

§ 100.908 Charlevoix Venetian Night Boat Parade; Charlevoix, MI.

(a) Regulated Area. All waters of Round Lake, Charlevoix, MI.

(b) Special Local Regulations. The regulations of § 100.901 apply. No vessel may enter, transit through, or anchor within the regulated area without the permission of the Coast Guard Patrol Commander.

(c) Effective Date. These regulations are effective annually on the fourth Saturday of July; from 9 p.m. to 11 p.m.

■ 9. Add § 100.909 to read as follows:

§ 100.909 Chinatown Chamber of Commerce Dragon Boat Race; Chicago, IL.

(a) Regulated Area. All waters of the South Branch of the Chicago River from the 18th Street Bridge at position 41°51'28" N, 087°38'06" W to the Amtrak Bridge at position 41°51'20" N, 087°38'13" W. (DATUM: NAD 83).

(b) Special Local Regulations. The regulations of § 100.901 apply. No vessel may enter, transit through, or anchor within the regulated area without the permission of the Coast Guard Patrol Commander.

(c) Effective Date. These regulations are effective annually on the third Friday of July from 11:30 a.m. to 5 p.m. and on the third Saturday of July from 9 a.m. to 5 p.m.

Dated: September 10, 2007.

John E. Crowley, Jr.,

Rear Admiral, U.S. Coast Guard, Commander, Ninth Coast Guard District.

[CGD01-07-091]

RIN 1625-AA09

Drawbridge Operation Regulations; Quinnipiac River, New Haven, CT

AGENCY: Coast Guard, DHS.

ACTION: Temporary rule.

SUMMARY: The Coast Guard has temporarily changed the drawbridge operating regulations governing the operation of the Ferry Street Bridge, across the Quinnipiac River, mile 0.7, at New Haven, Connecticut. This temporary final rule allows the bridge owner to keep one of the two moveable bascule spans in the closed position at all times from September 28, 2007 through April 30, 2008. This rule is

necessary to facilitate scheduled bridge maintenance.

DATES: This temporary rule is effective from September 28, 2007 through April 30, 2008.

ADDRESSES: Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, are part of docket (CGD01-07-091) and are available for inspection or copying at the First Coast Guard District, Bridge Branch Office, 408 Atlantic Avenue, Boston, Massachusetts 02110, between 7 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Ms. Judy Leung-Yee, Project Officer, First Coast Guard District, (212) 668-7195.

SUPPLEMENTARY INFORMATION:**Regulatory Information**

On August 21, 2007, we published a notice of proposed rulemaking (NPRM) entitled "Drawbridge Operation Regulations"; Quinnipiac River, Connecticut, in the **Federal Register** (72 FR 46586). We received no comments in response to the notice of proposed rulemaking. No public hearing was requested and none was held.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**.

The bridge repairs scheduled to begin on September 28, 2007, are necessary repairs that must be performed with all due speed to assure the continued safe and reliable operation of the bridge. Any delay in making this rule effective would not be in the best interest of public safety and the marine interests that use the Quinnipiac River.

The recreational vessels that normally use this waterway are small enough in size that they can either pass under the spans without a bridge opening or safely pass through the bridge with a single span opening.

Background and Purpose

The Street Bridge, across the Quinnipiac River, mile 0.7, at New Haven, Connecticut, has a vertical clearance in the closed position of 25 feet at mean high water and 31 feet at mean low water. The existing regulations are listed at 33 CFR 117.213.

In early 2007, the Connecticut Department of Transportation requested a temporary deviation to facilitate scheduled structural repairs and bridge painting at the Ferry Street Bridge at New Haven, Connecticut. In order to perform the structural repairs, one bascule bridge span had to remain in the

closed position while the other span could remain in the full open position at all times for the passage of vessel traffic.

As a result of the above request, the Coast Guard published a temporary deviation from the drawbridge operation regulations in the **Federal Register** (72 FR 18884), on April 16, 2007, in effect from April 16, 2007 through September 27, 2007.

On June 22, 2007, the Coast Guard was notified that the scheduled repairs authorized under the temporary deviation listed above would not be completed by the end of the effective period scheduled to end on September 27, 2007.

As a result of the above information, Connecticut Department of Transportation requested a temporary regulation to allow the repair work to continue at the bridge through April 30, 2008, in order to complete the remaining work.

Under this temporary final rule, in effect from September 28, 2007 through April 30, 2008, the Ferry Street Bridge across the Quinnipiac River, mile 0.7, at New Haven, Connecticut, will keep one of the two bascule bridge spans in the closed position at all times while keeping the second bascule span in the fully open position for the passage of vessel traffic at all times.

Discussion of Comments and Changes

The Coast Guard received no comments in response to the notice of proposed rulemaking and as a result, no changes have been made to this temporary final rule.

Regulatory Evaluation

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3), of that Order. The Office of Management and Budget has not reviewed it under that Order.

This conclusion is based on the fact that the bridge will continue to open for vessel traffic with a single moveable span which is sufficient for the present needs of navigation.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we considered whether this rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not

dominant in their fields, and governmental jurisdictions with populations less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b), that this rule will not have a significant economic impact on a substantial number of small entities.

This conclusion is based on the fact that the bridge will continue to open for vessel traffic with a single moveable span which is sufficient for the present needs of navigation.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we offered to assist small entities in understanding the rule so that they could better evaluate its effects on them and participate in the rulemaking process.

No small entities requested Coast Guard assistance and none was given.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the

aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not affect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not concern an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This final rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their

regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (*e.g.*, specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Commandant Instruction M16475.1D, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (32)(e), of the Instruction, from further environmental documentation considering that it relates to the promulgation of operating regulations or procedures for drawbridges. Under figure 2–1, paragraph (32)(e), of the instruction, an “Environmental Analysis Check List” and a “Categorical Exclusion Determination” are not required for this rule.

List of Subjects in 33 CFR Part 117

Bridges.

■ For the reasons set out in the preamble, the Coast Guard amends 33 CFR part 117 as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

■ 1. The authority citation for part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 33 CFR 1.05–1(g); Department of Homeland Security Delegation No. 0170.1.

■ 2. From September 28, 2007 through April 30, 2008, § 117.213 is amended by suspending paragraph (a) and adding a temporary paragraph (g) to read as follows:

§ 117.213 Connecticut River.

* * * * *

(g) The draws shall open on signal; except as follows:

(1) From 7:30 a.m. to 8:30 a.m., noon to 12:15 p.m., 12:45 p.m. to 1 p.m., and

4:45 p.m. to 5:45 p.m., the draws need not be opened.

(2) The draw of the Ferry Street Bridge, mile 0.7, at New Haven, shall maintain one of the two moveable bascule bridge spans in the full open position at all times for the passage of vessel traffic. The second moveable bascule bridge span may remain in the closed position at all times.

(3) From 11 p.m. to 7 a.m., the draw of the Grand Avenue Bridge, Quinipiac River, shall open on signal if at least one hour notice is given to the tender at the Ferry Street Bridge. In the event that the tender is at the Chapel Street Bridge, a delay of up to an additional hour may be expected.

(4) From 9 p.m. to 5 a.m., the draw of the Chapel Street Bridge, Mill River, shall open on signal if at least one hour notice is given to the tender at Ferry Street Bridge. In the event the tender is at the Grand Avenue Bridge, a delay of up to an additional hour may be expected.

Dated: September 21, 2007.

Timothy V. Skuby,

*Captain, U.S. Coast Guard, Acting
Commander, First Coast Guard District.*

[CGD09-07-016]

RIN 1625-AA00

Safety Zone; Marine City Maritime Festival Fireworks, St. Clair River, Marine City, MI

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone on the St. Clair River, Marine City, Michigan. This safety zone is intended to restrict vessels from portions of the St. Clair River during the Marine City Maritime Festival Fireworks Display. This temporary safety zone is necessary to protect spectators and vessels from the hazards associated with fireworks displays.

DATES: This rule is effective from 9:30 p.m. on September 22, 2007 to 11:30 p.m. on September 23, 2007.

ADDRESSES: Comments and material received from the public, as well as documents indicated in this preamble as

being available in the docket, are part of docket CGD09-07-016 and are available for inspection or copying at: U.S. Coast Guard Sector Detroit, 110 Mt. Elliot Ave., Detroit, MI 48207 between 8 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: LT Jeff Ahlgren, Waterways Management, U.S. Coast Guard Sector Detroit, 110 Mount Elliot Ave., Detroit, MI 48207; (313) 568-9580.

SUPPLEMENTARY INFORMATION:

Regulatory Information

On June 15, 2007, we published a notice of proposed rulemaking (NPRM) entitled Safety Zone; Marine City Maritime Festival Fireworks, St. Clair River, Marine City, MI, in the **Federal Register** (72 FR 33184) and received no comments on the proposed rule. No public meeting was requested, and none was held.

Under 5 U.S.C. 553(d)(3), good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Delaying this rule would be contrary to the public interest of ensuring the safety of spectators and vessels during this event and immediate action is necessary to prevent possible loss of life or property.

Background and Purpose

This temporary safety zone is necessary to ensure the safety of vessels and spectators from hazards associated with a fireworks display. Based on accidents that have occurred in other Captain of the Port zones and the explosive hazards of fireworks, the Captain of the Port Detroit has determined fireworks launches in close proximity to watercraft pose significant risk to public safety and property. The likely combination of large numbers of recreation vessels, congested waterways, darkness punctuated by bright flashes of light, alcohol use, and debris falling into the water could easily result in serious injuries or fatalities. Establishing a safety zone to control vessel movement around the location of the launch platform will help ensure the safety of persons and property at these events and help minimize the associated risks.

Discussion of Comments

There were no comments received with regards to this rule.

Discussion of Rule

A temporary safety zone is necessary to ensure the safety of spectators and vessels during the setup, loading and launching of a fireworks display in conjunction with the Marine City Maritime Festival Fireworks display.

The fireworks display will occur between 9:30 p.m. and 11:30 p.m., September 22, 2007. If this event does not take place at the scheduled time and date due to adverse weather, the fireworks display will occur between 9:30 p.m. and 11:30 p.m., September 23, 2007.

The safety zone for the fireworks will encompass all waters of the St. Clair River enclosed by a line connecting the following points: 42-42-51.5N/082-29-13.97W; 42-43-07.55N/082-29-08.12W; 42-43-04.93N/082-28-54.11W; 42-42-48.58N/082-29-00.81W. This safety zone is located in the St. Clair River, east of the lighthouse in Marine City, MI, near the center of the river. (DATUM: NAD 83).

All persons and vessels shall comply with the instructions of the Coast Guard Captain of the Port or the on-scene representative. Entry into, transiting, or anchoring within the safety zone is prohibited unless authorized by the Captain of the Port Detroit or his on-scene representative. The Captain of the Port or his on-scene representative may be contacted via VHF Channel 16.

Regulatory Evaluation

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not "significant" under the regulatory policies and procedures of the Department of Homeland Security (DHS).

This determination is based on the minimal time that vessels will be restricted from the safety zone and the safety zone is an area where the Coast Guard expects insignificant adverse impact to mariners from the safety zone's activation.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.
