The Regional Forester may make seized products available for free use to individuals, Indian Tribes with reserved treaty gathering rights, and other federally recognized tribes. However, the Forest Service shall not dispose of a seized product by sale or free use if that product is threatened, endangered, or a candidate for listing under the Endangered Species Act; identified as prohibited for sale or trade under CITES, or listed on the Regional Forester's sensitive plant list, list of species of concern, or list of species of interest.

Subpart H—Forest Botanical Products

§ 223.275 Establishment of a pilot program.

This subpart governs the Forest Service's pilot program for the disposal of forest botanical products, as authorized by the Department of the Interior and Related Agencies Appropriations Act of 2000, (Pub. Forest botanical products—naturally occurring special forest products, including bark, berries, boughs, bryophytes, bulbs, burls, cones, ferns, fungi (including mushrooms), forbs, grasses, mosses, nuts, pine straw, roots, sedges, seeds, shrubs, transplants, tree sap, and wildflowers. The term excludes animals, animal parts, Christmas trees, fence material, firewood, insects, mine props, minerals, posts and poles, rails, rocks, shingle and shake bolts, water, worms, and soil.

§ 223.278 Collection of fees.

The responsible official shall ensure that the price applicable to the harvest and sale of any forest botanical product, as determined in accordance with the procedures set forth in 36 CFR part 223 subpart G, includes at least a portion of the fair market value of the product and a portion of the costs associated with administering the pilot program.

§ 223.279 Personal use harvest levels and waiver of fees.

(a) In conjunction with determining sustainable harvest levels for special forest products, including forest botanical products, pursuant to § 223.219 of subpart G, the responsible Forest Service officer shall also determine personal use harvest levels, which shall be consistent with sustainable harvest levels.

(b) A person may harvest a forest botanical product from National Forest system lands, without charge, up to but not exceeding the personal use harvest level established for the product. A person seeking such personal use of a forest botanical product must comply with the procedures set forth in § 223.239 of subpart G.

(c) Under the following circumstances, the Forest Service waives the collection of fees otherwise required pursuant to § 223.278 of this subpart:

(2) On any occasion when a Regional Forester or Forest Supervisor, having proper authorization from the Chief, makes a determination in writing that the harvest facilitates scientific research or is for salvage because other management activities will destroy or damage the product.

§ 223.280 Monitoring and revising of harvest levels.

Monitoring and revision of harvest levels for forest botanical products for

purposes of the pilot program shall be conducted as provided at § 223.219 of subpart G.

§ 223.281 Disposition of collected fees.

(b) Funds deposited into the special account specified in paragraph (a) of this section shall be expended at a National Forest or National Grassland in proportion to the fees collected at that unit to pay for costs of: conducting inventories of forest botanical products; determining sustainable harvest levels for each species or type of forest botanical product; monitoring and assessing the impact of harvest levels and methods; conducting restoration activities, including vegetation restoration, necessitated by the collection, harvest, or removal of forest botanical products; or administering the pilot program, including environmental or other analyses.
