

Panel Review is filed, a panel is established to act in place of national courts to review expeditiously the final determination to determine whether it conforms with the antidumping or countervailing duty law of the country that made the determination.

Under Article 1904 of the Agreement, which came into force on January 1, 1994, the Government of the United States, the Government of Canada and the Government of Mexico established *Rules of Procedure for Article 1904 Binational Panel Reviews* ("Rules"). These Rules were published in the **Federal Register** on February 23, 1994 (59 FR 8686).

A first Request for Panel Review was filed with the United States Section of the NAFTA Secretariat, pursuant to Article 1904 of the Agreement, on November 6, 2007, requesting panel review of the Notice of Final Antidumping Changed Circumstances Review described above.

The Rules provide that:

(a) A Party or interested person may challenge the final determination in whole or in part by filing a Complaint in accordance with Rule 39 within 30 days after the filing of the first Request for Panel Review (the deadline for filing a Complaint is December 6, 2007);

(b) A Party, investigating authority or interested person that does not file a Complaint but that intends to appear in support of any reviewable portion of the final determination may participate in the panel review by filing a Notice of Appearance in accordance with Rule 40 within 45 days after the filing of the first Request for Panel Review (the deadline for filing a Notice of Appearance is December 21, 2007); and

(c) the panel review shall be limited to the allegations of error of fact or law, including the jurisdiction of the investigating authority, that are set out in the Complaints filed in the panel review and the procedural and substantive defenses raised in the panel review.

Dated: November 7, 2007.

Caratina L. Alston,

United States Secretary, NAFTA Secretariat.

Nominations for the 2008 Annual Sustainable Fisheries Leadership Awards

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for nominations.

SUMMARY: In 2006, NOAA established the Sustainable Fisheries Leadership Awards Program to annually recognize outstanding performances, achievements and leadership by industries, organizations and individuals who promote best stewardship practices for the sustainable use of living marine resources and ecosystems, and who have fostered change and inspired a stewardship ethic within their community. This notice solicits nominations of qualified individuals for the third annual Sustainable Fisheries Leadership Awards in six award categories listed in this Notice. NMFS has partnered with the Fish for the Future Foundation for this awards program.

DATES: Nomination forms and required supporting materials must be received on or before February 11, 2008.

ADDRESSES: Nominations should be sent electronically to the Fish for the Future Foundation, nominations@fish4thefuturefoundation.org. Nominations can also be mailed to Sustainable Fisheries Leadership Awards, % Fish for the Future Foundation, 3382 Gunston Road, Alexandria, VA 22302, or faxed to (703) 379-5777. All information and official nomination forms can be accessed electronically at the Fish for the Future Foundation website www.fish4thefuturefoundation.org or NMFS website www.nmfs.noaa.gov/awards/.

FOR FURTHER INFORMATION CONTACT:

Michele Shea, Fish for the Future Foundation, (703) 379-6101, Michele.Shea@fish4thefuturefoundation.org.

SUPPLEMENTARY INFORMATION:

Established by NMFS, the Sustainable Fisheries Leadership Awards reflect the values and principles of NOAA and its mission to ensure sustainable management of U.S. fishery resources for the benefit of our Nation. NMFS has partnered with the Fish for the Future Foundation, an Internal Revenue Service-approved non-profit

organization, to assist with the awards program. The Fish for the Future Foundation is dedicated to promoting education among the American public on the need for and importance of a vibrant, sustainable fishing industry.

The Sustainable Fisheries Leadership Awards Program is open to fishing industry sectors, organizations, individuals, and state, local and federal government agencies and their employees. Organizations, individuals and agencies cannot nominate themselves. A nominee cannot be nominated for more than one award category. International entities or employees of NMFS are not eligible to receive an award under any category. Presenting an award under each of the six categories will be entirely dependent on the pool nominations received and NMFS' determination of their qualifications. As such, there may be years in which an award is not presented under one or more of the categories.

Nominated through a public process, nominees will be considered for the following categories: Special Recognition Award, Stewardship & Sustainability Award, Conservation Partnership Award, Science, Research & Technology Award, Coastal Habitat Restoration Award, and Public Education, Community Service & Media Award.

Nominations must be submitted on the official nomination form available at www.nmfs.noaa.gov/awards/ or www.fish4thefuturefoundation.org, and submitted electronically, mailed or faxed to Fish for the Future Foundation (see **DATES** and **ADDRESSES**). Relevant supporting materials, not to exceed 10 pages in length, may be submitted along with the nomination form. At least one reference is required however no more than three references or endorsements will be accepted or considered by the review panel. Nominations will be reviewed by the Marine Fisheries Advisory Committee (a federal advisory group established to advise the Secretary of Commerce on living marine resource issues) as well as NMFS leadership, making recommendations to the Assistant Administrator for Fisheries. Final selection of award recipients is made by the Assistant Administrator for Fisheries and the Under Secretary of Commerce for Oceans and Atmosphere.

The following award categories are open for nominations:

Special Recognition Award — This award honors an individual who has demonstrated a life time achievement in innovative management and outstanding leadership for the

stewardship and sustainable use of living marine resources.

Stewardship & Sustainability Award — This award recognizes excellence in promoting responsible stewardship and innovative management for long-term social, economic and biological sustainability of living marine resources.

Conservation Partnership Award — This award recognizes outstanding achievement in cooperative and collaborative work among stakeholder groups to foster best practices in sustainable living marine resources management.

Science, Research & Technology Award — This award recognizes excellence in the field of applied fisheries research. Nominations will be considered for advancements in technology to improve fisheries monitoring, reduce bycatch, protect habitat, conserve protected species, and enhance fishing operations as well as other technological advances that reduce the impacts of human activity on the marine environment.

Coastal Habitat Restoration Award — This award recognizes significant achievements made in coastal habitat restoration, including the development of innovative approaches and community based support necessary to accomplish the ambitious goals inherent with these projects.

Public Education, Community Service & Media Award — This award recognizes efforts to inform the general public about marine fisheries and living marine resources in the United States, or efforts to support the nation's fishing communities through community service.

Evaluation of nominations will include but are not limited to the following criteria:

Leadership — the individual or the overall team effort that has been demonstrated over a sustained period of time in support of the stewardship and sustained use of living marine resources.

Impact on Stewardship — the degree of stewardship and conservation ethics and practices fostered within the larger community of living marine fisheries stakeholders and users.

Ecological Significance — the impact and benefit to the overall health and abundance provided to living marine resources.

Long-term Significance — the impact to the science, management and economic sustainability of living marine resources.

These awards are presented annually. This is the third year of the Sustainable Fisheries Leadership Awards.

Information on last year's awards and award recipients can be found at www.nmfs.noaa.gov/awards.

Dated: November 6, 2007.

William T. Hogarth,

*Assistant Administrator for Fisheries,
National Marine Fisheries Service.*

Stock Assessment of Small Coastal Sharks in the U.S. Atlantic and Gulf of Mexico

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability.

SUMMARY: NMFS announces the availability of a final stock assessment report on small coastal sharks (SCS) in the Atlantic and Gulf of Mexico. The report summarizes the consensus of review panel assessments, describes methodologies used to determine SCS complex stock status, and details relevant working documents, including copies of Data and Assessment workshop reports.

ADDRESSES: Requests for copies of the SCS final stock assessment report should be sent to Robert Smith, Highly Migratory Species Management Division (F/SF1), National Marine Fisheries Service (NMFS), 1315 East-West Highway, Silver Spring, MD 20910, or may be sent via facsimile (fax) to (301)713-1917 or phone (301)713-2347. Electronic copies of the stock assessment and all supporting documents may also be obtained on the internet at: <http://www.sefsc.noaa.gov/sedar/>.

FOR FURTHER INFORMATION CONTACT: For information on the methods, data, and results of the stock assessment, contact Eric Cortes by phone at (850) 234-6541 or by fax at (850) 235-3559.

SUPPLEMENTARY INFORMATION: This assessment for SCS was conducted, as close as possible, to the procedures of the Southeast Data, Assessment, and Review (SEDAR) process to ensure the best available data and techniques were used. SEDAR is a cooperative Fishery Management Council process initiated in 2002 to improve the quality and reliability of fishery stock assessments in the South Atlantic, Gulf of Mexico,

and U.S. Caribbean. SEDAR emphasizes constituent and stakeholder participation in assessment development, transparency in the assessment process, and a rigorous and independent scientific review of completed stock assessments.

SEDAR is organized around three workshops. The first in the series for the SCS assessment, the Data Workshop, was held in Panama City, FL, February 5 through February 9, 2007, and reviewed and compiled fisheries, monitoring, and life history data. An Assessment Workshop, the second workshop in the series, was held in Panama City, FL, May 7 through May 11, 2007, and developed assessment models and estimated population parameters using the information provided from the Data Workshop. The Review Workshop was the final workshop, in which a panel of independent experts met in Panama City, FL, from August 6 through August 10, 2007, and reviewed the data and assessments and recommended the most appropriate values of critical population and management quantities. All workshops were open to the public. More information on the SEDAR process can be found at <http://www.sefsc.noaa.gov/sedar/>. Additionally, the final stock assessment report and all supporting documents can be found at that website under the heading "SEDAR 13 - Small Coastal Sharks."

The assessment reviewed data and models for the SCS complex and for each individual within the SCS complex, as per recommendations in previous assessments. This allowed individual analyses, discussions, and stock status determinations for five separate assessments: 1) SCS complex, 2) Atlantic sharpnose shark, 3) bonnethead shark, 4) blacknose shark, and 5) finetooth sharks. These assessments are included in one report as many of the indices, data, and issues overlap among assessments. The Review Panel found that the data and methods used were appropriate and the best available. The Review Panel also endorsed recommendations for future research contained in the Data Assessment workshop reports, added additional recommendations, and provided comments on the SEDAR process to consider in the future.
