

with all pertinent laws, rules, and regulations, and to allow the public an opportunity to participate in the NEPA process. It also is more economical and efficient for the Government and industry to hold this sale in conjunction with Central Planning Area Sale 206 at the same time and location. The area to be offered in Sale 224 is small, approximately 118 tracts, whereas recent Central Planning Area sales have offered over 4,000 tracts. The logistics of holding a sale are intensive and relatively costly; therefore, it makes sense to hold the smaller sale in conjunction with a larger sale. Additionally, holding Sale 224 in conjunction with Sale 206 would help ensure that a sufficient number of companies would be represented in bidding, which may enhance the number of bids and possibly the revenue generated by more competitive bidding.
