Endangered and Threatened Species; Recovery Plans

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of Availability.

SUMMARY: The National Marine Fisheries Service (NMFS) announces the adoption of an Endangered Species Act (ESA) recovery plan for the Upper Columbia River Spring-Run Chinook Salmon (*Oncorhynchus tshawytscha*) evolutionarily significant unit (ESU) and the Upper Columbia River steelhead (*Oncorhynchus mykiss*) distinct population segment (DPS). The Upper Columbia Spring Chinook Salmon and Steelhead Recovery Plan (the Plan) contains 27 appendices.

ADDRESSES: Additional information about the Plan may be obtained by writing to Lynn Hatcher, National Marine Fisheries Service, 304 S. Water Street, Suite #201, Ellensburg, WA 98926, or by calling (509) 962–8911.

Electronic copies of the Plan and the summary of and response to public comments on the Proposed (Draft) Recovery Plan are available online at www.nwr.noaa.gov/Salmon-Recovery-Planning/Recovery-Domains/Interior-Columbia/Upper-Columbia/Index.cfm, or the Upper Columbia Salmon Recovery Board website, www.ucsr.com/. A CD-ROM of these documents can be obtained by calling Sharon Houghton at (503) 230–5418 or by e-mailing a request to sharon.houghton@noaa.gov, with the subject line “CD-ROM Request for Final ESA Recovery Plan for Upper Columbia Salmon and Steelhead.”

FOR FURTHER INFORMATION CONTACT: Lynn Hatcher, NMFS Upper Columbia Salmon Recovery Coordinator at (509) 962–8911, or Elizabeth Gaar, NMFS Salmon Recovery Division, at (503) 230–5434.

SUPPLEMENTARY INFORMATION:

Background

Recovery plans describe actions beneficial to the conservation and recovery of species listed under the Endangered Species Act of 1973 (ESA), as amended (16 U.S.C. 1531 *et seq.*). The ESA requires that recovery plans, to the extent practicable, incorporate: (1) objective, measurable criteria which, when met, would result in a determination that the species is no longer threatened or endangered; (2) site-specific management actions that may be necessary to achieve the plan's goals; and (3) estimates of the time required and costs to implement recovery actions. The ESA requires the development of recovery plans for listed species unless such a plan would not promote the recovery of a particular species.

NMFS' goal is to restore endangered and threatened Pacific salmon and steelhead to the point that they are again self-sustaining members of their ecosystems and no longer need the protections of the ESA. NMFS believes it is critically important to base its recovery plans on the many state, regional, tribal, local, and private conservation efforts already underway throughout the region. Therefore, the agency supports and participates in locally led collaborative efforts to develop recovery plans, involving local communities, state, tribal, and Federal entities, and other stakeholders. As the lead ESA agency for listed salmon, NMFS is responsible for reviewing these locally produced recovery plans and deciding whether they meet ESA statutory requirements and merit adoption as ESA recovery plans.

The Upper Columbia River Spring-Run Chinook Salmon (*O. tshawytscha*) ESU was listed as endangered under the ESA on March 24, 1999 (64 FR 14307). The Upper Columbia River Steelhead (*O. mykiss*) DPS was listed as endangered on August 18, 1997 (62 FR 43937), and reclassified as threatened on January 5, 2006 (71 FR 834). The 2006 reclassification of the steelhead DPS was invalidated as the result of a decision in U.S. District Court on June 13, 2007 (*Trout Unlimited, et al. v. Lohn*, No. CV–06–1493–ST). Thus, the present status of the Upper Columbia River Steelhead DPS is endangered.

On December 30, 2005, the Upper Columbia Salmon Recovery Board (UCSRB) presented its locally developed Draft Recovery Plan to NMFS. The UCSRB includes representatives from Chelan County, Douglas County, Okanogan County, Yakama Nation, and the Confederated Tribes of the Colville
