SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders, including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is

claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).

ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.

iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

iv. Describe any assumptions and provide any technical information and/or data that you used.

v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. What Action is the Agency Taking?

EPA requests public comment during the next 60 days on a petition (available in docket number EPA-HQ-OPP-2007-1005) received from the NRDC and PANNA requesting that the Agency revoke all tolerances (maximum legal residue limits) and cancel all registrations for the pesticide chlorpyrifos. The petitioners, NRDC and PANNA, claim that EPA cannot make a finding that there is a reasonable certainty of no harm from dietary residues of chlorpyrifos and, therefore, that the Agency must revoke all tolerances established under section 408 of the FFDCA, as amended by the FQPA. As a part of their petition, NRDC and PANNA claim that the Agency did not consider the full spectrum of potential health effects associated with chlorpyrifos in connection with EPA's reassessment of the existing chlorpyrifos tolerances, including:

1. Evidence showing the potential for a greater than 10-fold difference in susceptibility to chlorpyrifos across

human populations and, in particular, evidence of greater susceptibility in early life stages than EPA estimated;

2. The endocrine disrupting effects of the chemical, or

3. Evidence of cancer risk data as indicated from a National Institutes of Health study. The petition further asserts that EPA's evaluation of chlorpyrifos in the organophosphate cumulative risk assessment (CRA) misrepresented the risks of chlorpyrifos and that EPA failed to incorporate inhalation routes of exposure to chlorpyrifos in conducting its assessment. EPA's human health assessment of chlorpyrifos and findings on whether the tolerances for chlorpyrifos comply with the safety standard in FFDCA Section 408, as amended by the FQPA, are contained in the Interim Reregistration Eligibility Decision document for chlorpyrifos and the organophosphate CRA, which are available on EPA's pesticide webpage at <http://www.epa.gov/pesticides/reregistration/status.htm> and <http://www.epa.gov/pesticides/cumulative/2006-op/index.htm>. Docket materials for this pesticide are available in the electronic docket at <http://www.regulations.gov>; risk assessment and related documents for this pesticide have been removed to Special Docket EPA-HQ-OPP-2007-0151.
