the same obligations as DARTs in ETFs and will not be subject to the stabilization rules that are applicable to equity specialists. A DART will not participate in any post-trade allocation in connection with an auction trade; instead, a DART's participation in an auction pair-off on the Exchange will be limited to the size of its quotation on the AEMI Book at the time of the pair-off.

Amex will establish minimum requirements for a DART to remain in the program, which may be modified by the Exchange from time to time. Business requirements will include minimum performance standards, including that a DART's quotations must be on one side of the NBBO for a required percentage of the time in all assigned securities. Other performance standards will include average displayed size, average quoted spread, and the ability of the DART to transact in underlying markets in the case of a derivative security. A DART that fails to comply with one or more of the performance standards, as determined by the Chief Executive Officer of the Exchange or his/her designee, may be subject to loss of the benefits to which it would otherwise be entitled under Amex rules by virtue of its status as a DART (e.g., rebates for providing liquidity), including suspension or termination of DART status. A DART may be either a regular member of the Exchange or an associate member of the Exchange that meets the requirements for electronic access to the Exchange's automated systems.

DARTs will receive benefits for participating in and meeting the requirements of the DART program.

While the Exchange anticipates starting the program with a limited group of DARTs, no specific upper limit on the number of DARTs is anticipated. In addition to the requirements cited above, DARTs will be required to meet eligibility criteria similar to those
