SUPPLEMENTARY INFORMATION: This program is a statutory requirement pursuant to the Agricultural Marketing Act of 1946 [7 U.S.C. 1621 *et seq.*], hereinafter referred to as the "Act".

The Act provides for and accordingly, the interim final rule published in the **Federal Register** on July 3, 2007 (72 FR 36341), established a Dairy Product Mandatory Reporting program that: (1) Requires persons engaged in manufacturing dairy products to provide to the Department of Agriculture (Department) certain information including the price, quantity, and moisture content, where applicable, of dairy products sold by the manufacturer; and (2) Requires manufacturers and other persons storing dairy products to report to the Department information on the quantity of dairy products stored.

This reopening of the comment period will provide interested parties with an additional opportunity to submit comments on all aspects of the program, including but not limited to the product specifications and whether there should be a minimum transaction volume for reported transactions. Specifically, AMS also solicits comments on whether Kosher dairy products and products produced from milk from cows not treated with recombinant bovine somatotropin (rbST) should be included in the Dairy Product Prices report, whether these products command a premium in the marketplace, and whether there are increased production costs associated with manufacturing these products. During the initial comment period, some commenters may have limited their comments to the issue of forward contracting and to the verification aspect of the program.

AMS seeks comments on all aspects of the program, including those specific issues outlined above, and will consider all comments received in promulgating a final rule.
