SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-56667; File No. SR-NFA-2007-04]

Self-Regulatory Organizations; National Futures Association; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Regarding Compliance Rule 2-4: Misuse of Trade Secrets and Proprietary Information

October 17, 2007.

Pursuant to section 19(b)(7) of the Securities Exchange Act of 1934 ("Exchange Act"),¹ and Rule 19b-7 under the Exchange Act,² notice is hereby given that on August 20, 2007, National Futures Association ("NFA") filed with the Securities and Exchange Commission ("Commission") the proposed rule change described in Items I, II, and III below, which Items have been substantially prepared by NFA. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons. NFA also has filed the proposed rule change with the

Commodity Futures Trading Commission ("CFTC").

NFA, on August 17, 2007, submitted the proposed rule change to the CFTC for approval and invoked the "ten-day" provision of section 17(j) of the Commodity Exchange Act ("CEA").³ By letter dated September 5, 2007, the CFTC notified NFA of its determination not to review the proposed rule change.⁴

I. Self-Regulatory Organization's Description of the Proposed Rule Change

Text of Proposed Rule Changes Interpretive Notice NFA Compliance Rule 2-4: Misuse of Trade Secrets And Proprietary Information

National Futures Association ("NFA") Compliance Rule 2-4 provides that Members and Associates shall observe high standards of commercial honor and just and equitable principles of trade in the conduct of their commodity futures business. Over the years, NFA's Board of Directors ("Board") has provided guidance on certain issues to ensure that Members and Associates understand their responsibilities to observe just and equitable principles of trade and to act honestly, fairly, and in the best interests of customers.

Compliance Rule 2-4 prohibits Members and Associates from knowingly obtaining or seeking to obtain another Member's or Associate's confidential information or trade secrets without that person's permission. It also prohibits Members and Associates from knowingly or recklessly misusing confidential information or trade secrets in their possession. Although that rule does not seek to regulate business disputes between Members or to extend beyond commodity futures activities, it does reach conduct that could potentially harm customers.

Conduct that may violate Compliance Rule 2-4 includes:

- Misusing customer information, such as misappropriating social security numbers or purposefully violating the firm's privacy statement;
- Disclosing customer orders prior to execution (except as permitted by exchange rules); or
- Obtaining or attempting to obtain information disclosing a CTA's historical trading positions without the CTA's permission.

These are merely examples of conduct that could potentially harm customers. Any Member or Associate that knowingly obtains or seeks to obtain

confidential information or trade secrets of another Member or Associate without that person's permission or that knowingly or recklessly misuses trade secrets and/or proprietary information in the conduct of its commodity futures business violates Compliance Rule 2-4.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NFA has prepared statements concerning the purpose of, and basis for, the proposed rule change, burdens on competition, and comments received from members, participants, and others. The text of these statements may be examined at the places specified in Item IV below. NFA has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Section 15A(k) of the Exchange Act⁵ makes NFA a national securities association for the limited purpose of regulating the activities of NFA members ("Members") who are registered as brokers or dealers in security futures products under section 15(b)(11) of the Exchange Act.⁶ The new interpretive notice applies to all Members, including those who are registered as security futures brokers or dealers under section 15(b)(11).

NFA Compliance Rule 2-4 requires Members and Associates to observe high standards of commercial honor and just and equitable principles of trade in the conduct of their commodity futures business. The proposed notice makes clear that Members and Associates violate NFA Compliance Rule 2-4 if they knowingly obtain or seek to obtain another Member's or Associate's confidential information or trade secrets without that person's permission or knowingly or recklessly misuse confidential information or trade secrets in their possession when these activities may harm futures customers. It also clarifies that this prohibition is limited to a Member's commodity futures business and does not reach into areas beyond NFA's normal jurisdiction.

The notice is narrowly drawn, focusing on behaviors that could harm customers. It gives three examples of behavior that violates the rule: (1)

Misusing customer information, (2) disclosing customer orders, and (3) obtaining or attempting to obtain confidential information disclosing a CTA's historical trading positions.

2. Statutory Basis

The rule change is authorized by, and consistent with, Section 15A(k) of the Exchange Act.⁷ This Section requires NFA to have rules that are designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest in connection with security futures products. The proposed rule change accomplishes this by prohibiting the misuse of nonpublic information.

B. Self-Regulatory Organization's Statement on Burden on Competition

The rule change will not impose any burden on legitimate competition. It should, however, prevent Members from using illegitimate means to gain a competitive advantage when those means could harm customers.

C. Self-Regulatory Organization's Statement of Comments on the Proposed Rule Change Received From Members, Participants, or Others

NFA did not publish the rule change to the membership for comment but did discuss it with NFA's FCM, IB, and CPO/CTA Advisory Committees, which generally supported it. NFA did not receive comment letters concerning the rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

NFA, on August 17, 2007, submitted the proposed Interpretive Notice entitled "NFA Compliance Rule 2-4: Misuse of Trade Secrets and Proprietary Information" to the CFTC for approval and invoked the "ten-day" provision of section 17(j) of the CEA.⁸ The CFTC notified NFA of its determination not to review the proposed rule change.⁹ The proposed rule change has become effective on September 5, 2007.

Within 60 days of the date of effectiveness of the proposed rule change, the Commission, after consultation with the CFTC, may summarily abrogate the proposed rule change and require that the proposed rule change be refiled in accordance with the provisions of section 19(b)(1) of the Exchange Act.¹⁰

SUPPLEMENTARY INFORMATION: The Federal Aviation Act (the Act) at 49 U.S.C. 41722, authorizes the Secretary of Transportation to request air carriers to attend a meeting with the FAA Administrator to discuss flight schedule reductions at any severely congested airport during peak operating hours.

Until relatively recently, the FAA managed congestion at JFK through the High Density Rule (HDR), 14 CFR part 93, subpart K, which limited aircraft operations at JFK during the five hours of peak transatlantic demands—3 p.m. through 7:59 p.m. local time.

The HDR is an air traffic rule that establishes limited on the number of arrivals and departures that can occur from certain airports during specific, identified hours. The HDR limits flights in order to manage congestion and delays. Currently, only Washington's Reagan National Airport is regulated under the HDR. The HDR was formerly effective at Chicago O'Hare International Airport (O'Hare), New York's JFK New York's LaGuardia airport (LaGuardia), and Newark's Liberty International Airport (Newark).

In 2000, Congress, under the aviation Investment and Reform Act for the 21st Century (AIR-21), called for the phase out of the HDR program at O'Hare, LaGuardia and JFK.¹

The HDR was phased out at JFK as of January 1, 2007, permitting increased scheduling at JFK during the afternoon hours.² In addition, since the spring of 2006, JFK has evolved from its traditionally international role, as U.S. air carriers have significantly increased their domestic scheduled operations throughout the day. Most of the increase has come from the two largest operators at the airport, Delta airlines and JetBlue Airways.

As a result of the increase in scheduled operations at JFK, demand exceeds the airport's capacity during some periods of the day. During the morning hours, JFK routinely incurs volume-related delays during the 7 a.m. through 9 a.m. hours. The afternoon and evening demand at JFK now exceeds the

¹ Newark has not been impacted by the HDR since the early days of its inception.

² Since the expiration of the HDR, the FAA reinstated caps at O'Hare, by rule, and at LaGuardia, by FAA order.
