Background: The Commission's notice instituting the investigation, issued on November 28, 2006, asked that parties with an interest in this matter file post-hearing briefs and statements by May 2, 2007. In view of the relatively lengthy duration of this investigation, the Commission did not at that time set a final deadline for filing written submissions, beyond that for post-hearing briefs and statements. The Commission is now setting such a deadline. The Commission will consider submissions from parties who have not filed submissions, as well as new, amended, or supplemental submissions from parties who have already filed submissions, provided they are received by the Secretary on or before the close

of business February 1, 2008. Submissions must be made in accordance with the procedures set out in the Commission's notice of November 28, 2006, including with respect to the number of copies filed, method of filing, and marking of any confidential business information. A copy of the November 28 notice can be accessed at http://www.usitc.gov/secretary/fed_reg_notices/332/332-481.1164741875.pdf.

The Commission is particularly interested in receiving written submissions from the public that provide information relating to the report that the Senate Committee on Finance has requested the Commission to prepare in this investigation. As stated in the Commission's notice published on November 28, 2006, the Committee requested that the Commission prepare a report that focuses on firms in the U.S. chemical industry that are developing bio-based products (e.g., fibers and plastics) and renewable chemical platforms, as well as U.S. producers of liquid biofuels, and specifically that the report—

1. Describe and compare government policies in the United States and key competitor countries throughout the world relating to the development of products by these industries;
2. Analyze the extent of business activity in these industries, including, but not limited to, trends in production, financial performance, investment, research and development, and impediments to development and trade;
3. Examine factors affecting the development of bio-based products, including liquid biofuels, and renewable chemical platforms being developed by the U.S. chemical industry, including, but not limited to, globalization of supply chains, capital investment sources, strategic alliances, intellectual property rights, and technology transfer mechanisms;
4. Determine, to the extent feasible, how the adoption of industrial biotechnology processing and products impacts the productivity and competitiveness of firms in these industries; and
5. Assess how existing U.S. government programs may affect the production and utilization of agricultural feedstocks for liquid biofuels as well as bio-based products and renewable chemical platforms being developed by the U.S. chemical industry.

Issued: September 21, 2007.

By order of the Commission.

Secretary to the Commission.

SUPPLEMENTARY INFORMATION: On April 5, 2007, the Commission instituted this investigation, based on a complaint filed by Lutron Electronics Co., Inc. ("Lutron") of Coopersburg, Pennsylvania. This is Lutron's second motion to amend the complaint; its first was filed prior to the Commission's determination to institute this

investigation. The Amended Complaint alleges violations of section 337 in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain lighting control devices including dimmer switches and/or switches and parts thereof by reason of infringement of claims 1, 36, 65, 83, 85, 89, 90, 94, 112, 114, 116, 118, 119, 123, 149, 178, 193, 195, 197, 199 and 200 of U.S. Patent No. 5,637,930 ("the '930 patent"); claims 44, 47, and 49 of U.S. Patent No. 5,248,919 ("the 919 patent"); claims 1–5, 8–10, 12 and 22 of U.S. Patent No. 5,982,103 ("the 103 patent"); claims 151, 152, and 155–157 of U.S. Patent No. 5,905,442 ("the 442 patent"); and claims 1, 3 and 14 of U.S. Patent No. 5,736,965 ("the 965 patent"). The complaint further alleges that an industry in the United States exists as required by subsection (a)(2) of section 337. The complainant requested that the Commission issue a limited exclusion order and a cease and desist order. The complaint named two firms as respondents: Leviton Manufacturing Company, Inc. ("Leviton") of Little Neck, New York, and Control4 Corporation ("Control4") of Salt Lake City.

On June 26, 2007, Lutron sought to amend its Amended Complaint and corresponding Notice of Investigation to add certain claims, to withdraw certain claims, and to seek a general exclusion order.

On August 21, 2007, the ALJ issued Order No. 8, an ID, denying Lutron's motion to the extent that it sought to add claims 41, 43, 54, 58, 70, 72, 99, 101, 183, 185, 215, 216, 217 and 220 of the '930 patent, but granting the motion to the extent that it sought to (1) Withdraw claims 1, 85, 114, 123, and 195 of the '930 patent; (2) substitute claim 65 for claim 1 of the '930 patent as the representative claim applied to the domestic product for the patent; (3) substitute certain exhibits; (4) withdraw claims 3 and 4 of the '103 patent; (5) add claims 23, 24, and 27 of the '103 patent; and (6) add seek a general exclusion order.
